# WELCOME TO KiS

Khaled International Schools (KiS) Riyadh Boys' and Girls' schools were founded in 1995 as private, international, English-medium, day schools (KG1 to Grade 12) that cater for Saudi and non-Saudi learners. The schools also offer Arabic as a first and second language as well as French for communication purposes. KiS are learner-centered in philosophy of education and multi-national in curriculum, staff, students and range of services.

KiS Riyadh are members of the LWIS Network since 2012. KiS offer a tailor-made American Curriculum and are accredited by Cognia. Both schools are under the supervision of the Ministry of Education.

The schools' purpose-built facilities house an independent Girls' School KG1 to Grade 12 where the Preschool classes in the Girls' School are co-educational, while Grades 1, 2 and 3 boys are housed in independent classes in the Girls' School. The facilities also accommodate an independent Boys' School Grades 4 to 12.

# **We Measure Success One Happy Learner at a Time**

# **A MESSAGE FROM THE GIRLS' SCHOOL ACADEMIC DIRECTOR**

---

The 2021-2022 Academic year was certainly challenging, but with a wonderful team, cooperative parents, and enthusiastic learners, we managed to pull through and record another successful year.

It was quite an interesting experience to shift the teaching and learning process from a digital to a blended model, then finally return to normal, with learners coming back to school full-time. We have no doubt that both our learners and their teachers will work together to excel this coming academic year.

We are indeed proud of becoming an Advanced Placement (AP) Center and a candidate school for the International Baccalaureate (IB) Programme. We are certainly looking forward to witnessing this achievement through great results, with our learners at the heart of it all.

It was very rewarding to wrap up the academic year with an unforgettable graduation ceremony that our graduates will hold in their hearts for many years to come.

We hope you enjoyed your summer and are ready to take on another academic year!

**Johanne Mohanna**

# GIRLS' SCHOOL FACILITIES

- ▶ Administration Building which houses the School Principal, Academic Director, Front Desk Officer, and Human Resource officer.
- ▶ Bloc A which houses the Preschool Section, Daycare, Infirmary, ICT lab, Staff rooms, PE room and playground equipped with slides.
- ▶ Bloc B which houses the Upper Elementary, Middle and High School Sections, ICT labs, Biology and Chemistry lab, Physics lab, Robotics lab, Library, Staff rooms, Art room, Assembly Hall and Theater.
- ▶ Bloc C which houses the Lower Elementary Section, Infirmary, Counseling office, ICT lab, Staff rooms and Art rooms.
- ▶ The school also has two playgrounds equipped for football, basketball, ping pong and volleyball in addition to two canteens.

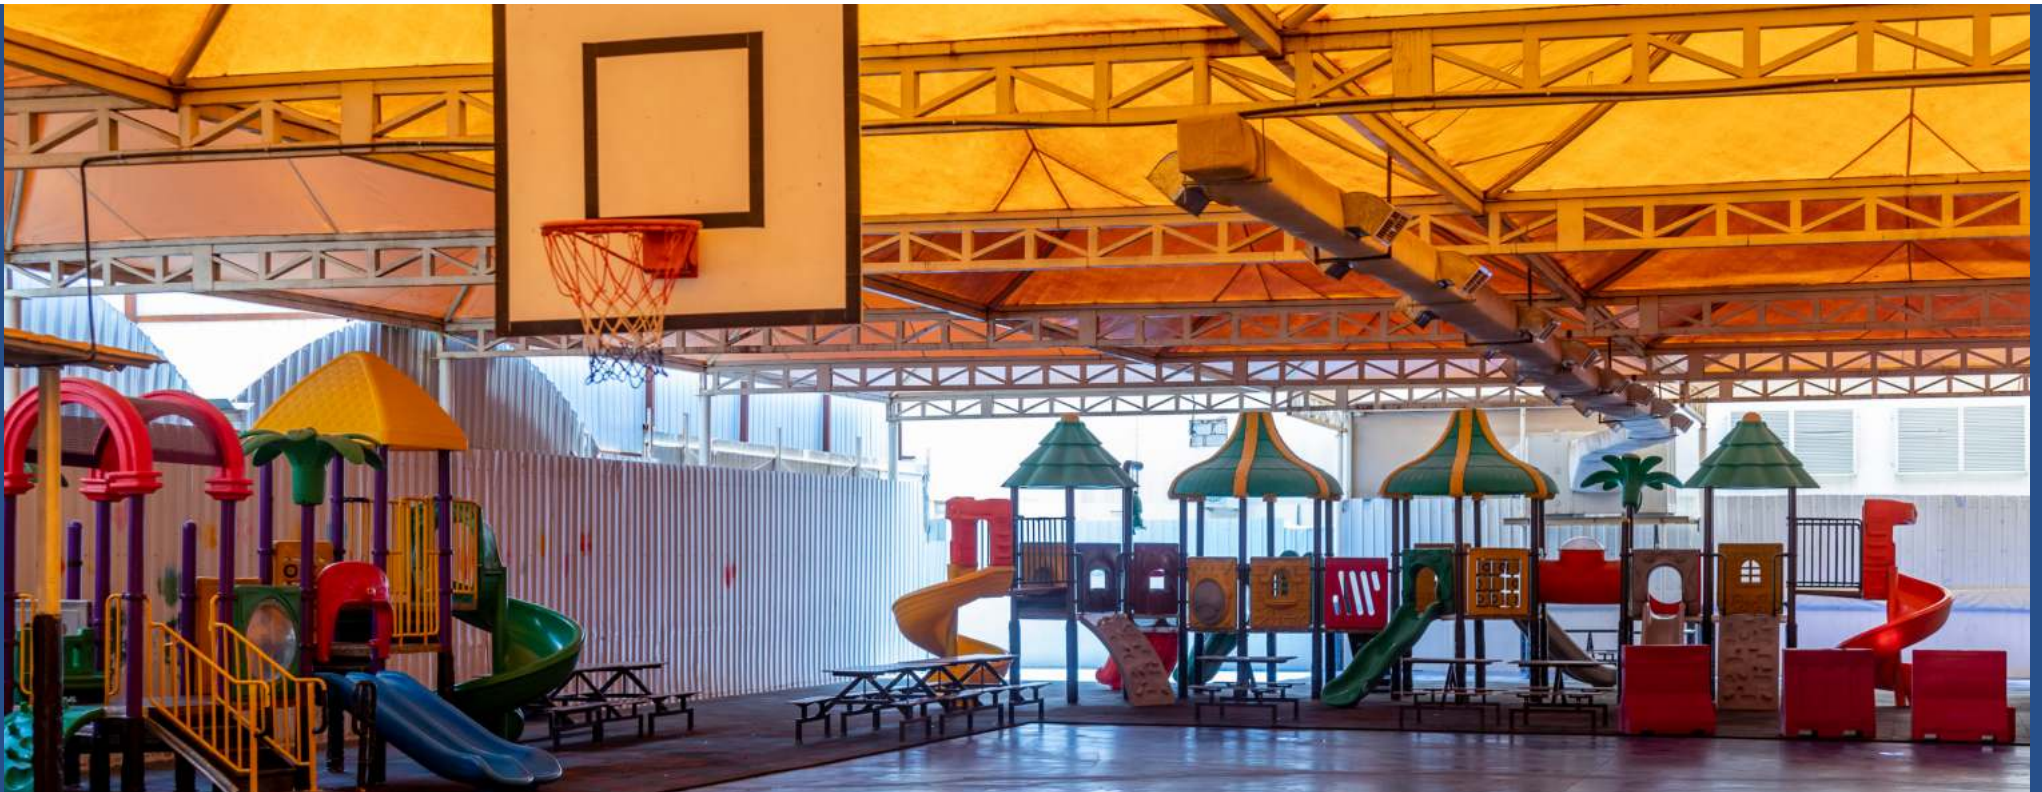

# DIGITAL LEARNING

Gone are the days of blackboards and chalk dusters. KiS implements a web-based education which strengthens students' learning experience. KiS uses a more student-centered learning approach which blends the best of the traditional classroom with more modern, digital learning environment tools.

# PLAYGROUNDS

# SCHOOL THEATER

# ICT ROOM

# BUS TRACKING SYSTEM

- School buses are equipped with online monitoring systems.
- Parents can track their children's commute to and from school.
- KiS is committed to ensuring parents are well-informed and at ease, at all times.

# EDUFLAG AT KHALED INTERNATIONAL SCHOOLS

With EduFlag App parents will receive up to date notifications about their children's grades and attendance, and all school memos.

Seesaw has been a crucial tool for promoting Preschool learners' voice and choice in our Personalized Learning Environments at KiS. Our focus is on empowering learners with choice and voice in their learning pathway, and Seesaw has been a crucial tool for enacting this vision.

EDU  
FLAG

*Seesaw*

# EDMODO THE SAFE SOCIAL NETWORK PLATFORM

Our school is using a website created exclusively for education called 'Edmodo' (<http://kis-edu.edmodo.com>) for French, Social Studies, Arabic, Islamic, History & Geography and ICT. Your child will access Edmodo at school and at home to ask questions or access school related materials, and solve Homework. Edmodo is available online ([www.edmodo.com](http://www.edmodo.com)) and also has a mobile and iPad app.

# **INTERNATIONAL CURRICULUM ALIGNED WITH NATIONAL & INTERNATIONAL STANDARDS**

# FUN EVENTS & EDUCATIONAL ACTIVITIES

- Fun events and activities give an opportunity for learners to bond with each other and with their teachers. They can release all their energy in a safe and controlled environment to be ready to give their full attention in class. In class learning activities are an enjoyable way to gain the information the learners need by using this modern instructional strategy where the teacher acts as a facilitator in each class and not only as an instructor.
- Open days and school trips allow learners to break the daily routine and simply have a great time.

# CREATIVE TEACHING METHODS

Creative instruction at KiS encourages students to think independently, participate actively and express themselves freely. Under creative instruction, students are more likely to become creative professionals.

# A HOLISTIC APPROACH TO EDUCATION

Along with cognitive development, the school addresses the learners' social, emotional and physical skills and ensures their well-being in all aspects.

# **PRESCHOOL**

---

# **DEPARTMENT**

# INTRODUCTION

# **PRESCHOOL DEPARTMENT WORD**

The world looks certainly better this year than it did in the past years.

In the past two years, we learned what it is to be locked down, hand sanitized, isolated, socially distanced, masked, and tested.

We found ways to unite and work together. Students found ways to connect, have fun, and be supportive while continuing to access education.

How we respond to life's challenges strengthens us and builds our confidence to cross the finish line together. My staff and I were so excited to welcome back in-person learning and hear learners' sounds as they navigated our hallways.

We've found ways to show our love and support through good and bad times. Within these pages, you will find reminders of the magic moments at KiS.

Parents, thank you for your continued support and sacrifices. My final hope is that you go out into the world and make a positive difference. This world is changing quickly, and your generation needs to design the future. With their dreams, the world will be changed for the better.

**Berlante Berjawi**  
**Head of Preschool Department**

# OUR TEACHING AND LEARNING IS FOCUSED ON THE FOLLOWING:

## CIRCLE TIME

Circle time, also called group time, refers to any time a group of learners are gathered together for an activity. It is a special time to share stories, sing songs, and participate in movement games and relaxation activities. Circle time is also a wonderful time to develop listening skills, promote oral communication, teach new concepts and skills, and have FUN.

# DIFFERENTIATED INSTRUCTION

The theory of differentiated instruction and inquiry based learning along with integration of technology is implemented as a strategy for teaching our young learners. The Preschool curriculum focuses on play-based learning center environments and a thematic/project approach. The curriculum provides learners with activities and learning experiences allows them to explore who they are within the context of their family life, culture, and to be able to question and evaluate.

# HANDS ON LEARNING

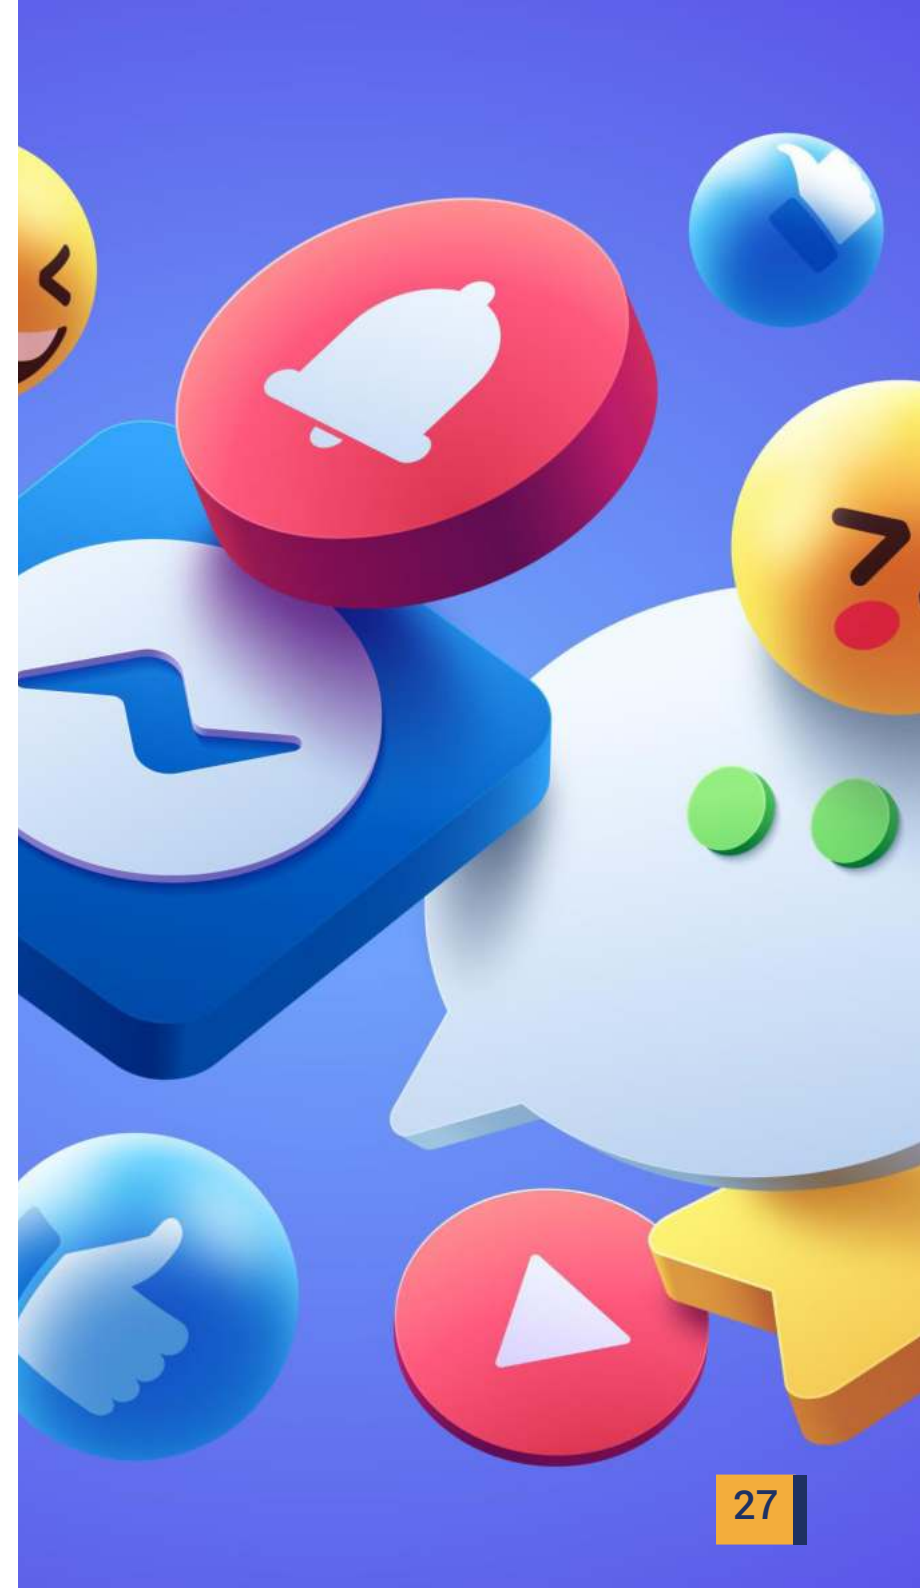

The ideal way to support children to learn, is to make the material fun and engaging. Important concepts can be taught through meaningful hands-on activities.

# SOCIAL MEDIA

In order to keep all parents involved with their children's progress, all activities are posted live on social media (Facebook, Twitter and Instagram), our school's mobile applications (Eduflag, Seesaw) and educational platforms.

# BACK TO SCHOOL

Anyone who went back to school...  
Put your hands up in the air!  
We are happier than before!!  
Today is a very special day for all of us!  
We would like to send our very warm and special  
welcoming messages to our lovely preschool  
learners.  
Your beautiful return to school filled our hearts  
with love, excitement and happiness!  
We wish you all the best in the rest of your academic  
year journey, which we will go through together.

# COMMUNITY HELPERS - K2

KG 2 Community Helpers  
WE CAN ALL BE COMMUNITY HELPERS...  
KG2 learners explore the importance of  
community helpers who ensure that the  
place is healthy, safe and happy.

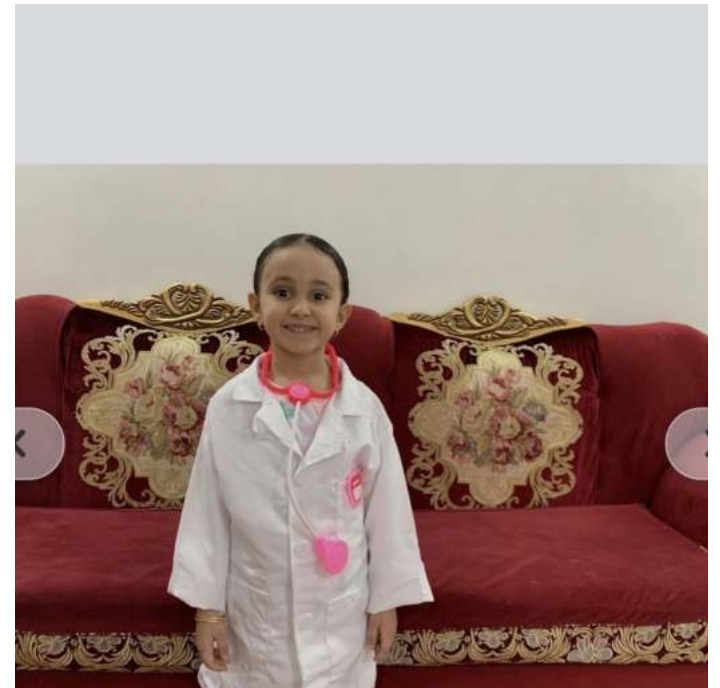

**Delfina Farias**

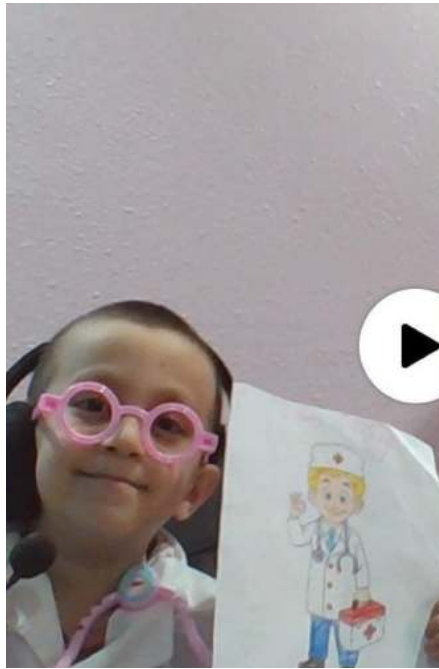

# COMMUNITY HELPERS - K3

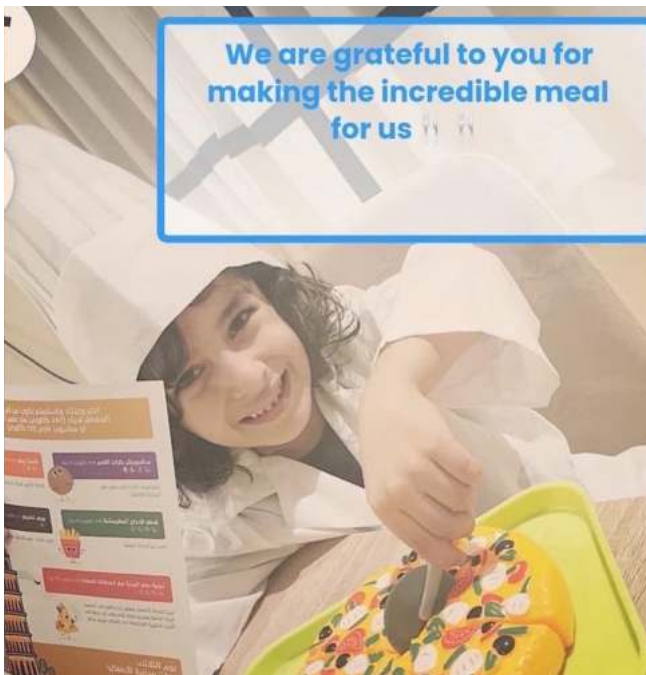

KG 3 learners wrote a Thank You Letter to their favorite community hero while wearing their specific costume.

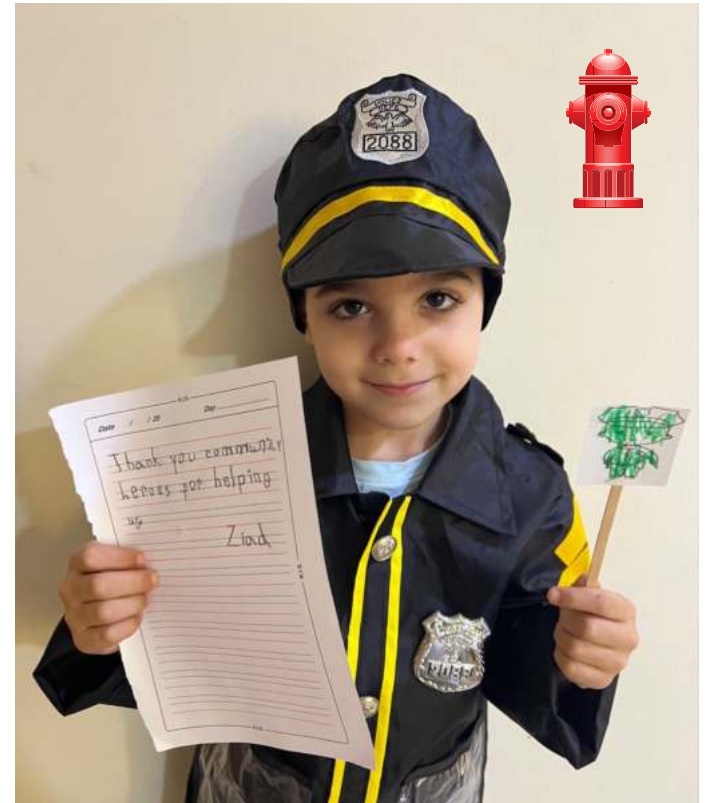

# | DECORATION

Be kind and be truthful and your life will be FRUITFUL.

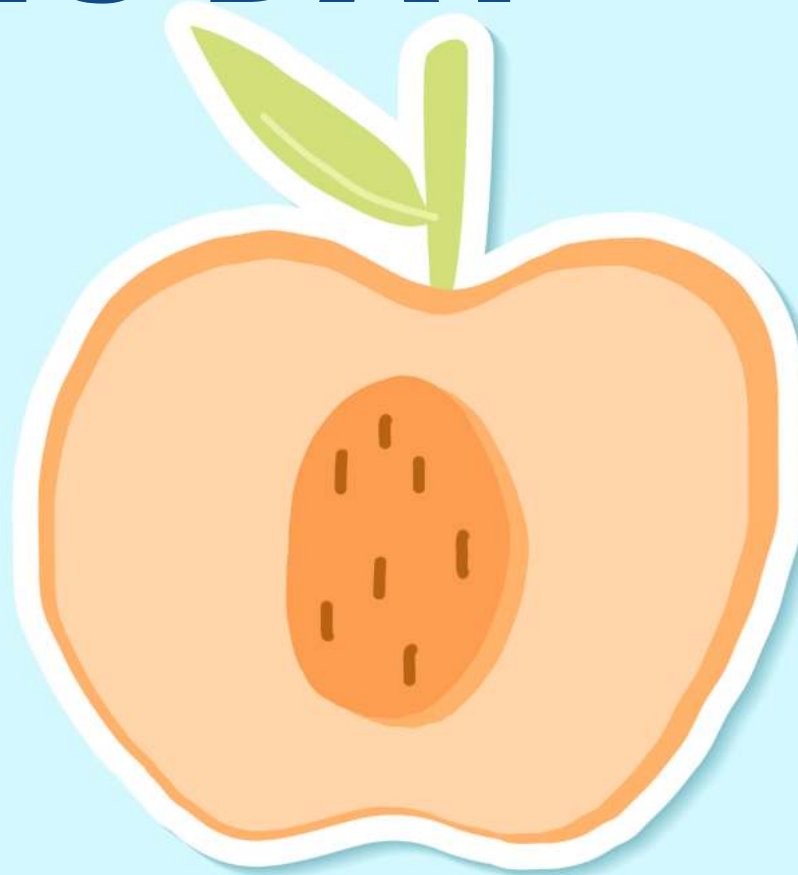

# FRUITS DAY

Too much fruit causes:  
HEALTH!

# GERGEAN PRESCHOOL

Our Preschoolers at KiS, celebrated Eid Al Fitr by wearing their colorful Gergaan outfits.

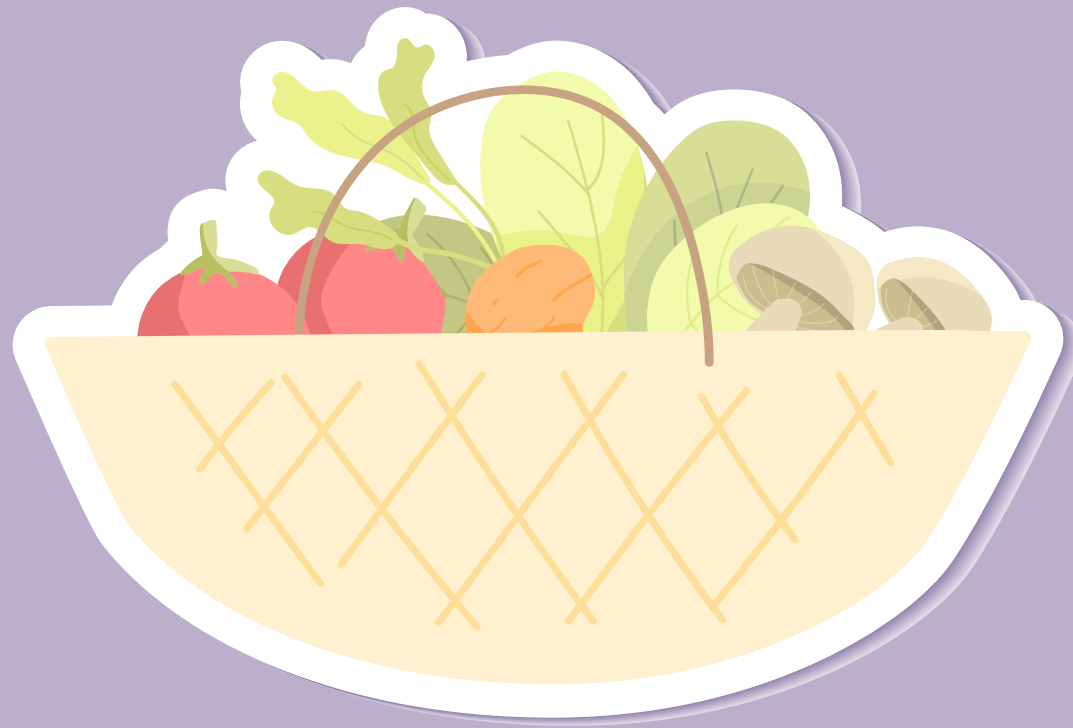

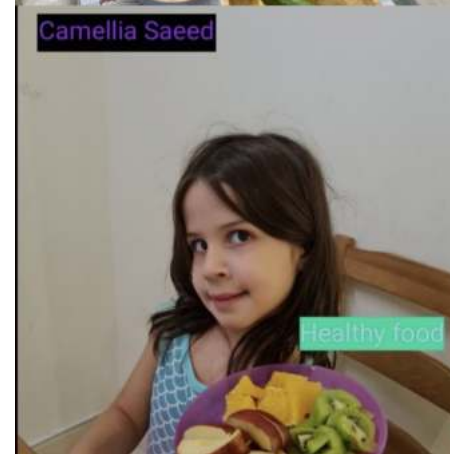

# HEALTHY FOOD

Preschool healthy food  
Another fun way to explore the concept of healthy eating, our preschoolers participated and shared their healthy snack as they learned more about food groups.

# K2 5 SENSES

VISION

HEARING

TOUCH

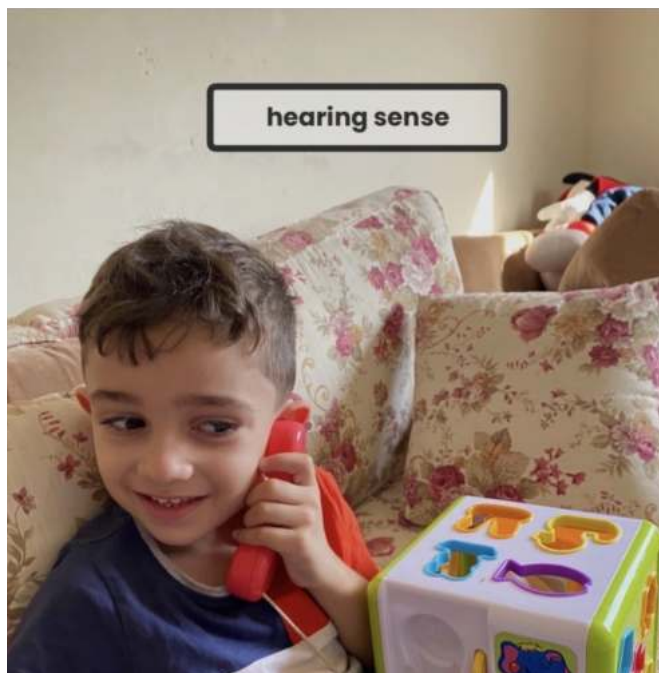

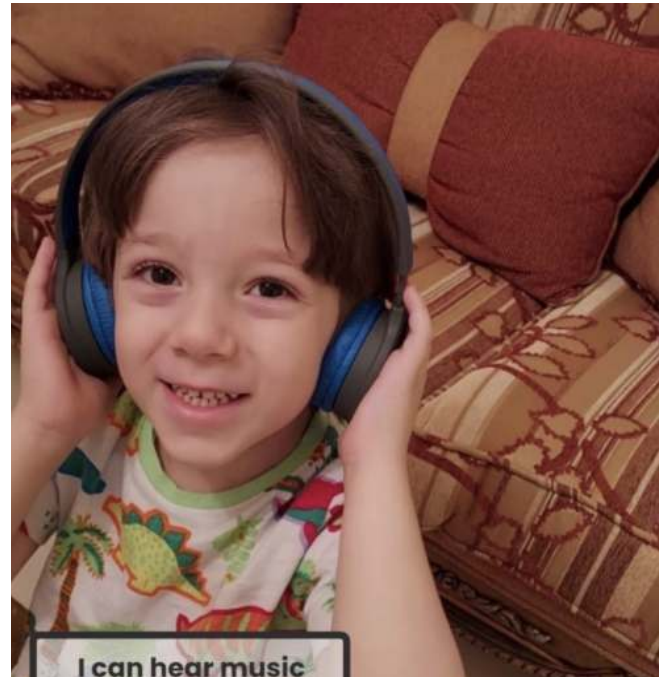

TASTE

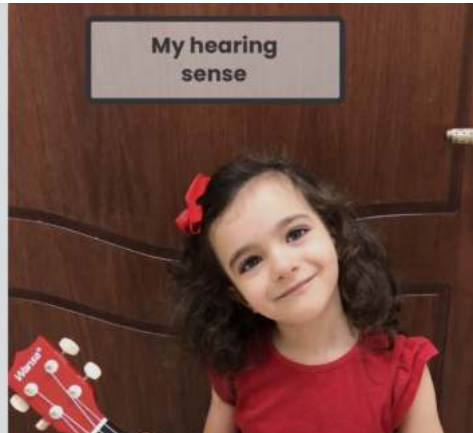

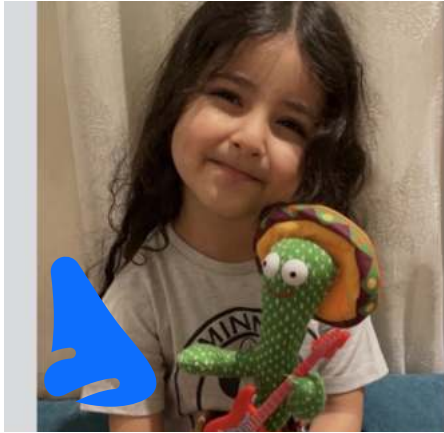

SMELL

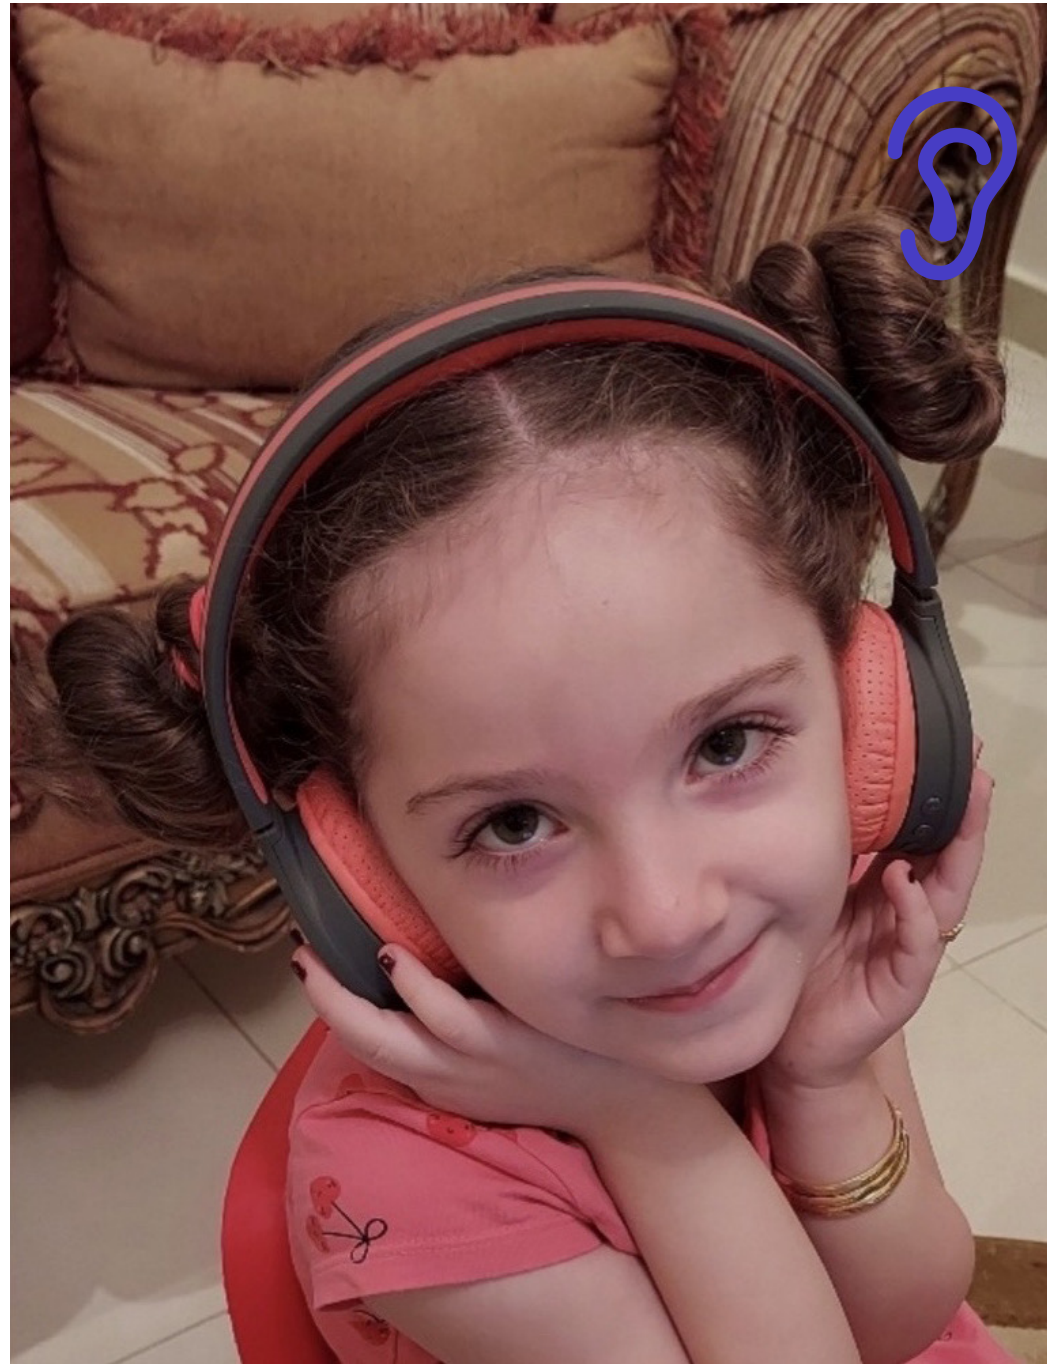

Young children are naturally curious about the world around them and often use their senses to explore and learn. Learning about 5 senses is a great thematic unit for preschoolers.

# K3 ANIMAL DAY

At KiS, we believe that hands-on activities are the best way for our Preschoolers to learn more about animals, and to foster respect for all living species. Our Preschoolers enjoyed wearing outfits of their favorite animals, and shared facts about them in class.

# K3 LAB VISIT

KG3 learners visited the science labs at KiS, and explored different tools, as part of their introduction to STEM subjects.

# K3 NAMES

KG 3 learners had fun as they created and built their names out of materials that represent them! They used dolls, legos, balls, crayons, flowers, etc... This activity shows our children's creation and imagination.

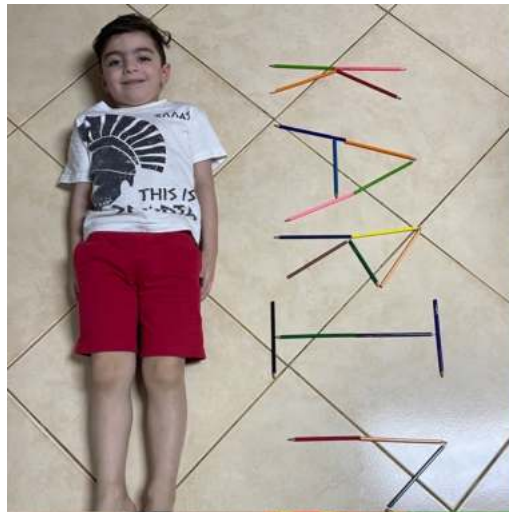

# K3 PLAYDOUGH

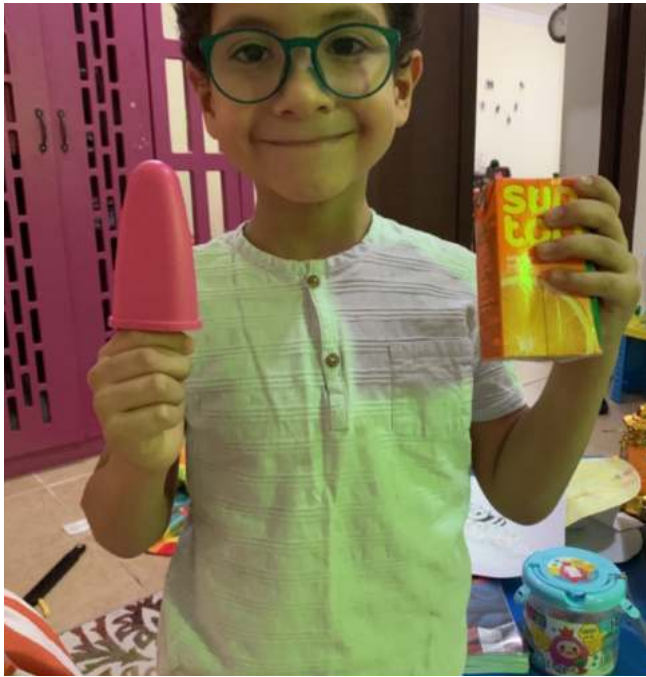

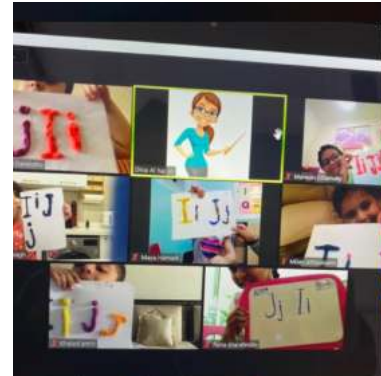

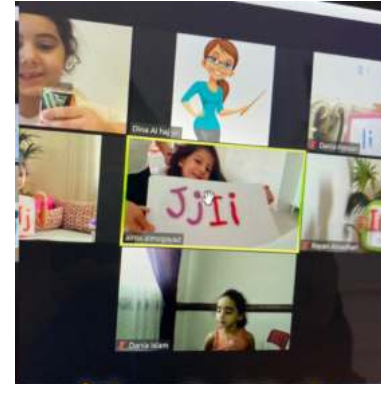

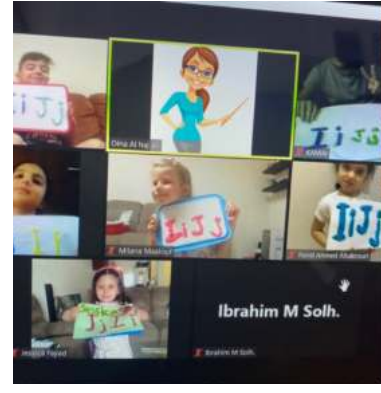

Play dough has many benefits. Beside enjoying it encourages children's language literacy, science, and math skills. This is the way our KG 3 learners modeled using play dough.

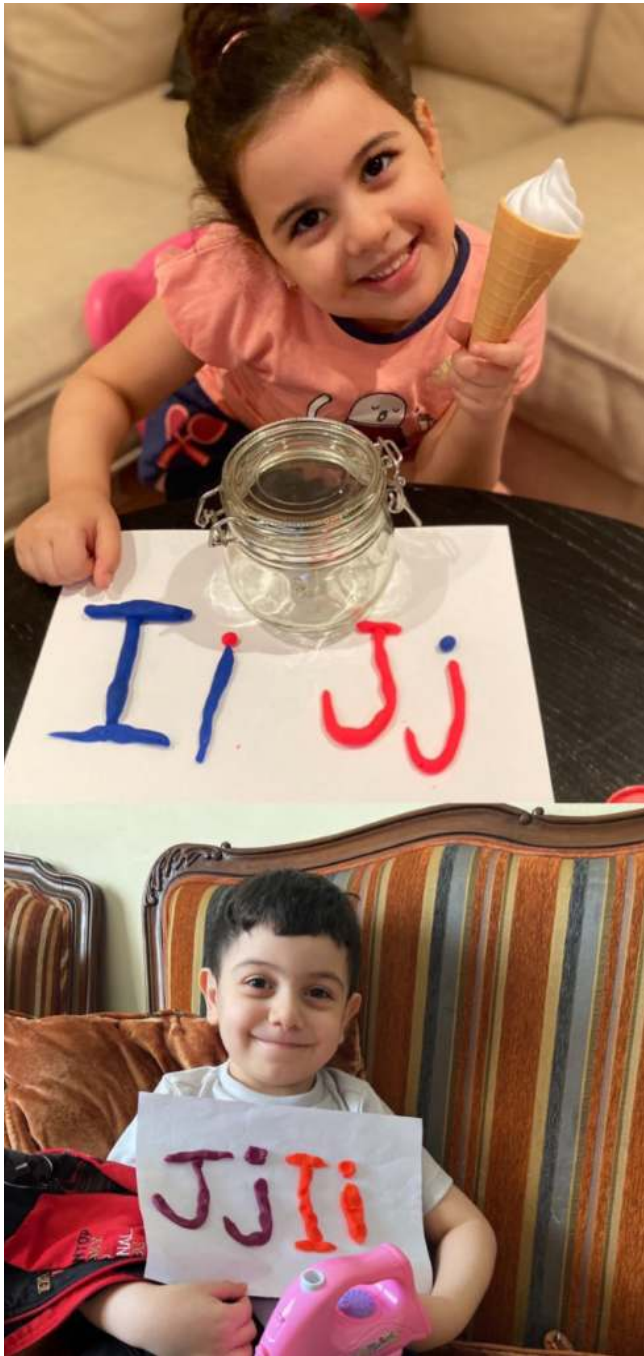

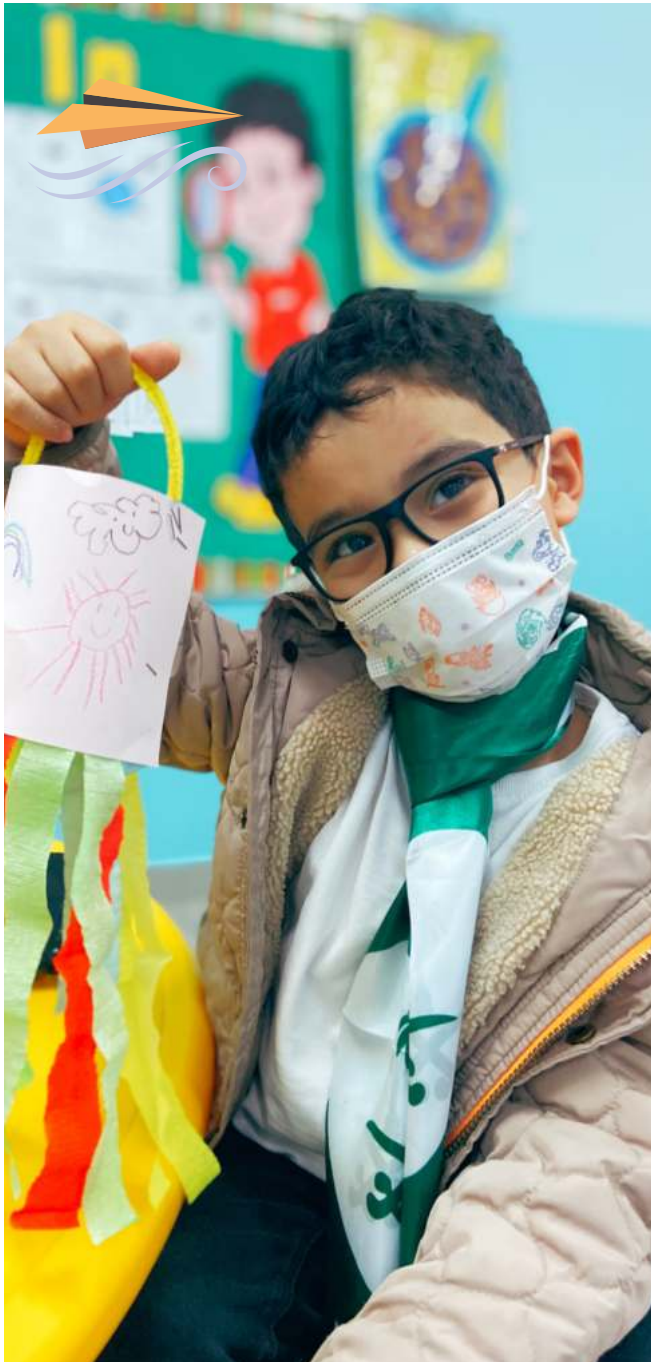

# K3 WINDSOCK

Watching the colors of the seasons catch in the wind was so fun after creating the windsock craft, by KG 3 learners.

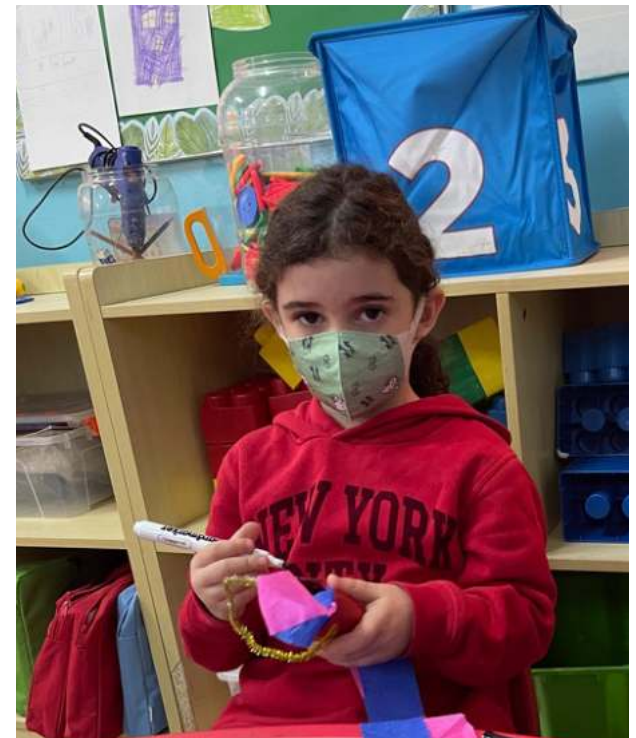

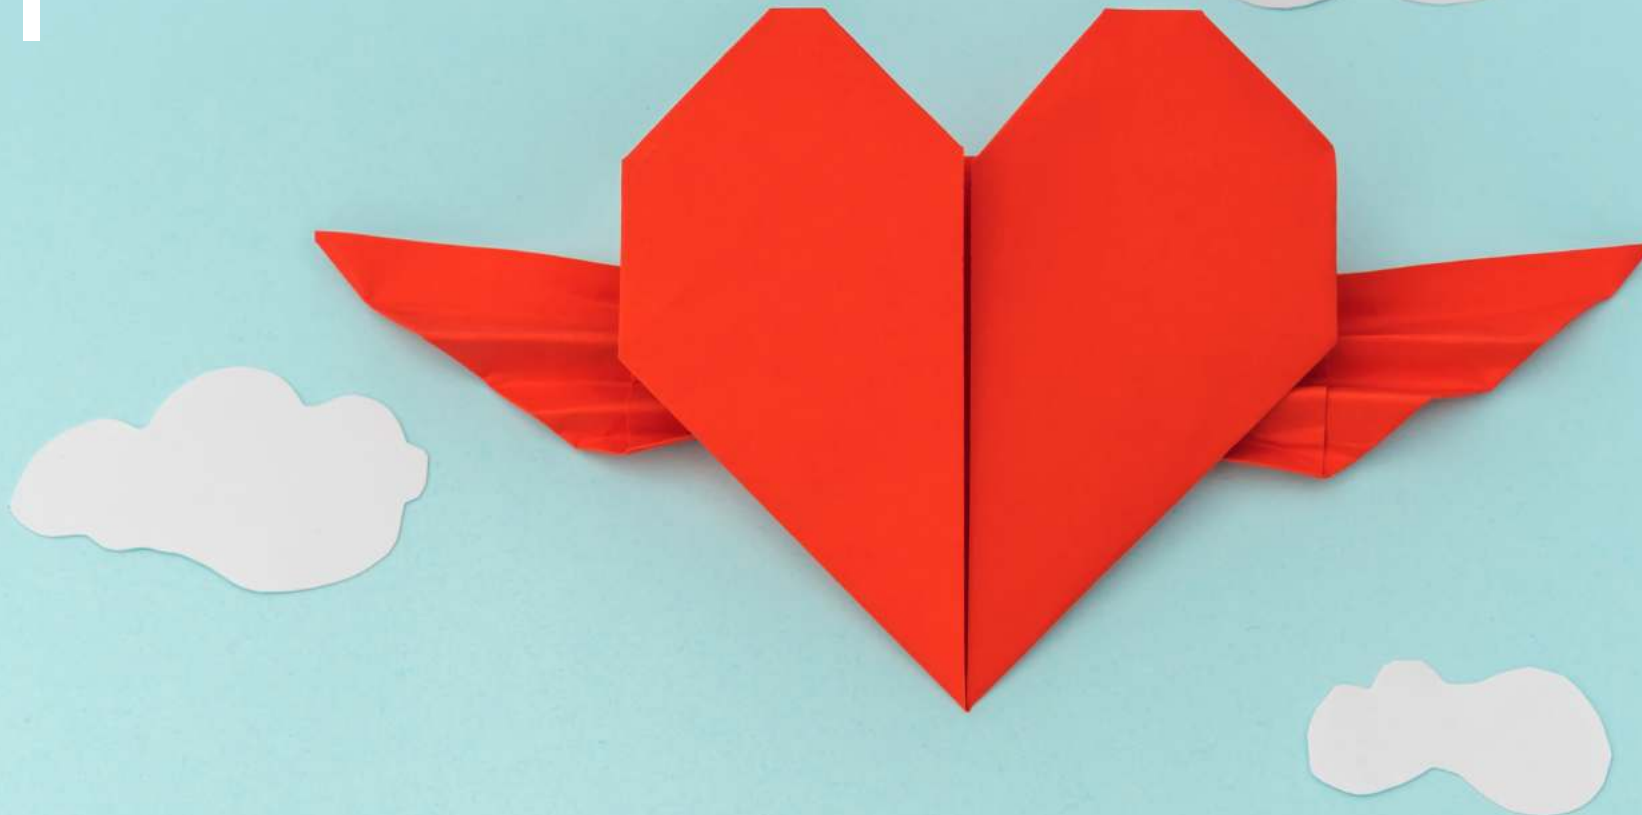

# MOTHER'S DAY

We are born to Love.  
Love is our Mother.  
Our Preschoolers created a special  
craft for their special Mothers.

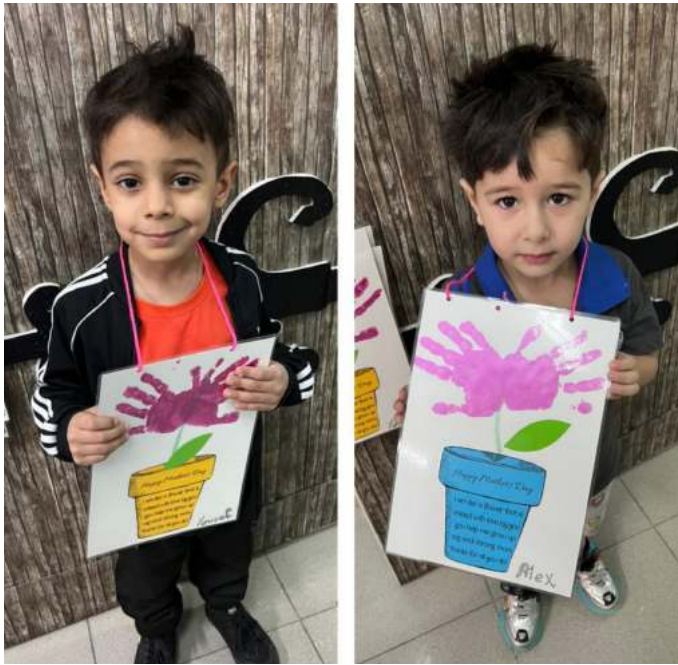

# **LOWER**

---

# **ELEMENTARY DEPARTMENT**

# INTRODUCTION

# LOWER ELEMENTARY DEPARTMENT WORD

Lower Elementary School consists of grades 1 to 3, boys and girls.

The program teaches skills and values to make well-rounded characters.

Our department is accommodating and fulfills the individual and general needs of all our students. In addition, it is well-equipped with all the tools needed to foster and encourage learning.

Motivating students is the key to success.

Our teachers give special rewards to their students to manage their behavior and academic performance.

As a part of our program, we focus on developing and integrating computer skills within different subjects. We also offer four different languages, including French and Chinese.

Lower Elementary School is a place where your child feels happy and safe.

**Nadine Baroudi**  
**Head of Lower Elementary Department**

# BACK TO SCHOOL

"First are best because they are beginnings".  
Jenny Han

| **BULLYING**

**STOP  
BULLYING**

I am a Star not a Bully!

# MOTHER'S DAY

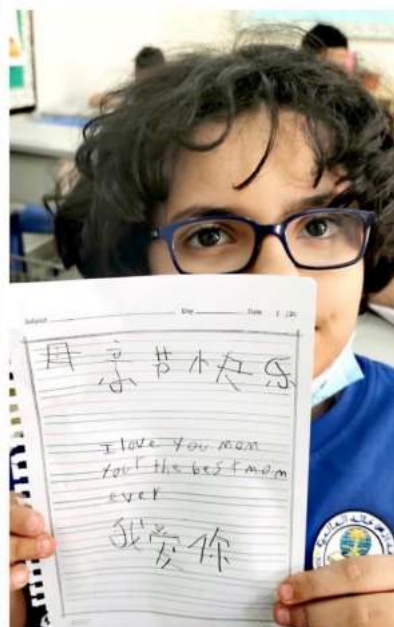

Love You  
**mom**

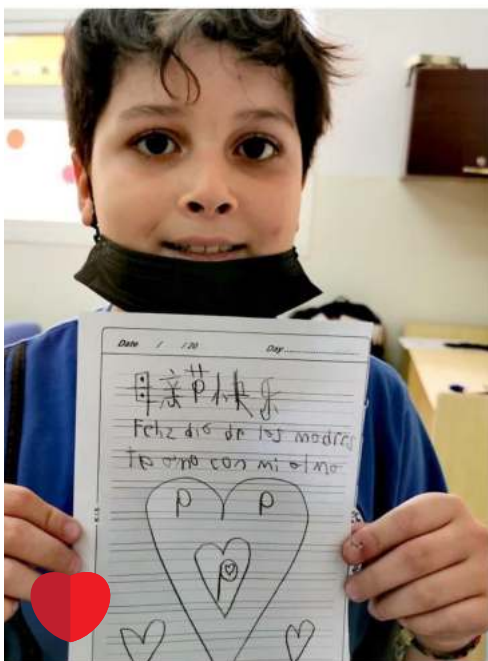

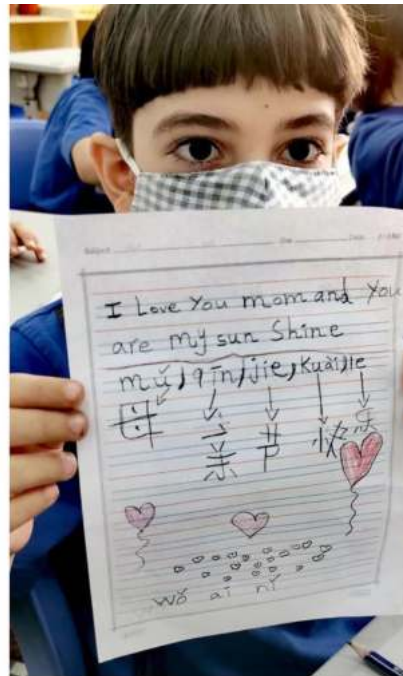

To celebrate mother's day, Grades 2 and 3 learned how to say and write "Happy Mother's Day" in Mandarin.

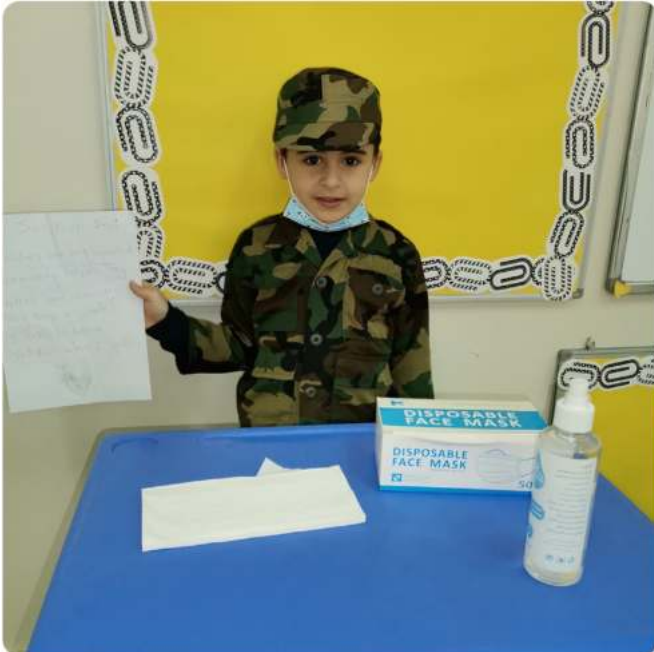

# COMMUNITY HELPERS - GRADE 2

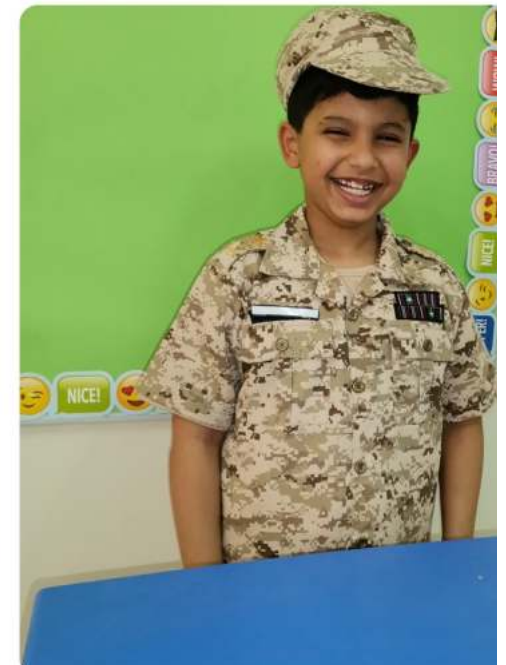

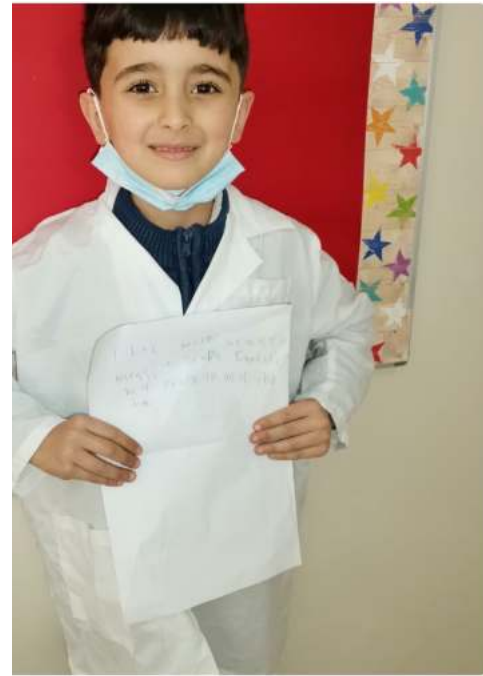

Grade 2 Community Helpers.  
I am a community helper, brave and true.  
I help the town with the things I do.

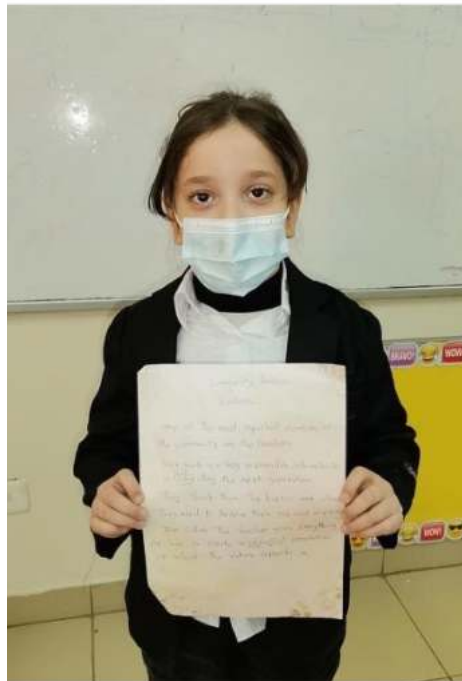

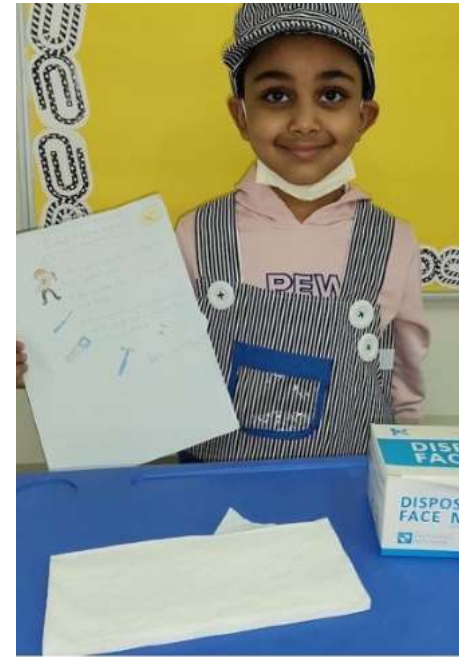

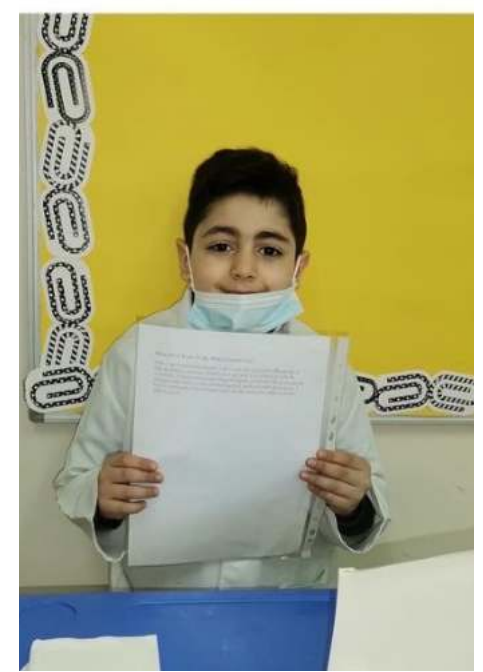

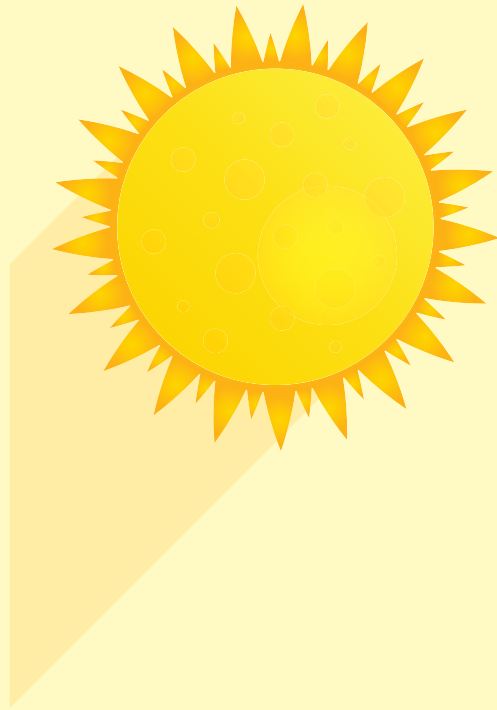

# DAY AND NIGHT

A sneak peek of our Day and Night activity.

# DECORATION

If you want a child's mind to grow...  
You must first plant a seed!

# EID RECEPTION

KiS celebrated Eid Al Fitr.

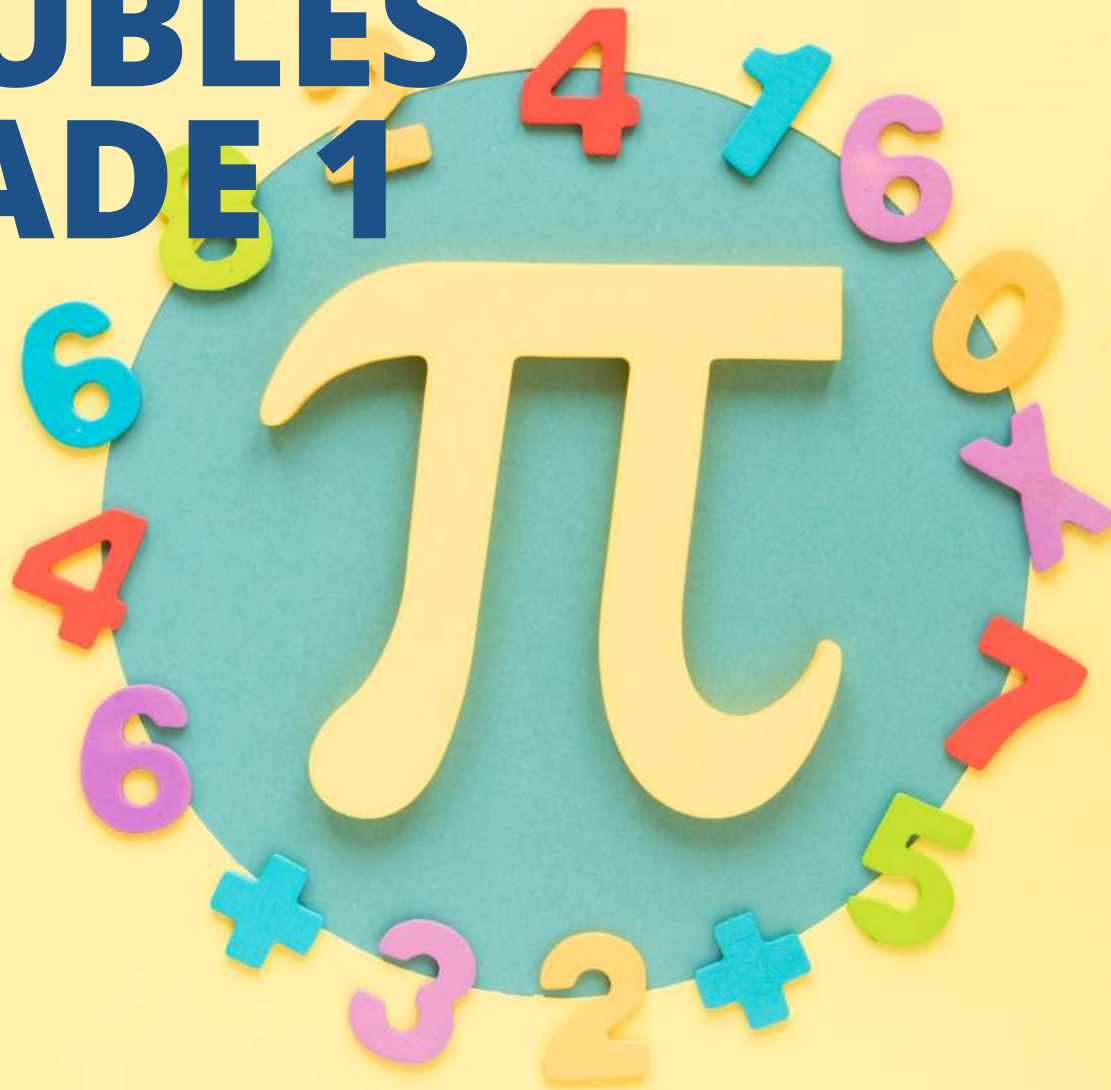

# DOUBLES GRADE 1

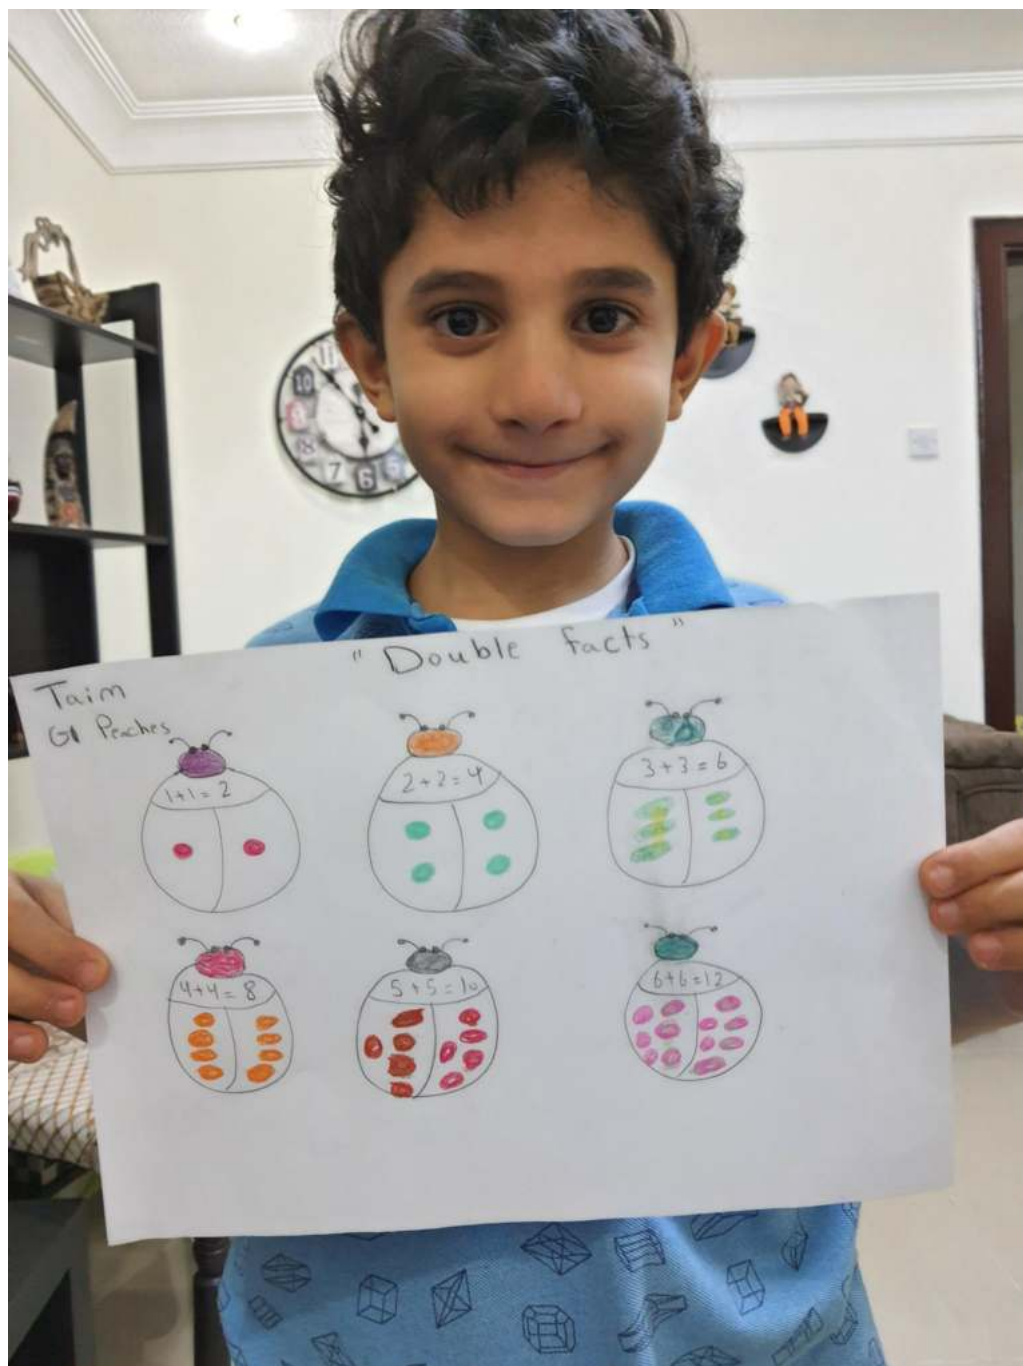

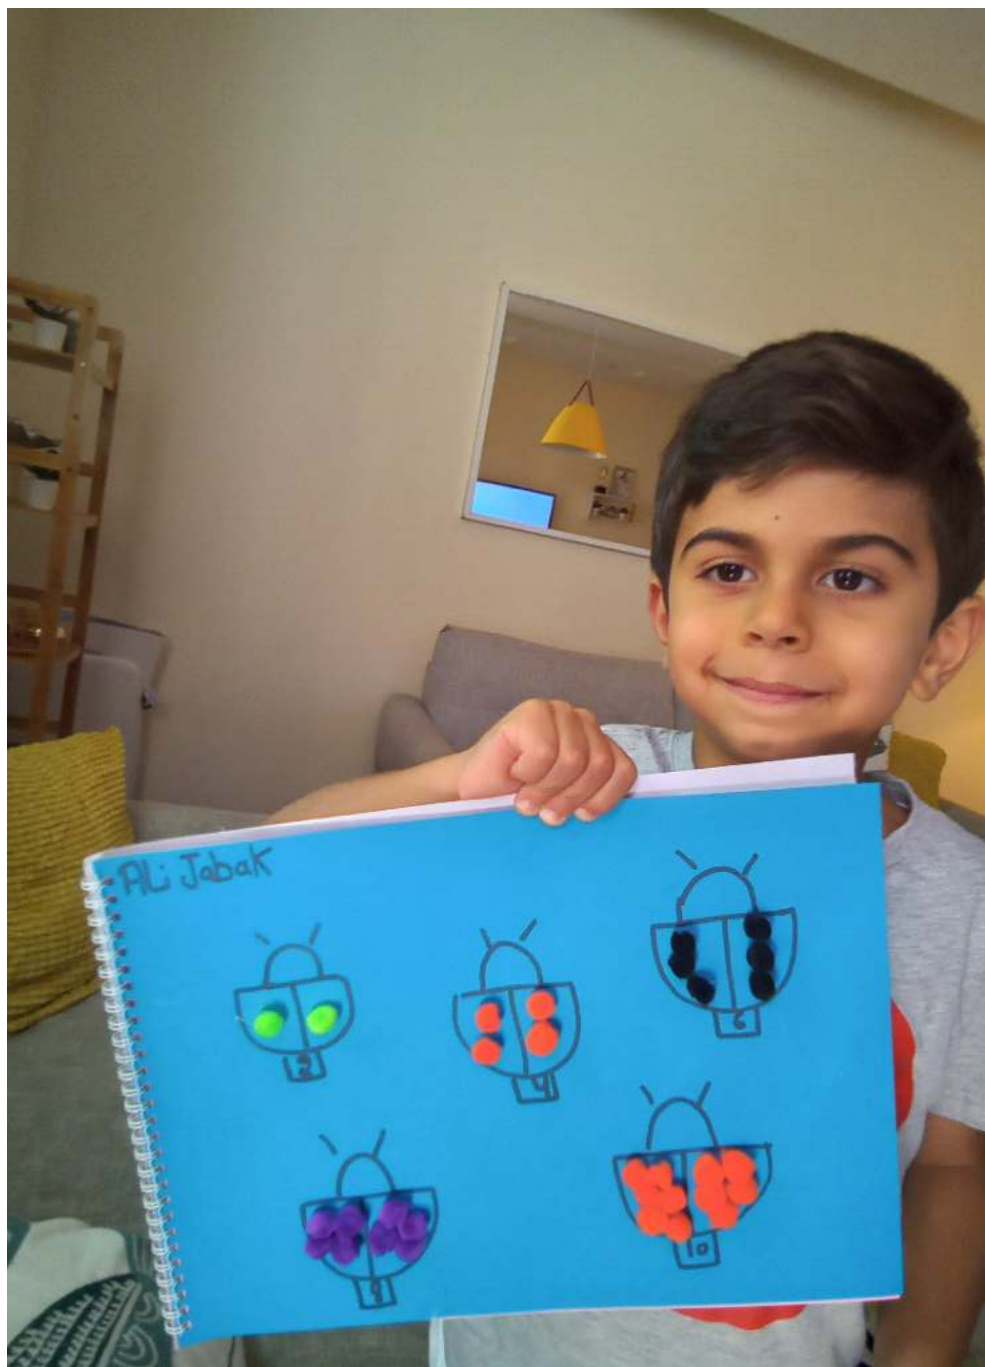

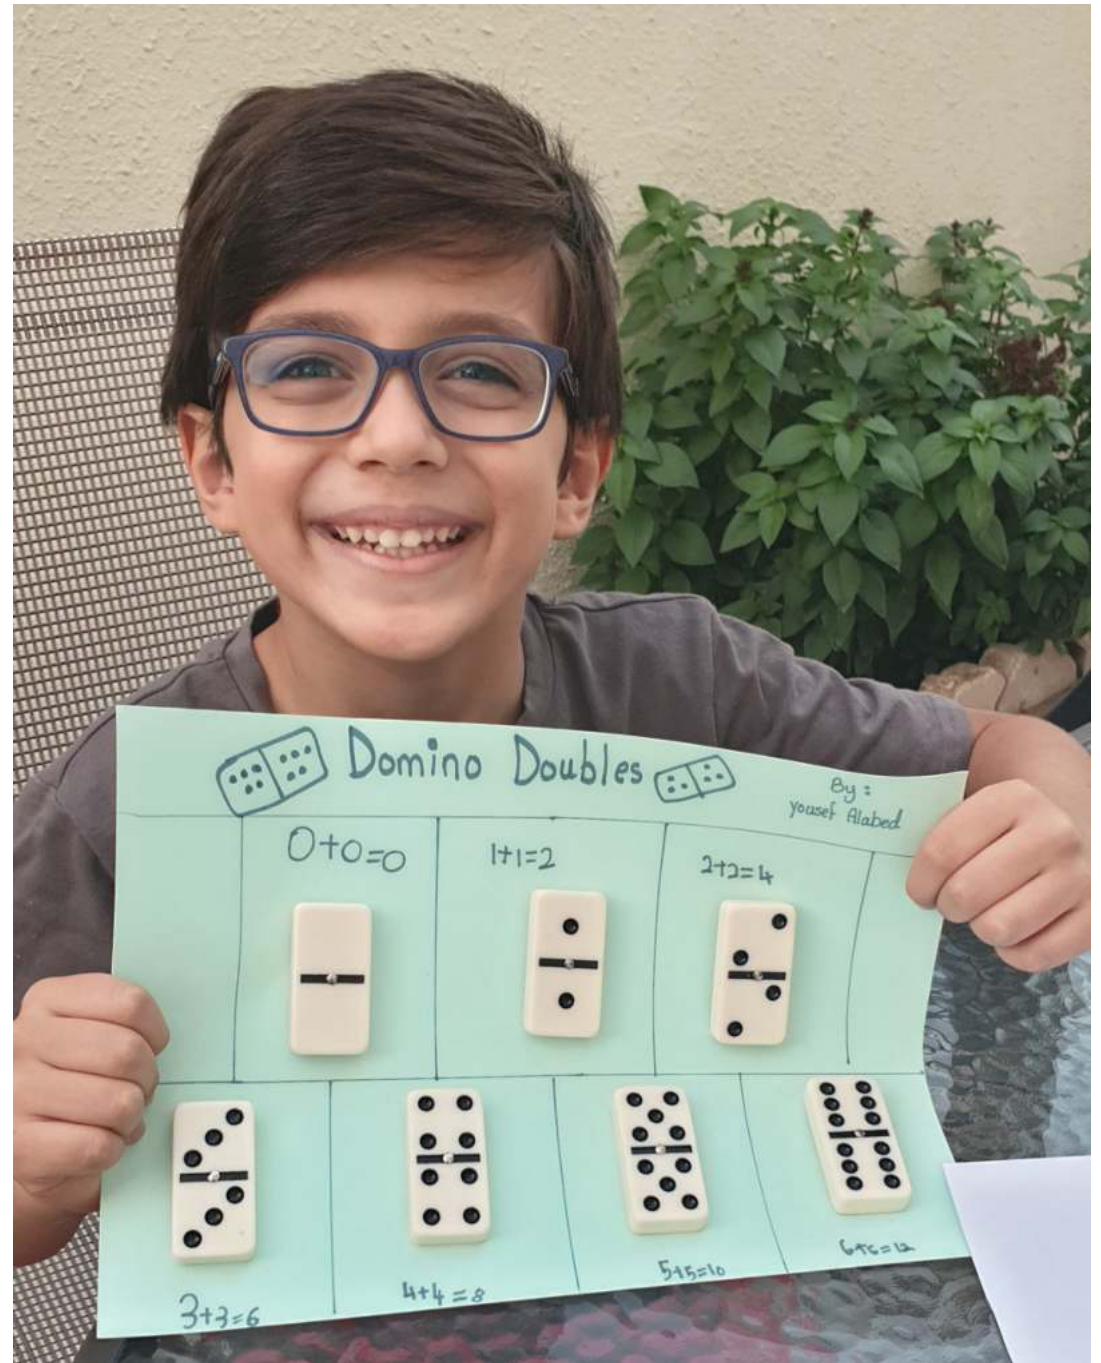

# LADYBUG GRADE 1

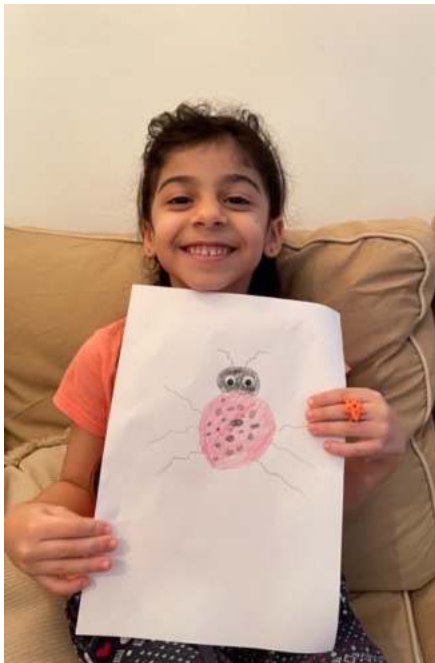

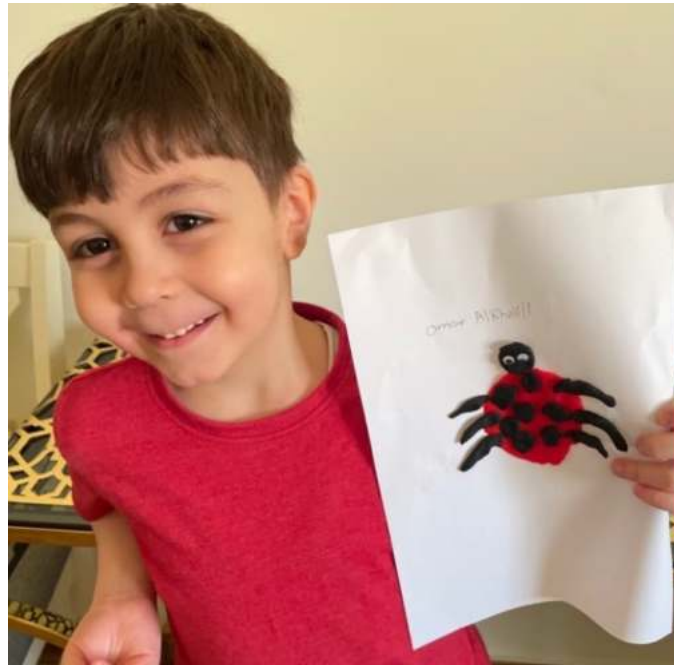

Grade 1 learners modeled a ladybug as a science activity.

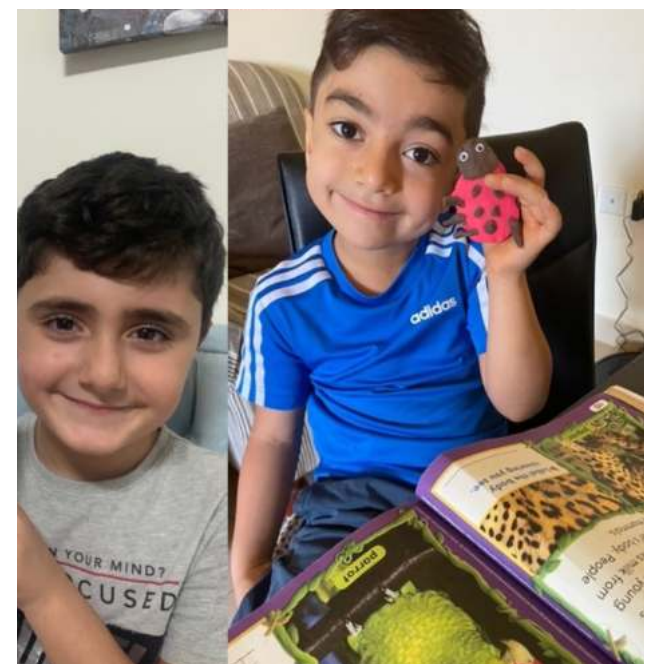

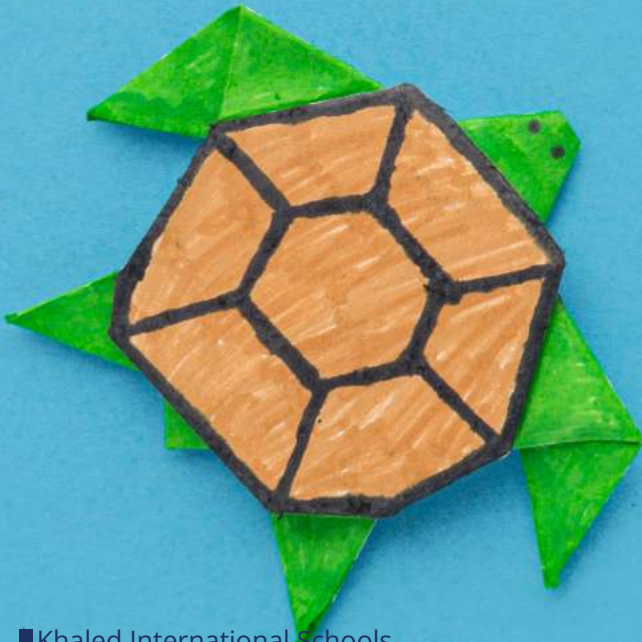

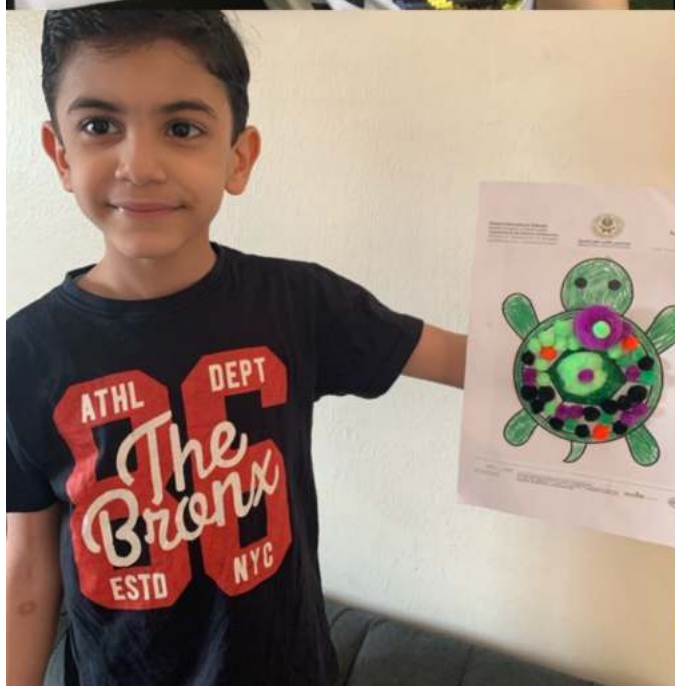

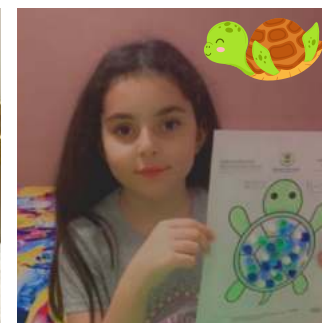

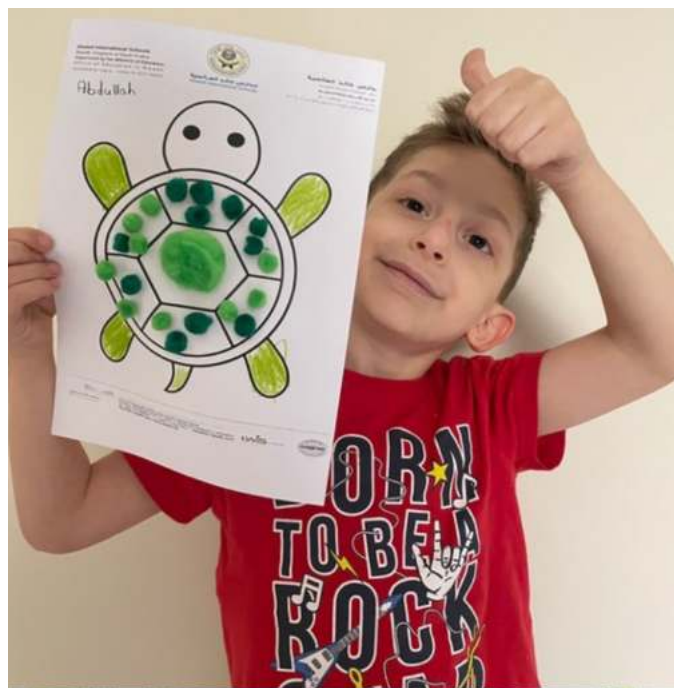

# TURTLE GRADE 1

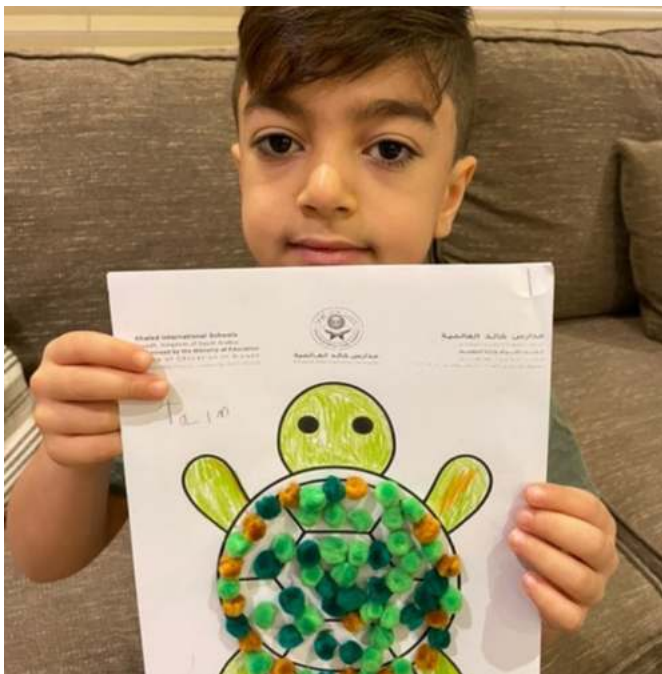

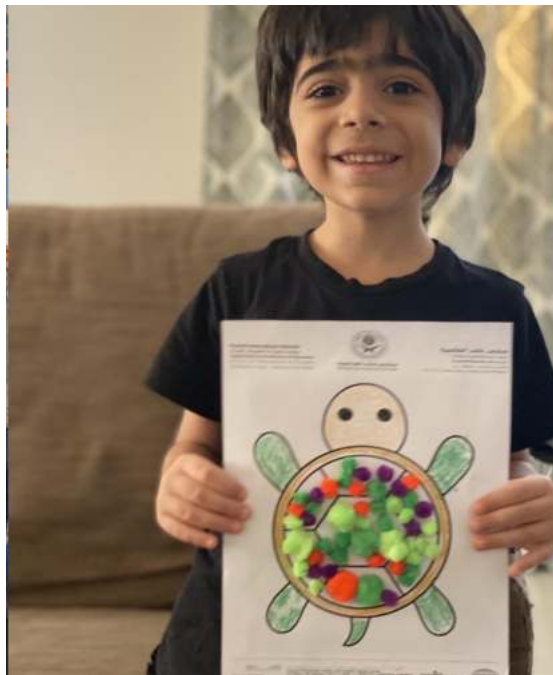

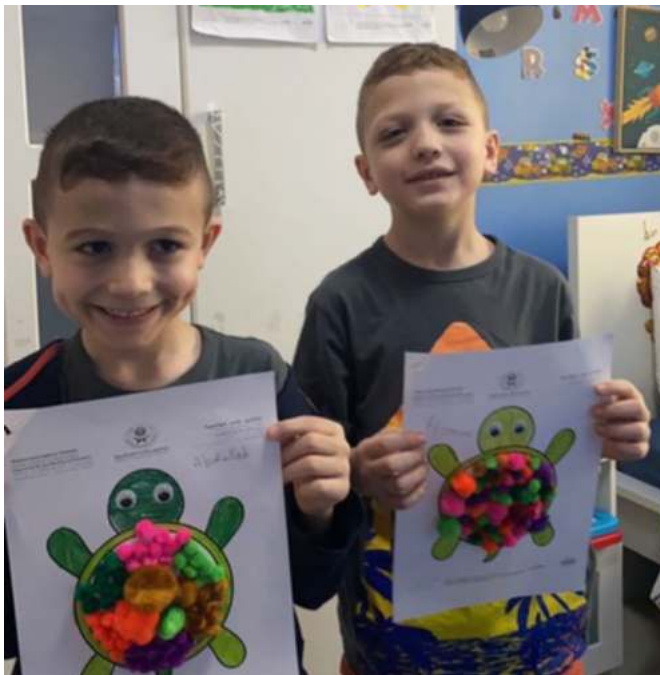

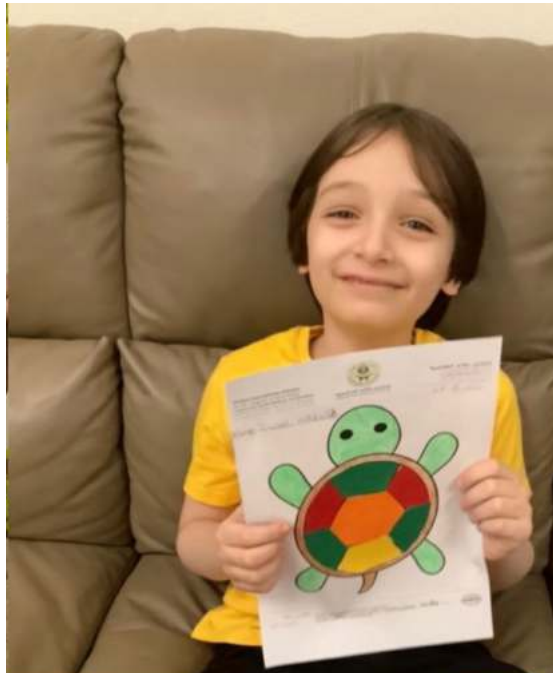

Grade 1 learners modeled a science activity about reptiles.

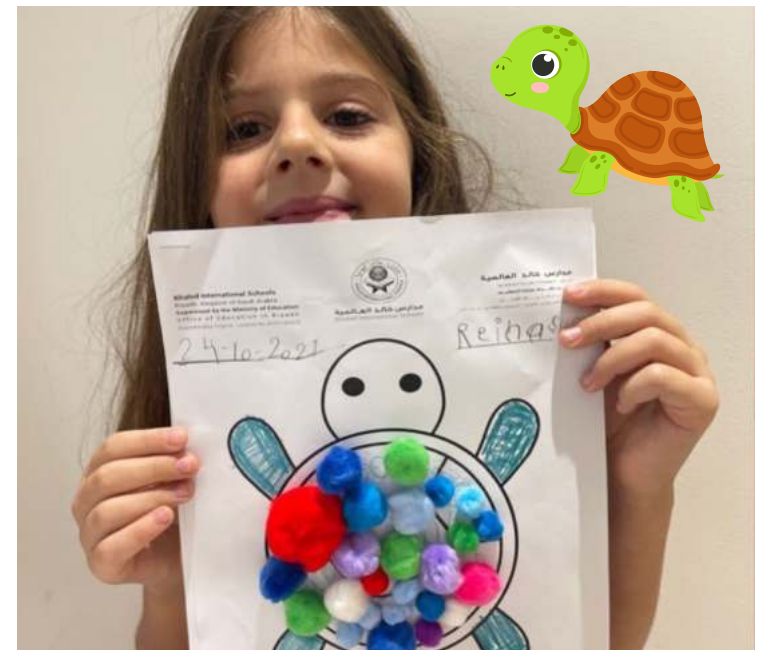

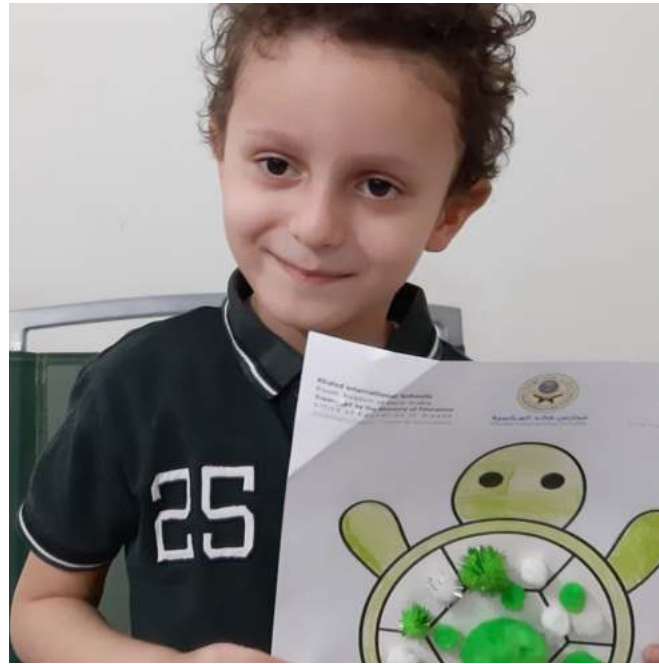

# BIRDS GRADE 1

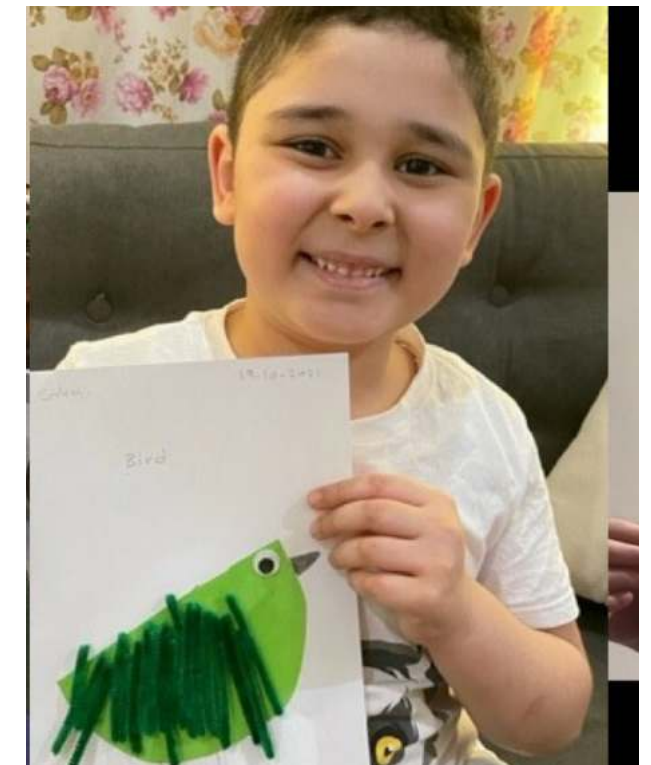

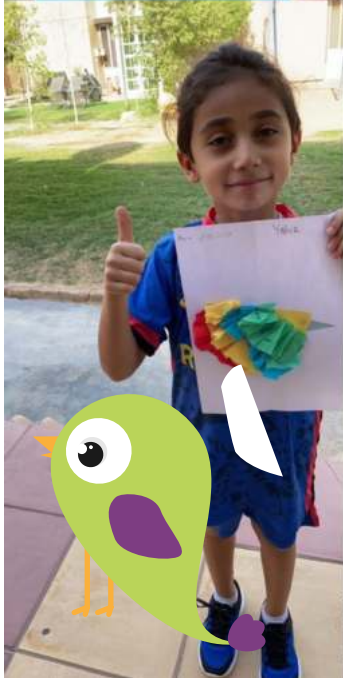

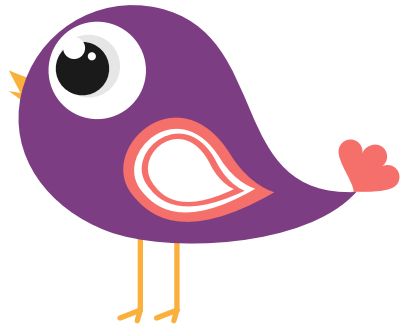

Grade 1 science activity about birds  
I'm that little bird in your garden  
everyday, I will never leave you  
and never fly away.

# ENGLISH GRADE 1

Grade 1 learners learnt about the present tense, through a fun activity involving ice cream and art. They each decided "to be" special for the day, and created their own ice cream designs.

# LAB VISIT GRADE 1

Grade 1 learners had a fun visit to the science lab, where they explored the 3 different states of matter (solid, liquid, and gas).

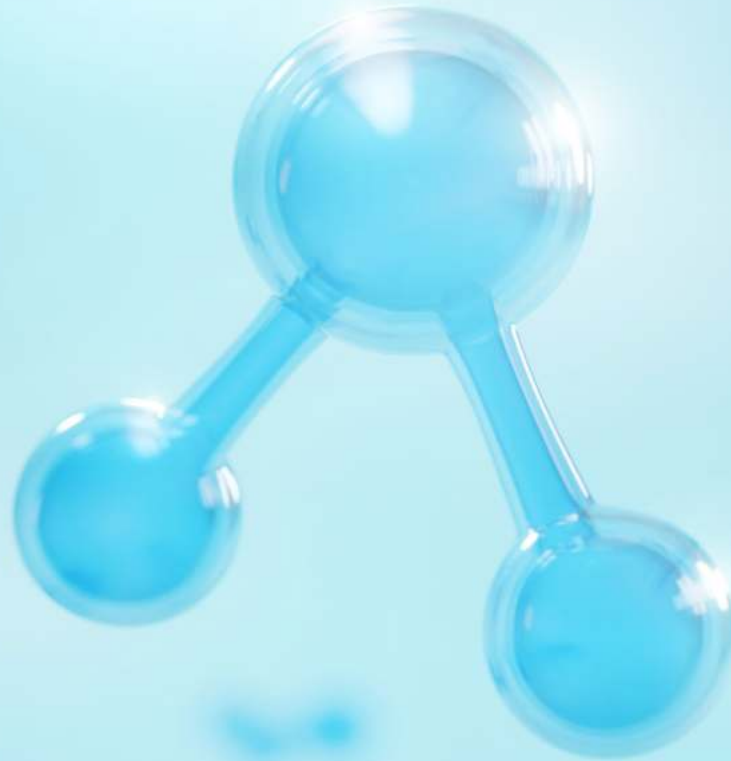

# SCIENCE ACTIVITY

## GRADE 1

Grade 1 learners took part in a day of sheer fun, while creatively portraying the summer and winter seasons by using cotton and green leaves.

# SUBTRACT GRADE 1

Math can be fun for EVERYONE  
Grade 1 enjoyed modeling subtraction at home, using objects they can find around them.  
The sections that were involved in this activity were:  
Peaches B and G, Pears B, and Strawberries B.

# TRIP GRADE 1

Learners from Grades 1,2, and 3 went on a fun excursion to Sky Zone and Snowy Forest. While taking part in different activities and jumping around, the bonds between learners and teachers were strengthened.

# FROG GRADE 1

Grade 2 students enjoyed modeling the life cycle of the frog using edible fruits in their science session.

The background of the slide is a light gray surface scattered with various colorful plastic math toys. These include numbers from 0 to 9 in different colors (red, pink, green, blue, yellow, purple), a large yellow pi symbol (π) at the bottom center, and a red plus sign (+) in the bottom left corner. The text 'MATH CERTIFICATE' is in a bold, dark blue font, and 'GRADE 1' is in a slightly smaller, bold, dark blue font below it. A thin white vertical line is positioned to the left of the text.

# MATH CERTIFICATE

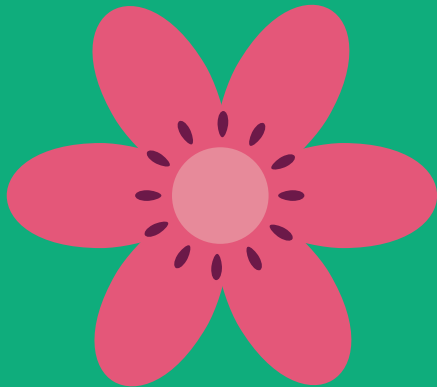

## GRADE 1

At KiS, we believe that very addition to our learners' knowledge is an addition to human power. Our young achievers received certificates for their excellent performance in Math class.

# | GERGEAN GRADE 1

We celebrate our children.  
We teach them and learn from them.  
They are the source of joy, marking this Gergean  
Ramadan.

# SST GRADE 1

Grade 3 learners at KIS came together, to create fun and engaging games, part of the Social Studies (SST) activities at the School. This resulted in a spirit of collaboration and enthusiasm, with so many wonderful outcomes.

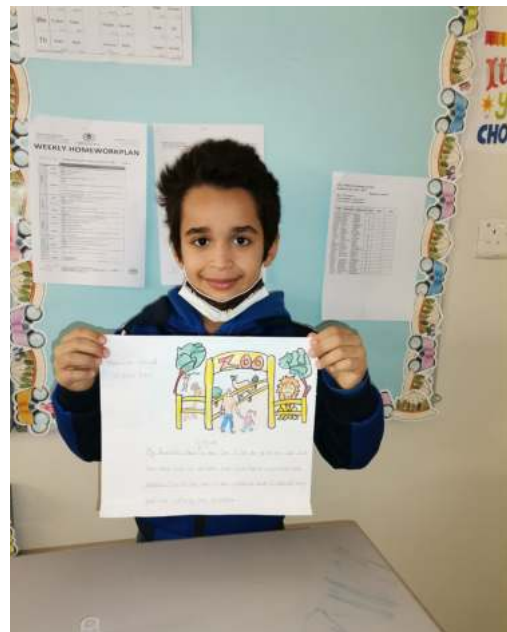

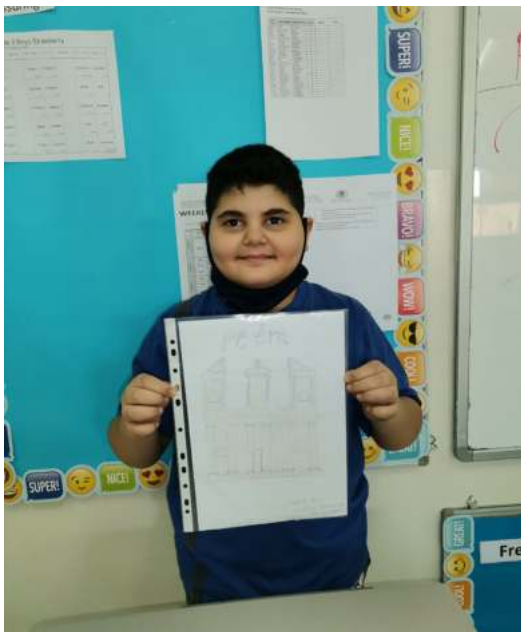

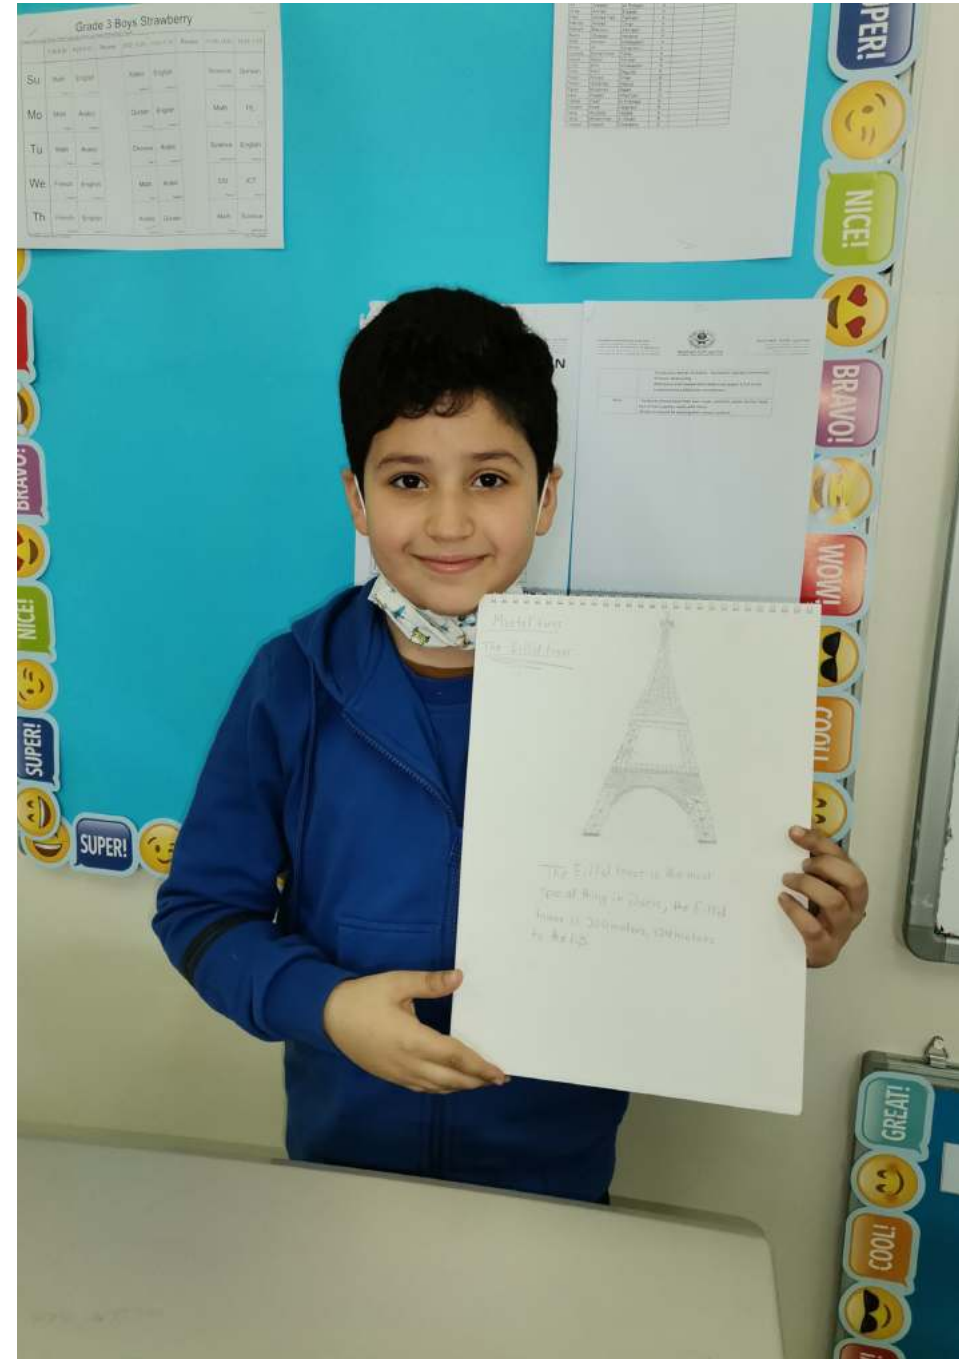

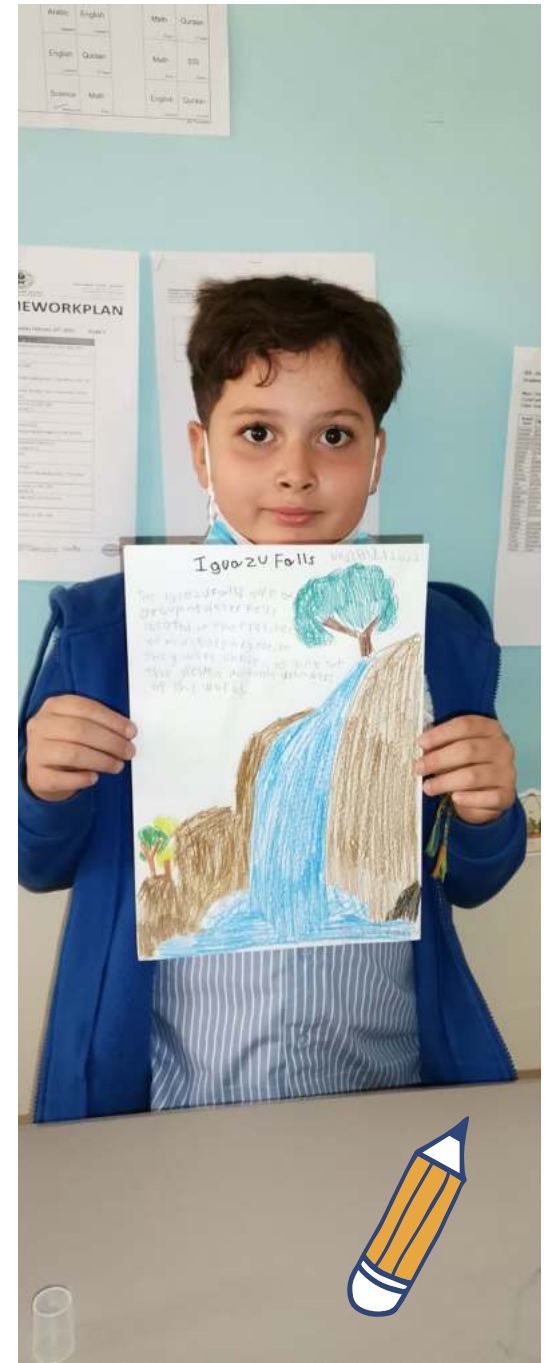

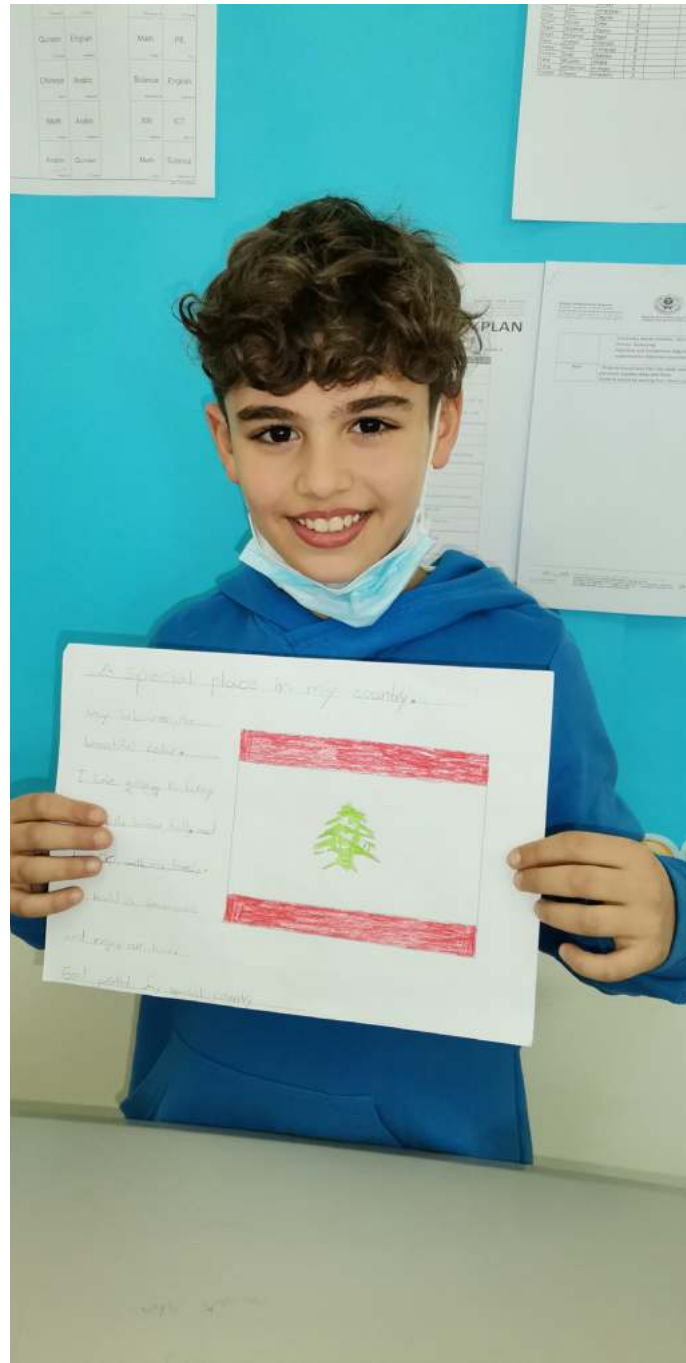

Grade 3 – SST activity  
Very special places described by very special young people.

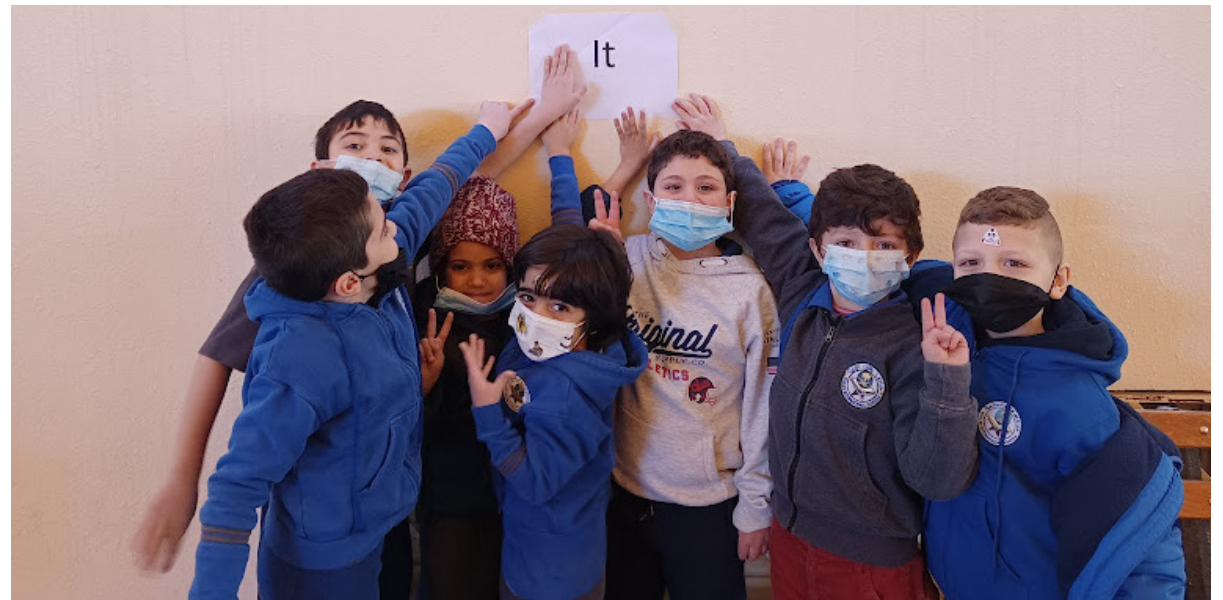

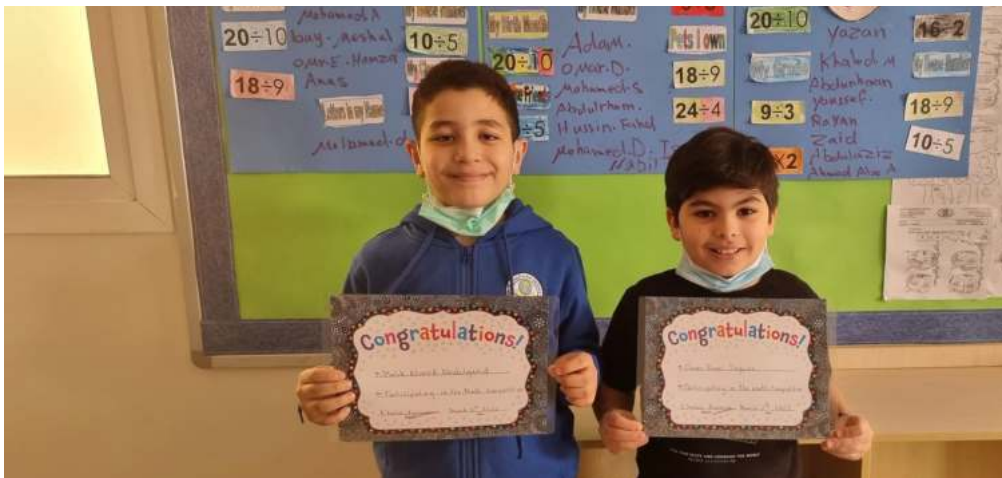

# MATH COMPETITION

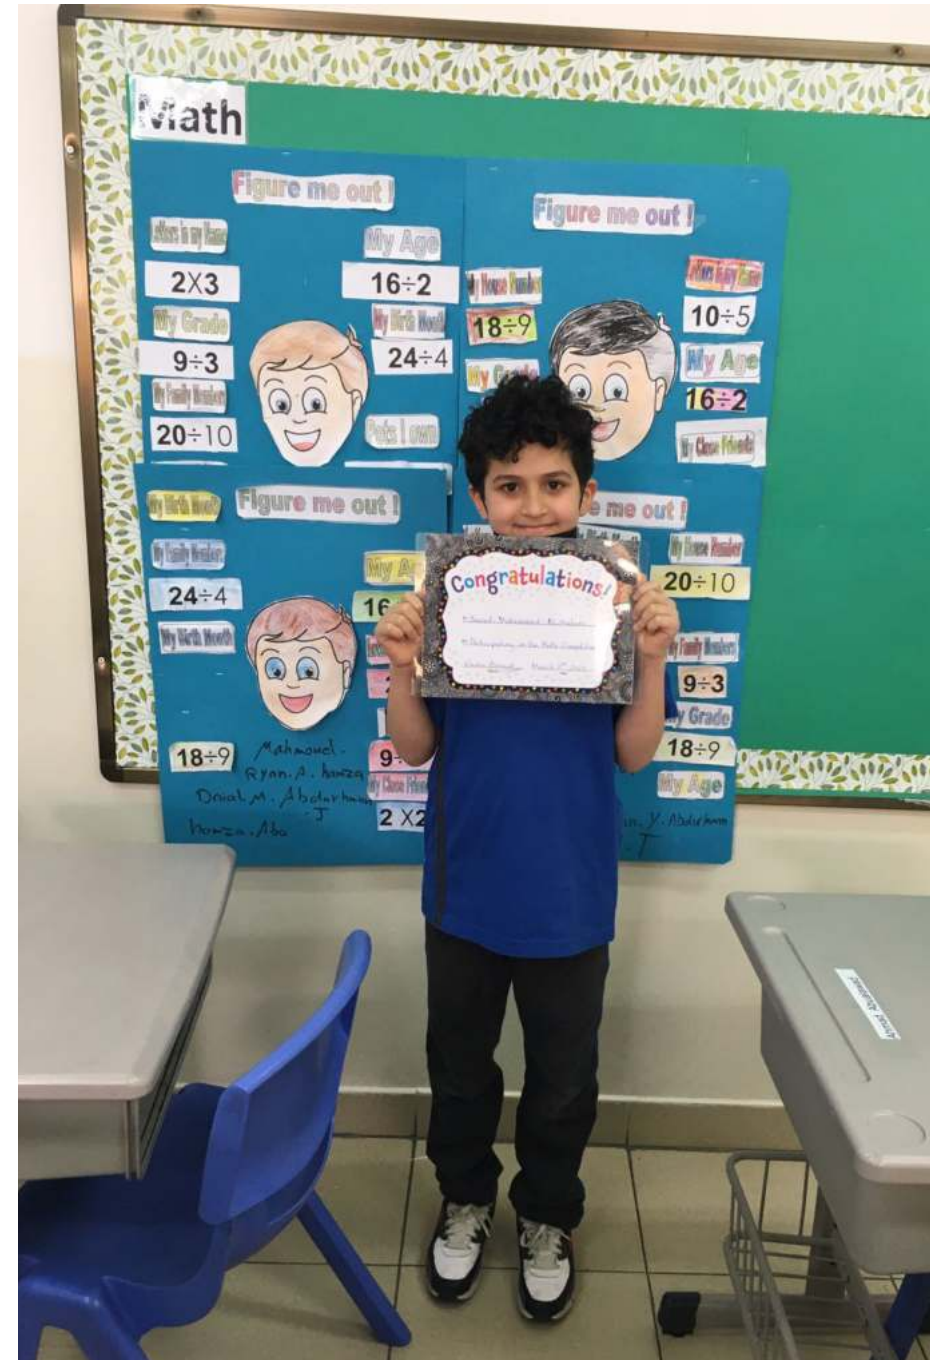

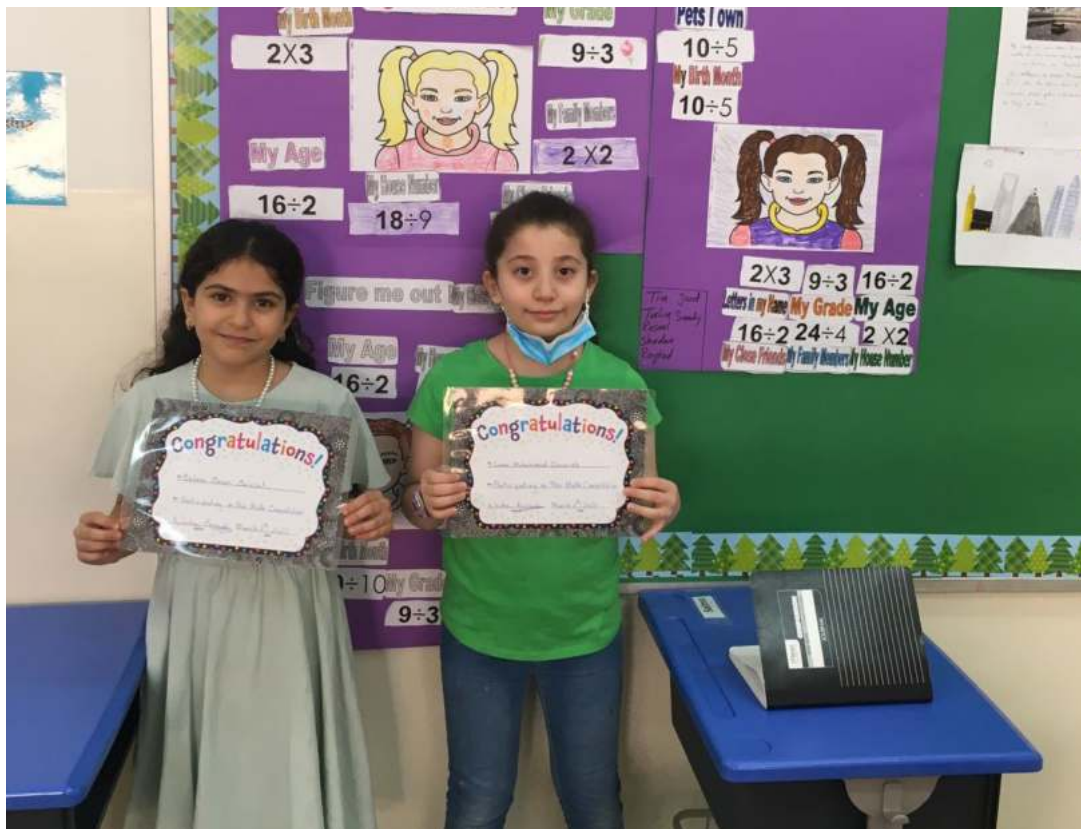

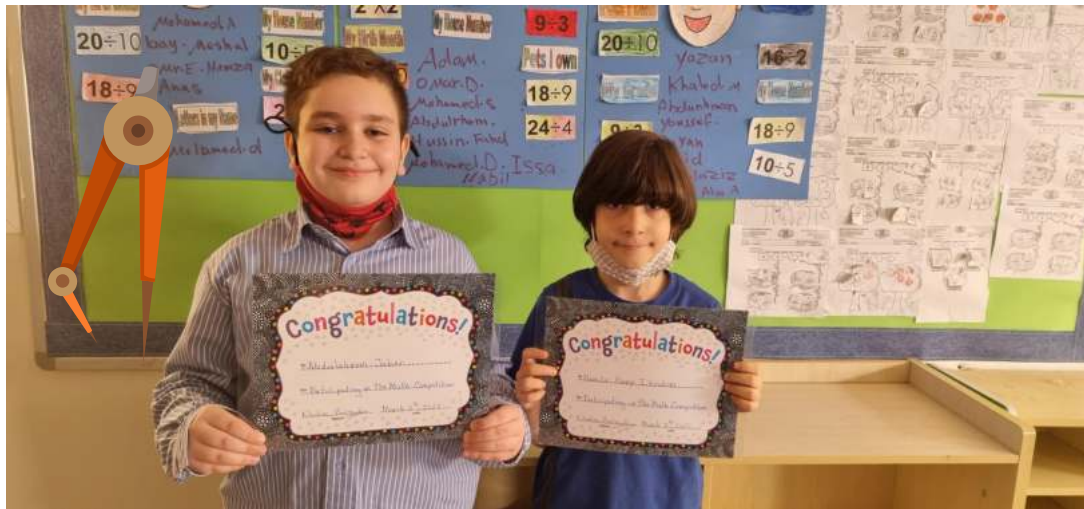

## GRADE 1

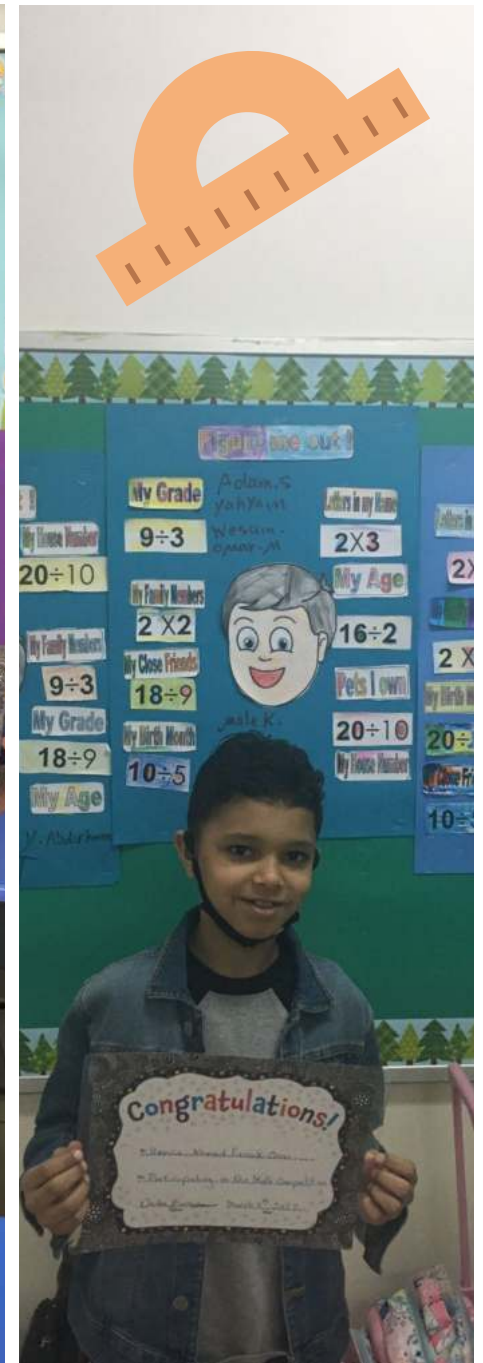

Grade 3 had a fierce math competition on Sunday and Monday. They had two rounds to compete using the multiplication table.  
We are very proud of all our students. You are all winners!

# SCIENCE LAB GRADE 3

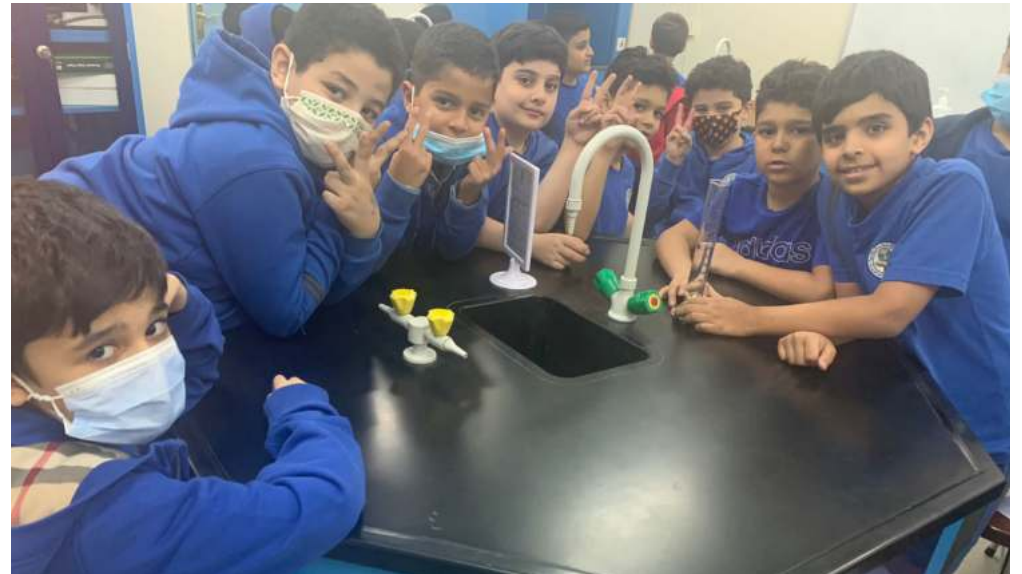

Grade 3 learners using tools to measure the three states of matter.

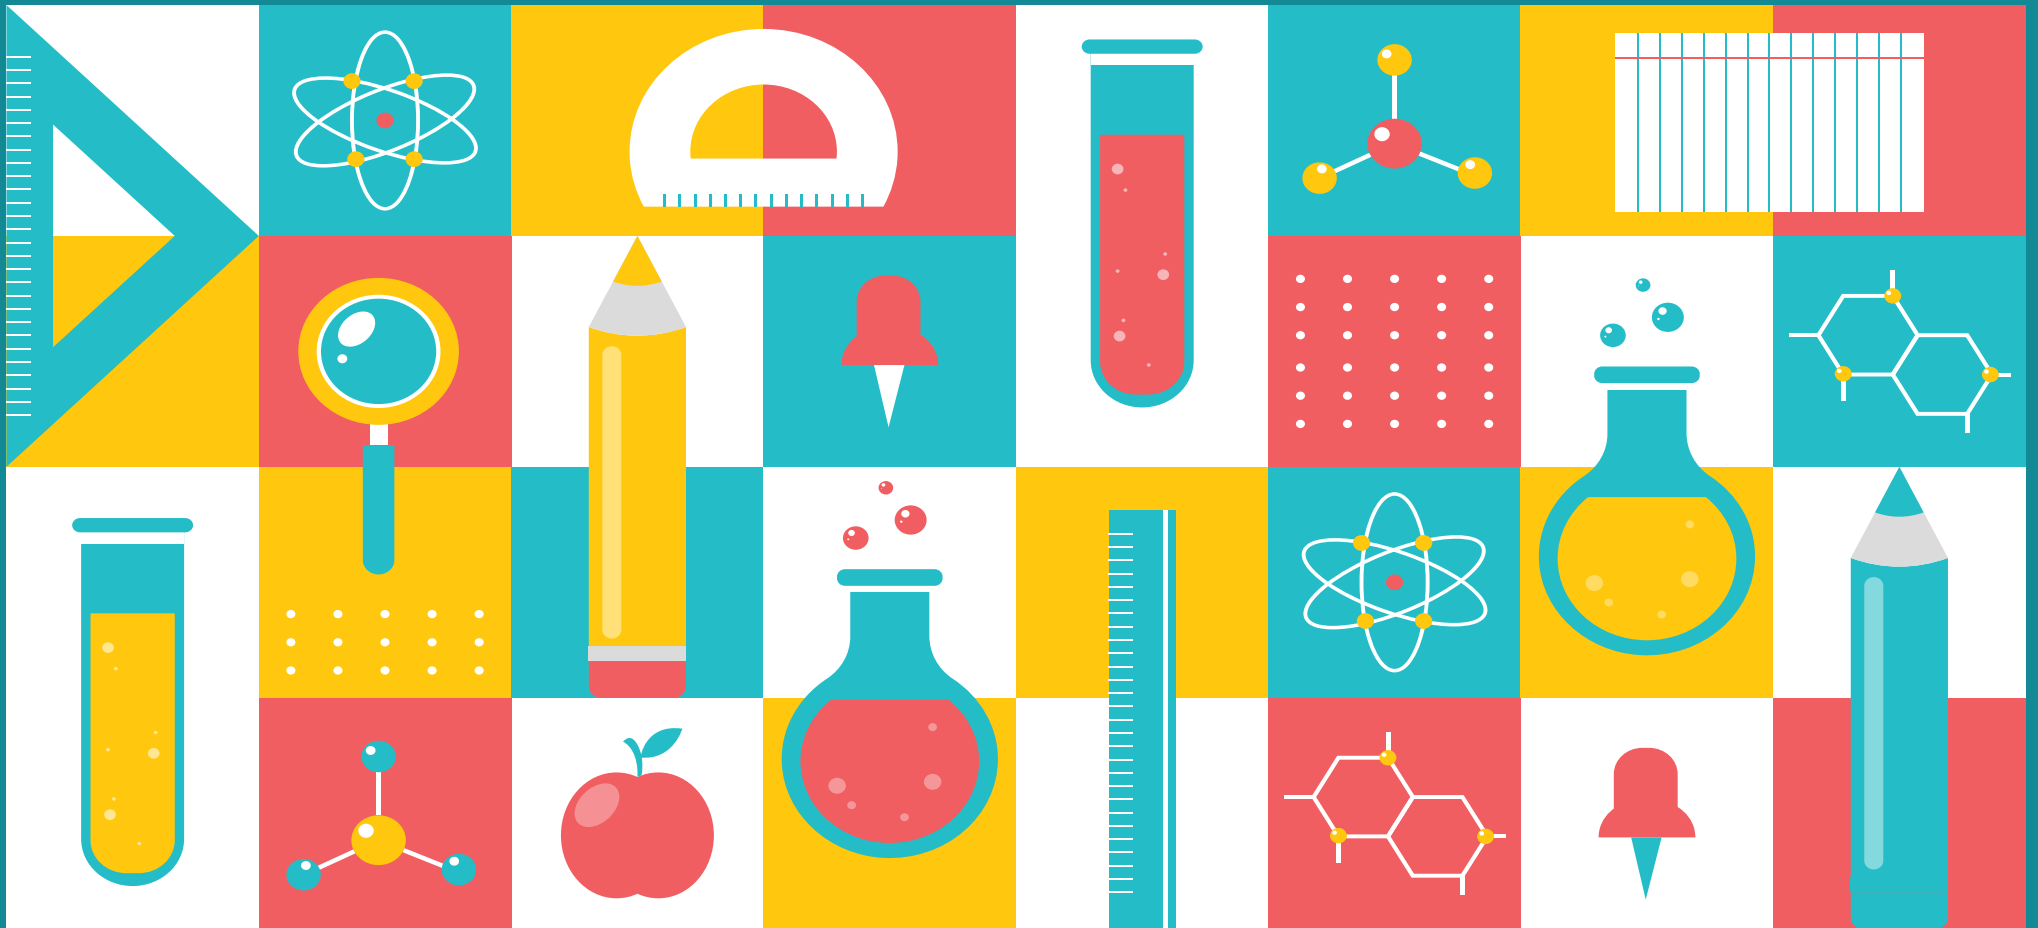

# ICT CERTIFICATE GRADE 1

Our Grade 1 learners are now masters in naming the major computer parts, understanding and applying mouse terminology, and exercising care when using the computer.

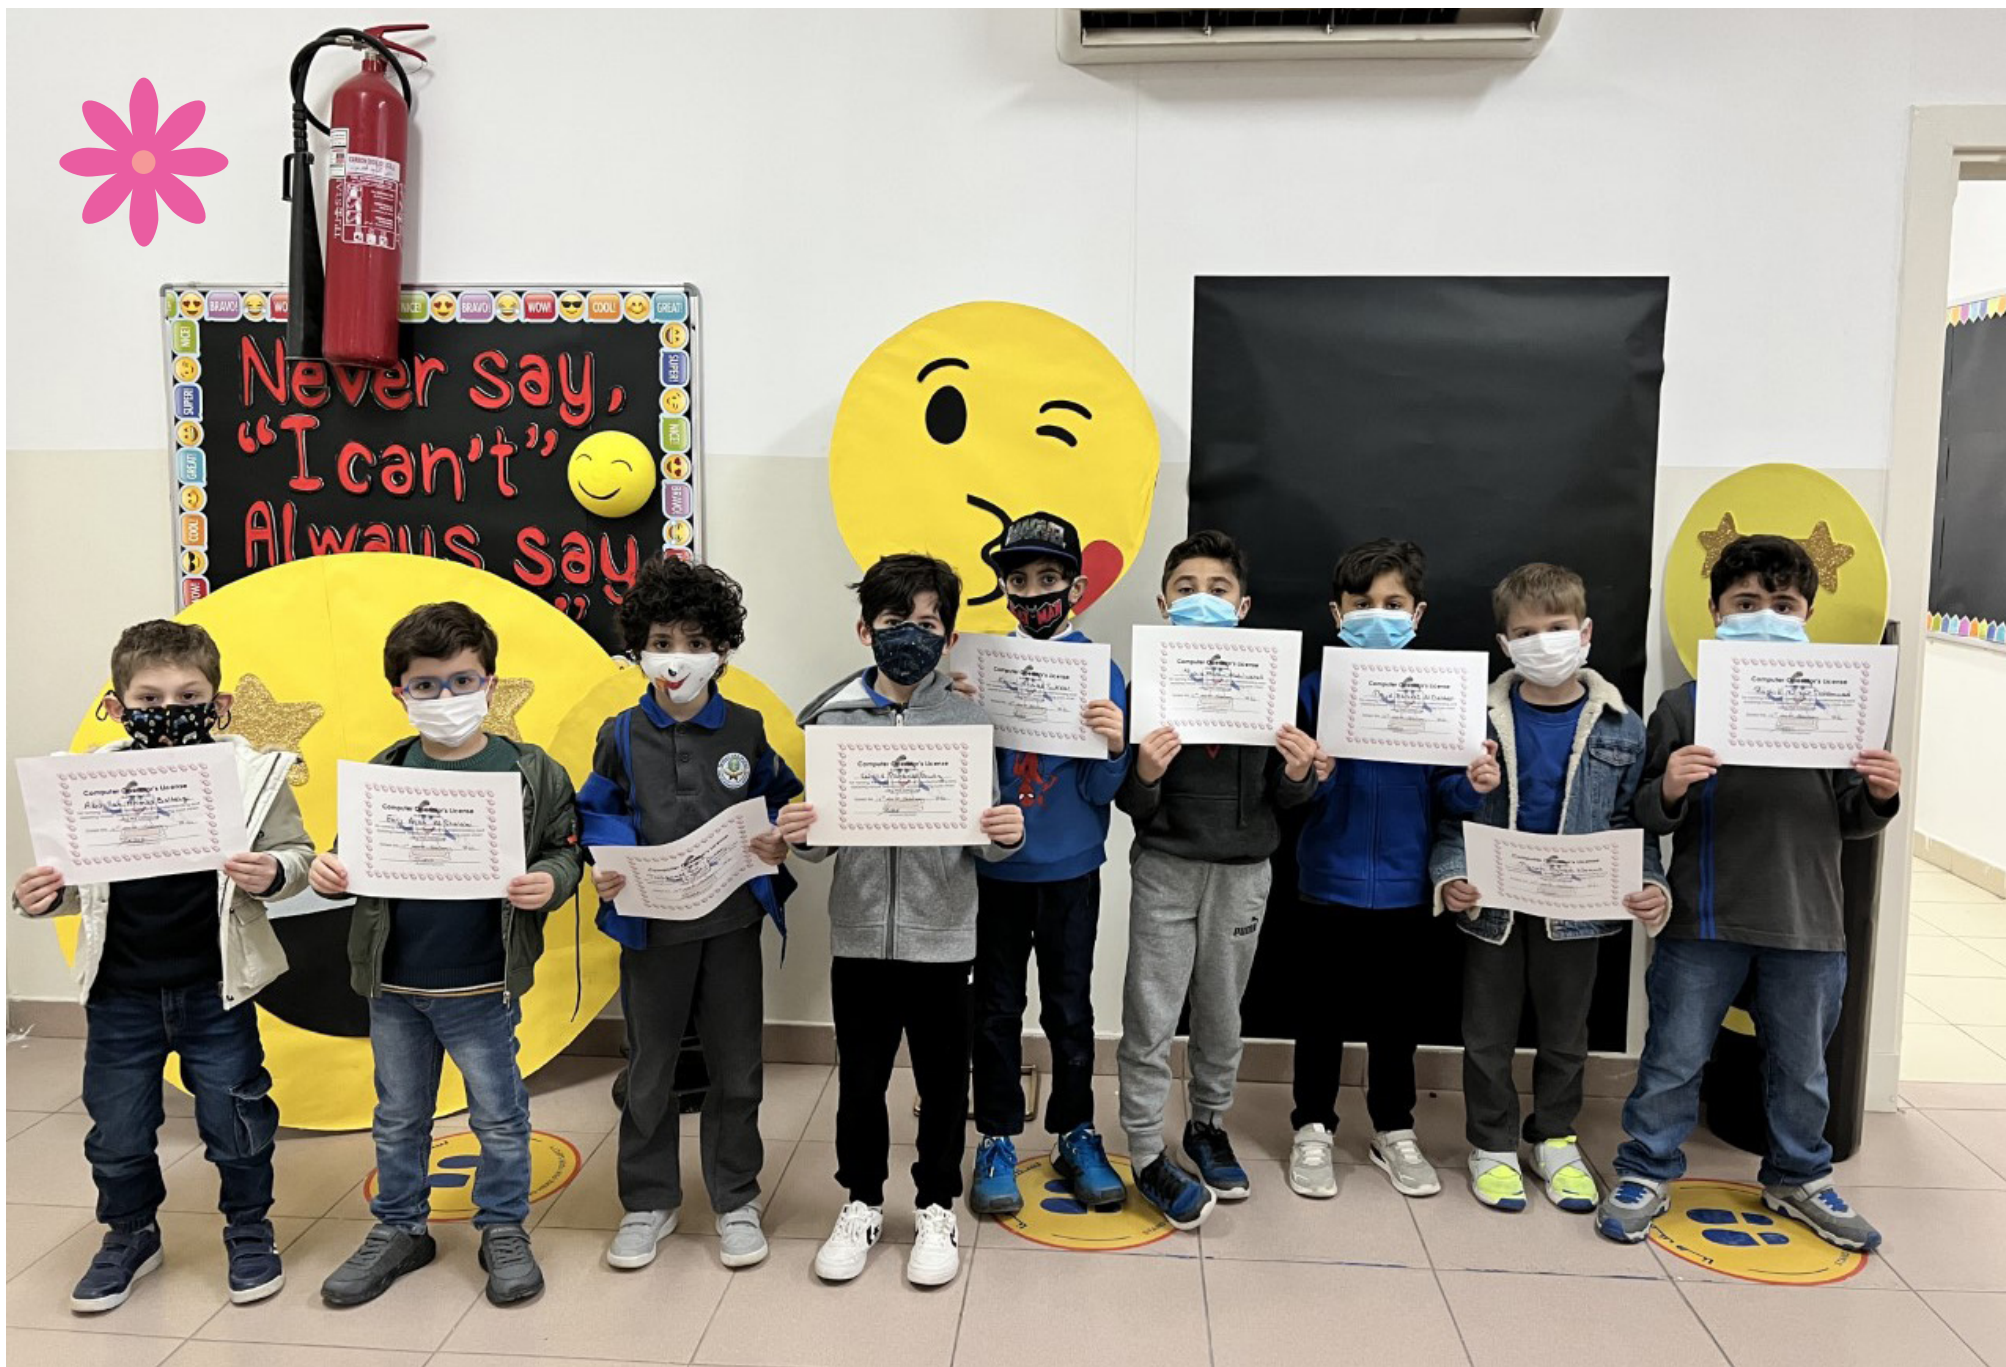

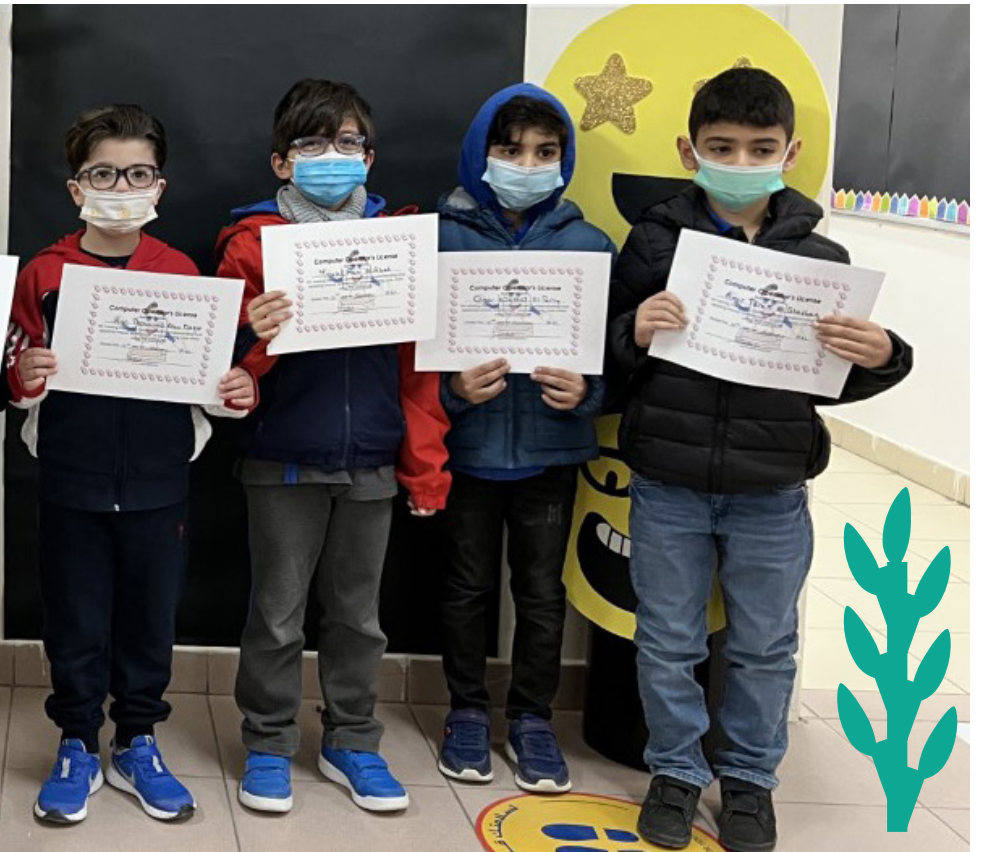

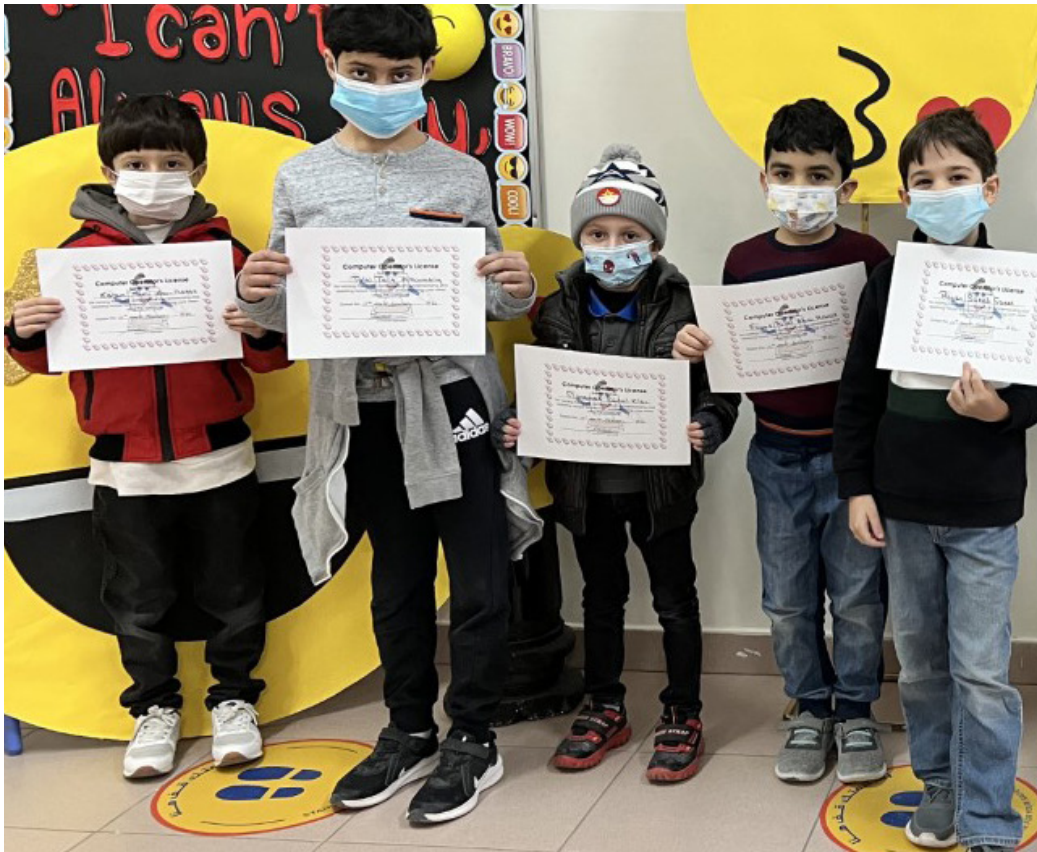

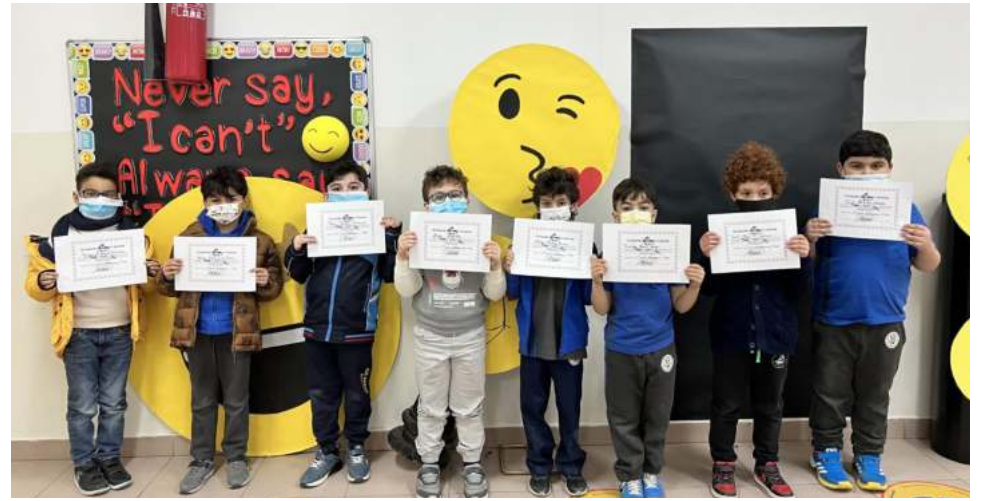

# ENGLISH GRADE 1

Grade 1 used playdough in their English activity about long u.  
LONG U IS REALLY CUTE!

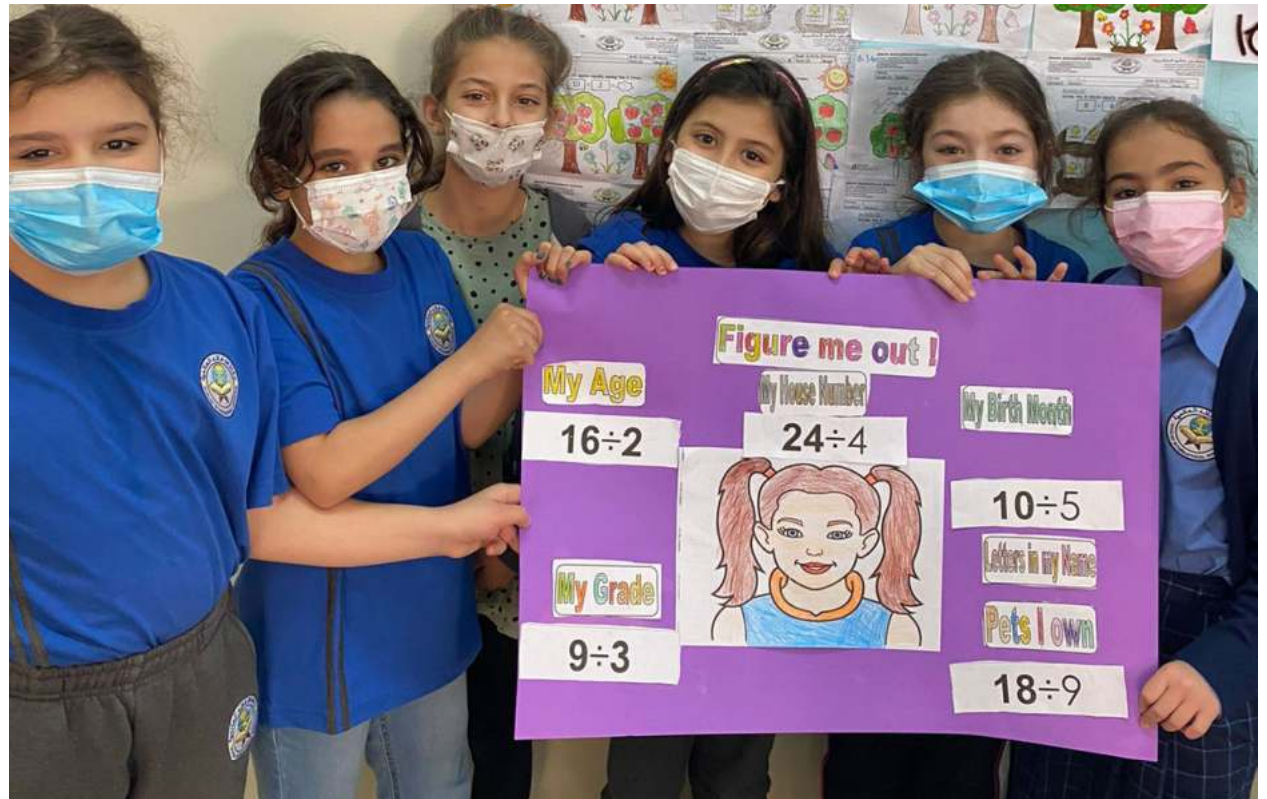

# MATH FIGURE ME OUT! GRADE 3

9

# MOTHER'S DAY

To the world , you are a mother  
but to me, you are the world.  
Thank you for your Love mom.  
Happy Mother's Day!

# PLANTING ACTIVITY

## GRADE 1-3

May the seeds that you  
plant today, be the flowers  
that bloom tomorrow.

# SPELLING BEE GRADE 1-3

The  
BEEs

Lower elementary learners at KiS participated in a competition to win the spelling bee.

We are so proud of our learners!

They are all un-bee-lievable spellers.

# SPLASH DAY GRADE 1-3

Grades 1-3 on SPLASH day making colorful memories.

# SST GRADE 1

Grade 1 students wearing their favorite costume for their SST class. Future doctors, scientists, and teachers amongst us!

# | ART FAIR

# **UPPER ELEMENTARY**

---

# **DEPARTMENT**

# INTRODUCTION

# UPPER ELEMENTARY DEPARTMENT WORD

“Your Future is Only as Good as the Work You Put into It”

Our main goal in KiS Upper Elementary Department is to help shape your path and guide you to the brightest future ahead.

Our qualified team of teachers collaborates hand in hand with parents to make sure we meet the goals of every learner.

With a variety of curricular and extra-curricular activities, we make sure we blend knowledge and fun. Activity classes, arts, P.E. projects, and presentations encourage building our learners into confident and talented individuals.

**Safaa Chouman**  
**Head of Upper Elementary Department – Girls’ Section**

# SCIENCE ACTIVITY

## GRADE 4

Grade 4 learners did an amazing job showing a model of the Water Cycle.

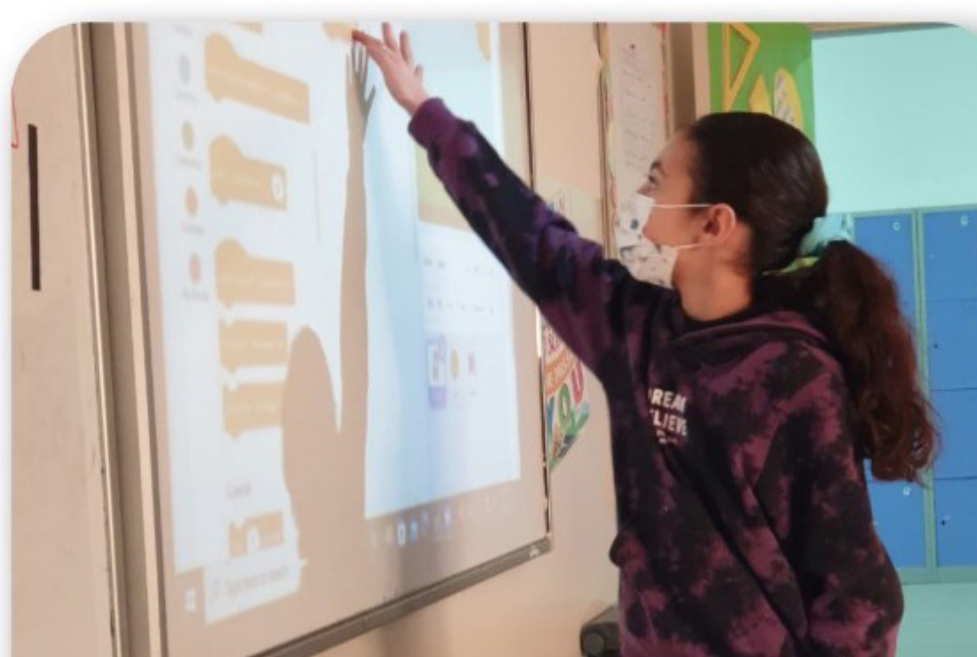

# | COMPUTER SCRATCH | GRADE 4

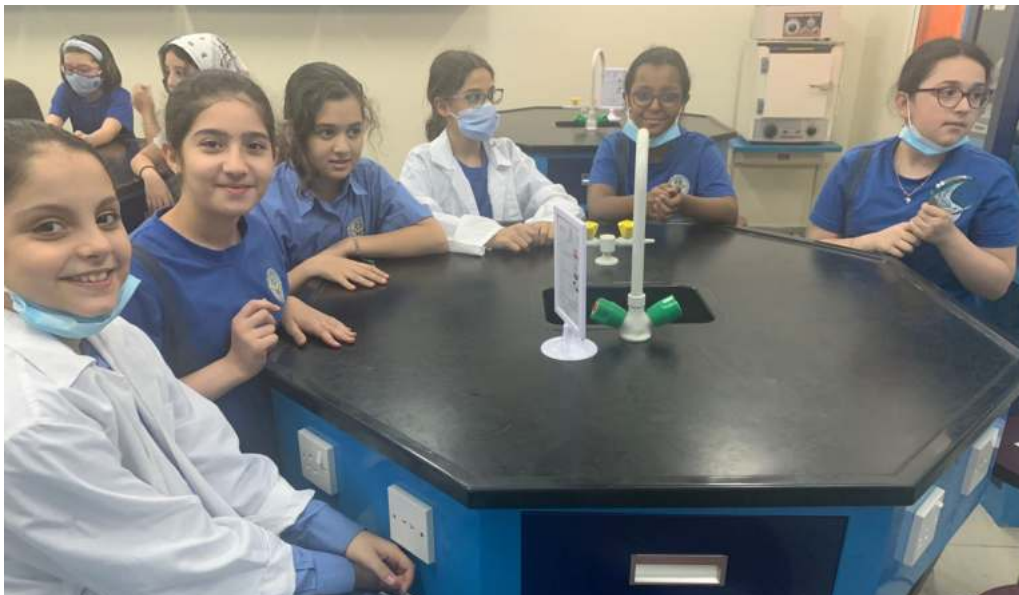

# LAB SESSION GRADE 5

# SAUDI FOUNDING DAY

يوم بدينا  
ثلاثة قرون  
من العز والفخر

يوم  
التأسيس  
- ١٧٢٧م -

On the 22nd of February 2022, KIS celebrated the Saudi Founding Day, marking over three decades since the Kingdom was established. Students recited beautiful poems and shared words to express the great occasion.

**MIDDLE AND HIGH**  
**SCHOOL DEPARTMENT**  
**DEPARTMENT**

# INTRODUCTION

# MIDDLE AND HIGH SCHOOL WORD

Dear Parents and Learners,

This year started with the COVID-19 challenge and blended online and in-person learning. Then, all staff members were excited to see learners back on school premises with safety restrictions. Finally, it was so good to have the campus and third floor of Bloc B bustling with life again.

Unfortunately, two years of online learning negatively affected learners' mindsets and study habits. As a result, more attention and support were given to learners to reintegrate easily and quickly into the school environment. Against all odds, learners were engaged in many academic and non-academic activities and celebrated occasions. In the following pages, we captured memorable moments and special days that middle and high school learners enjoyed this year!

**Rania Sidani**  
**Head of Middle and High School Department, Girls' Section**

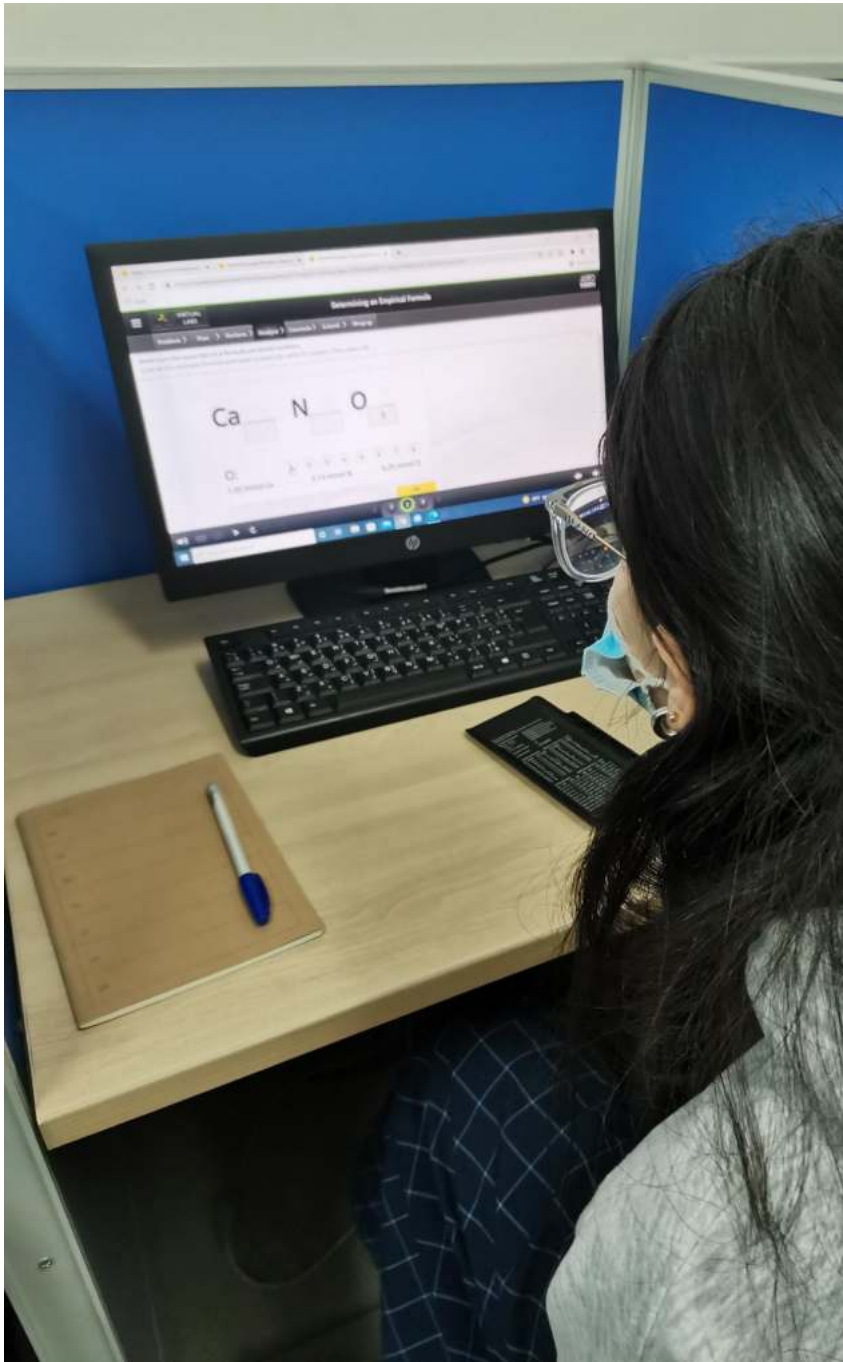

# CHEMISTRY-BIOLOGY ACTIVITIES

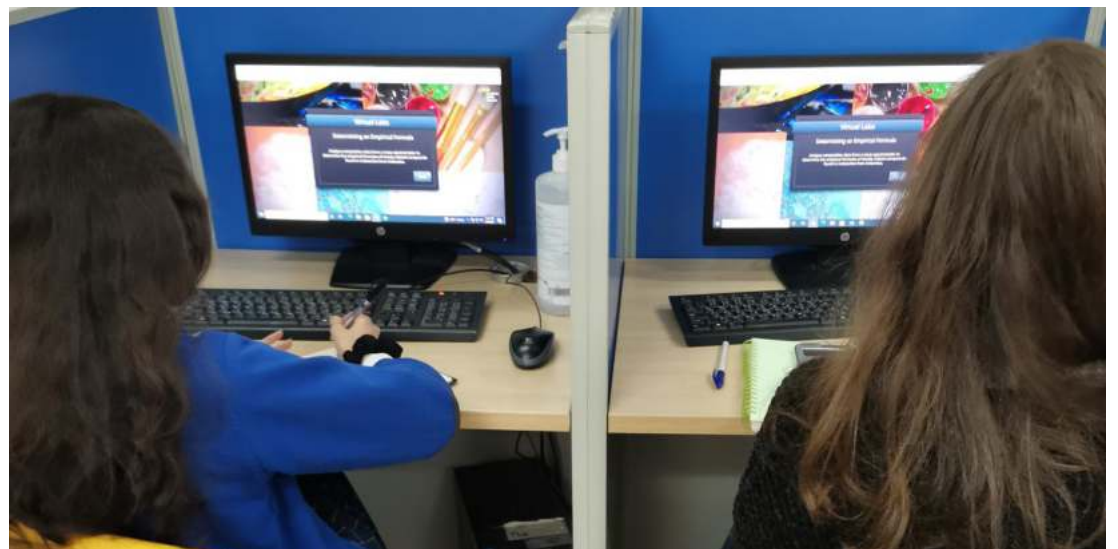

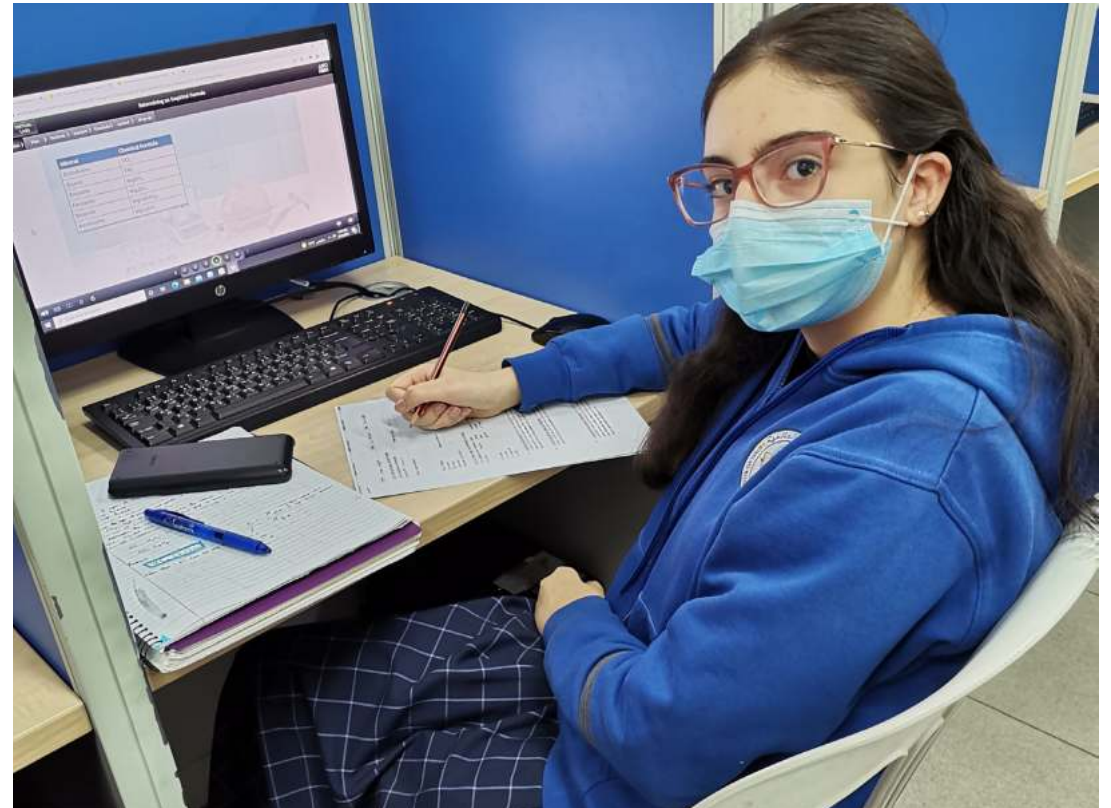

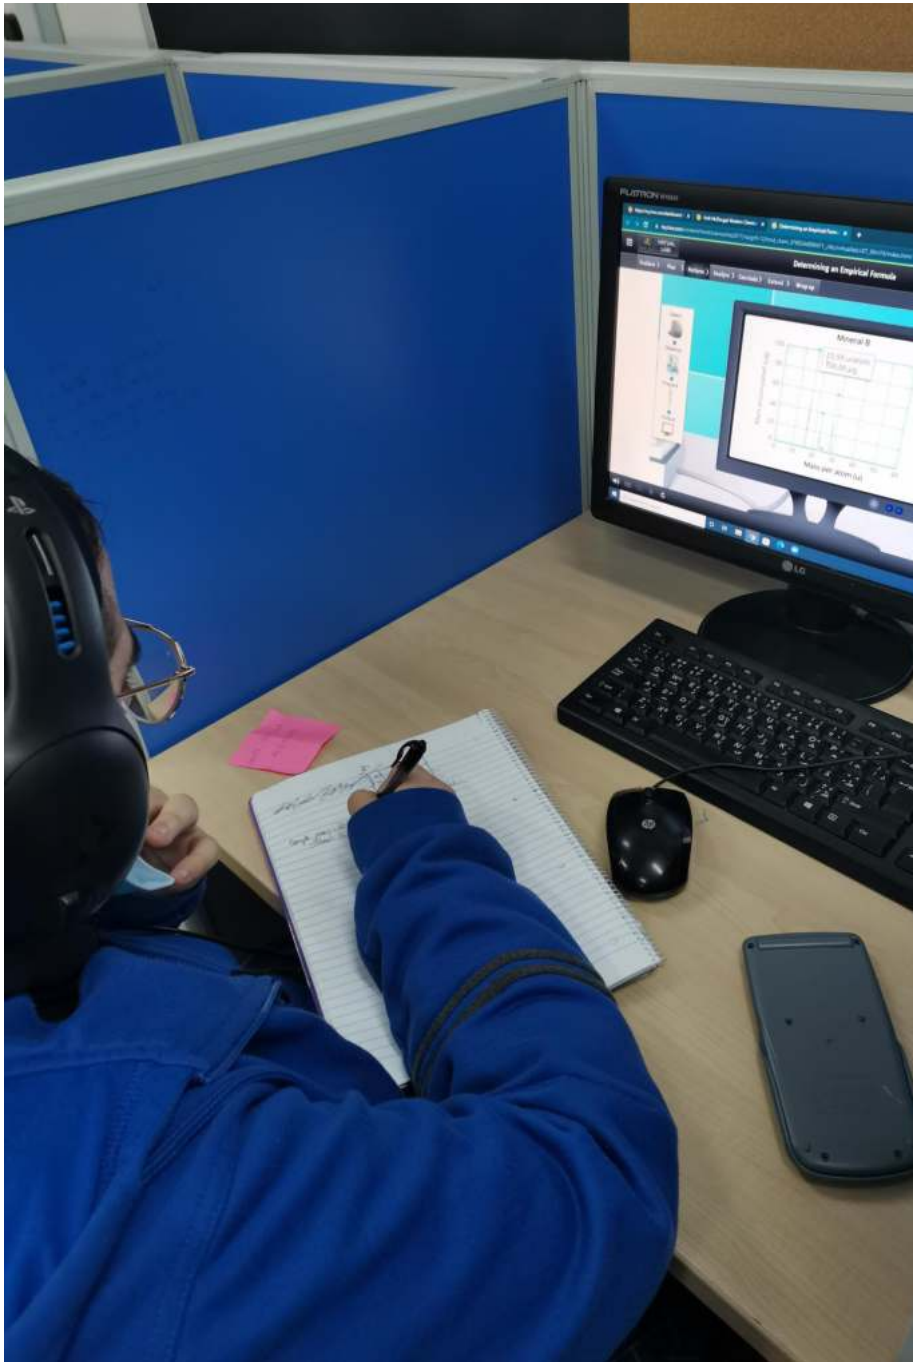

Grade 9 physical and chemical changes.

Grade 10 virtual lab

Grade 11 separation techniques lab.

Grade 11 sheep heart dissection

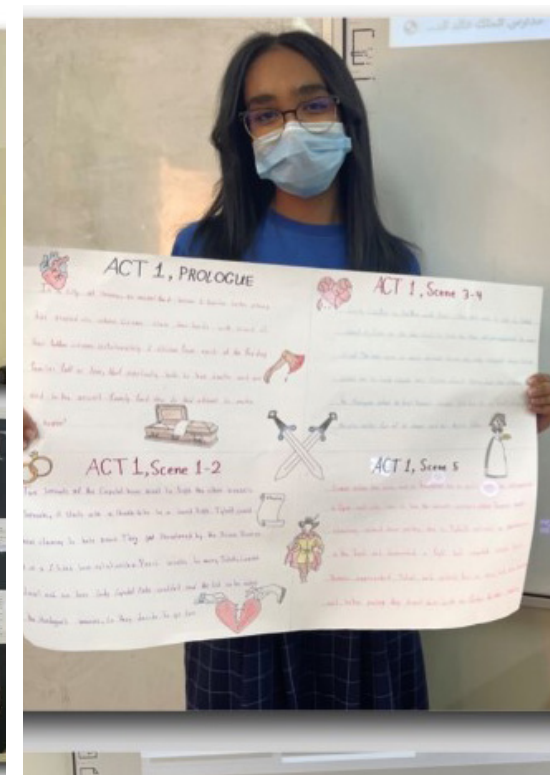

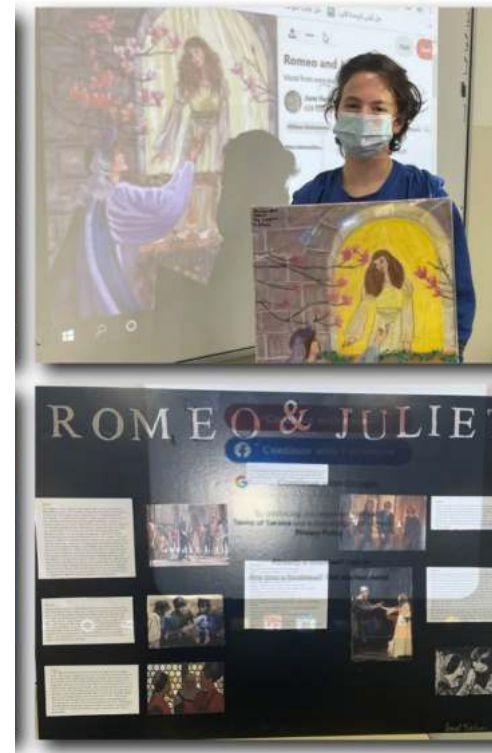

Grade 12 biology  
plant dissection lab.

# **ENGLISH GRADE 9**

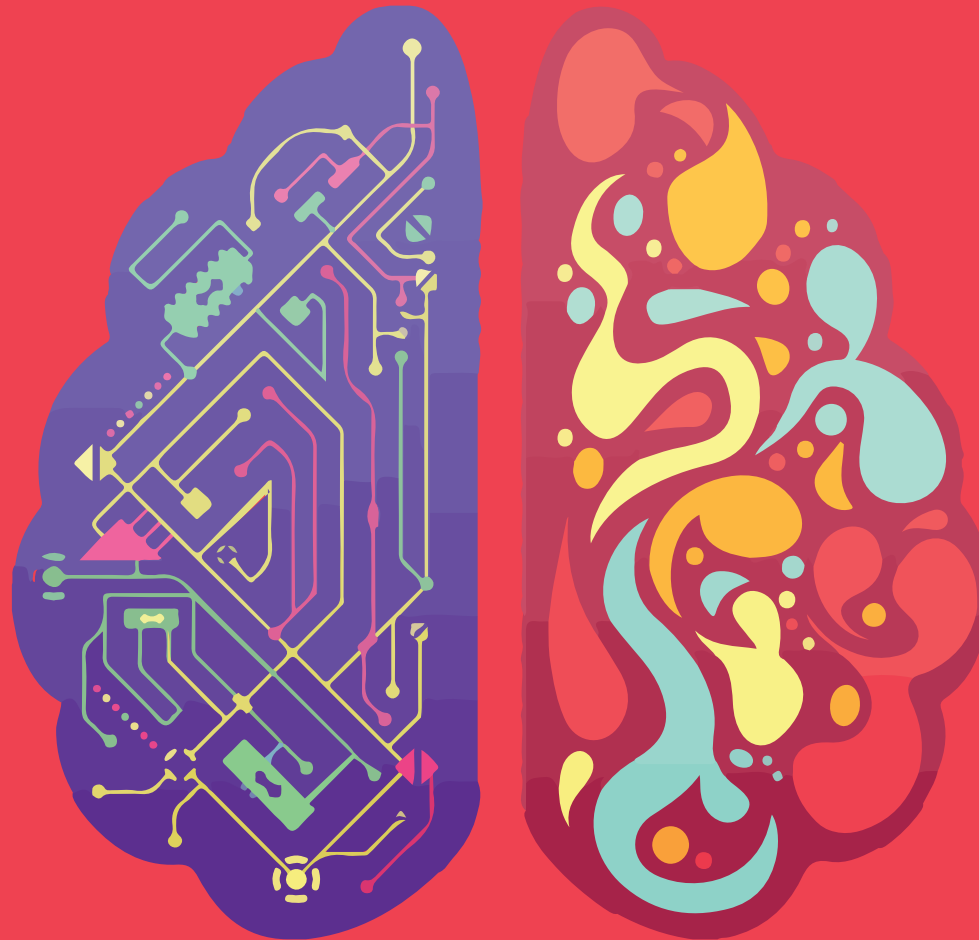

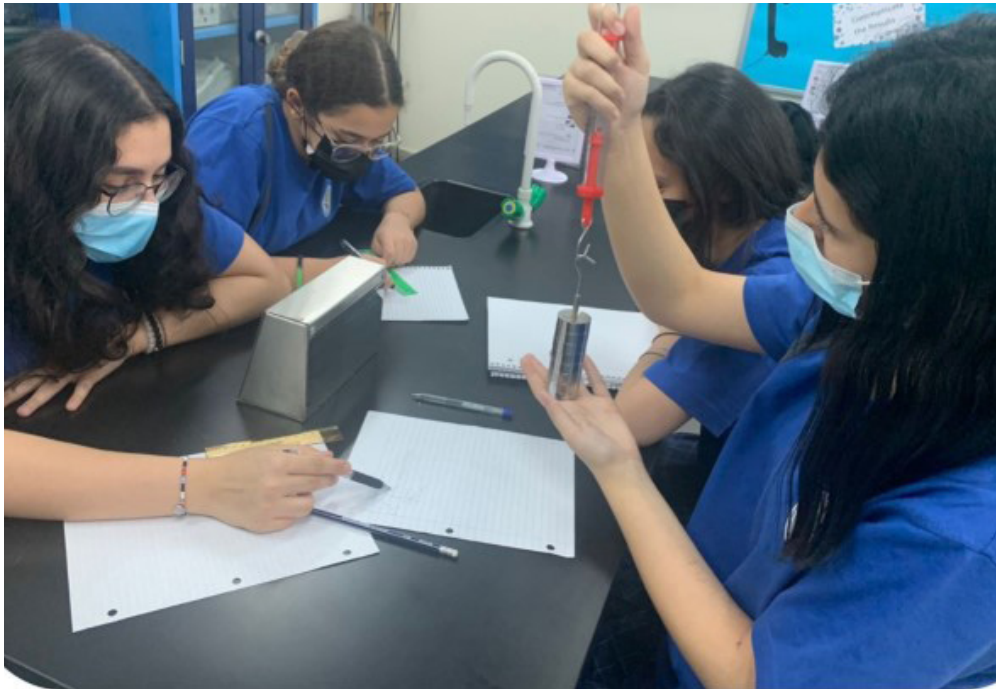

# HOOKE'S LAW

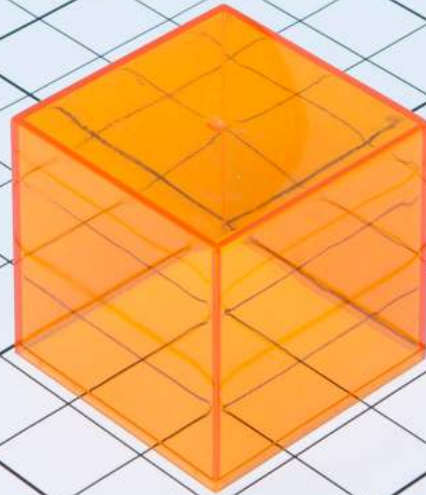

## GRADE 9

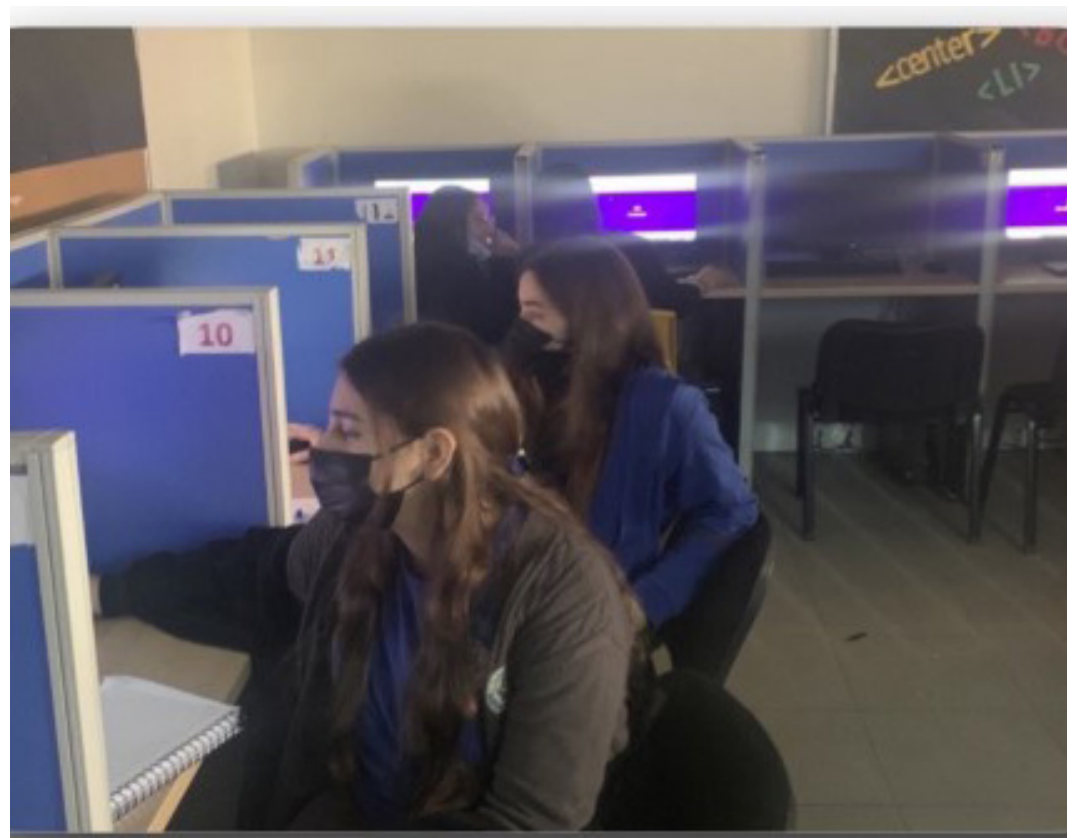

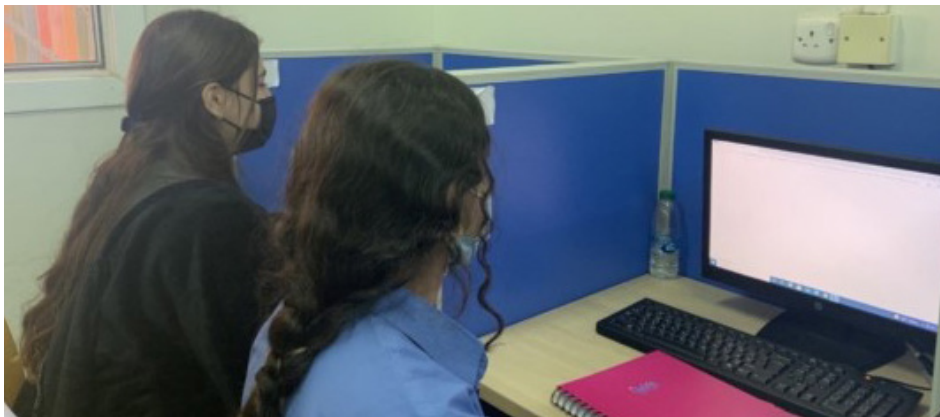

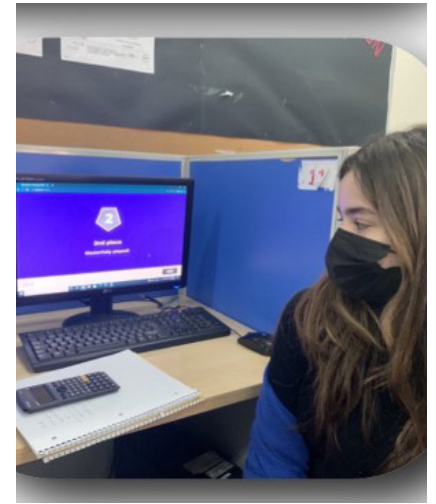

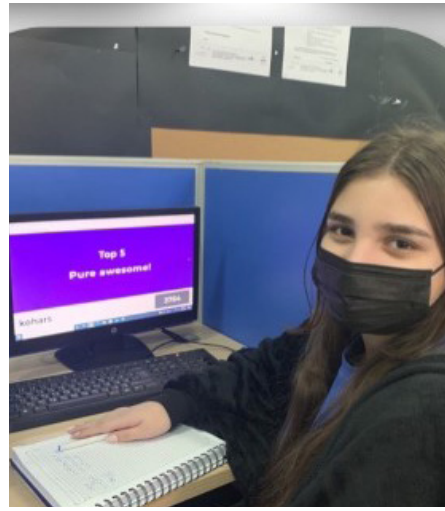

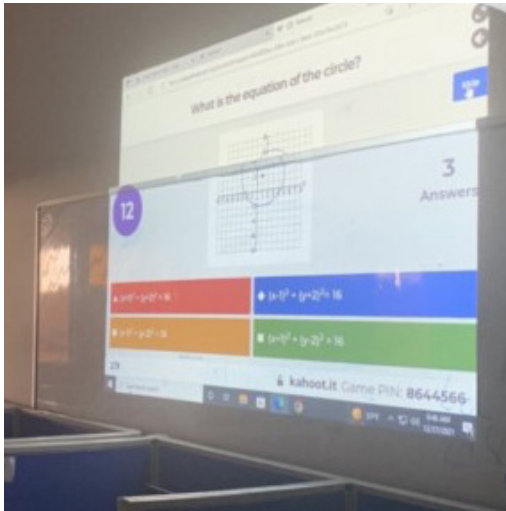

# MATH PROJECT GRADE 9

# **DNA PROJECT**

## **GRADE 10**

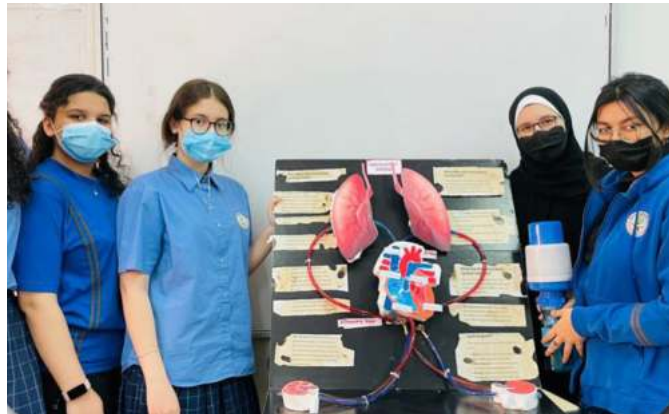

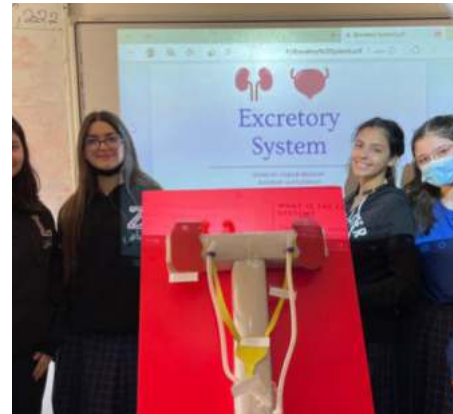

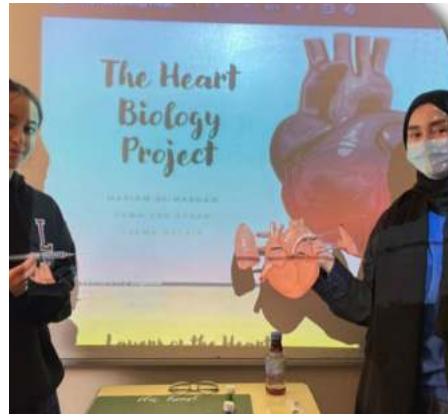

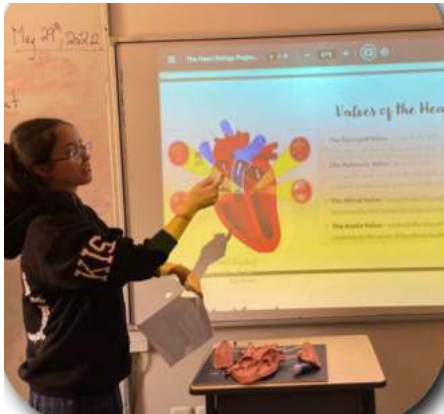

Grade 10 learners prepared projects about DNA, DNA fingerprinting and genetic engineering.

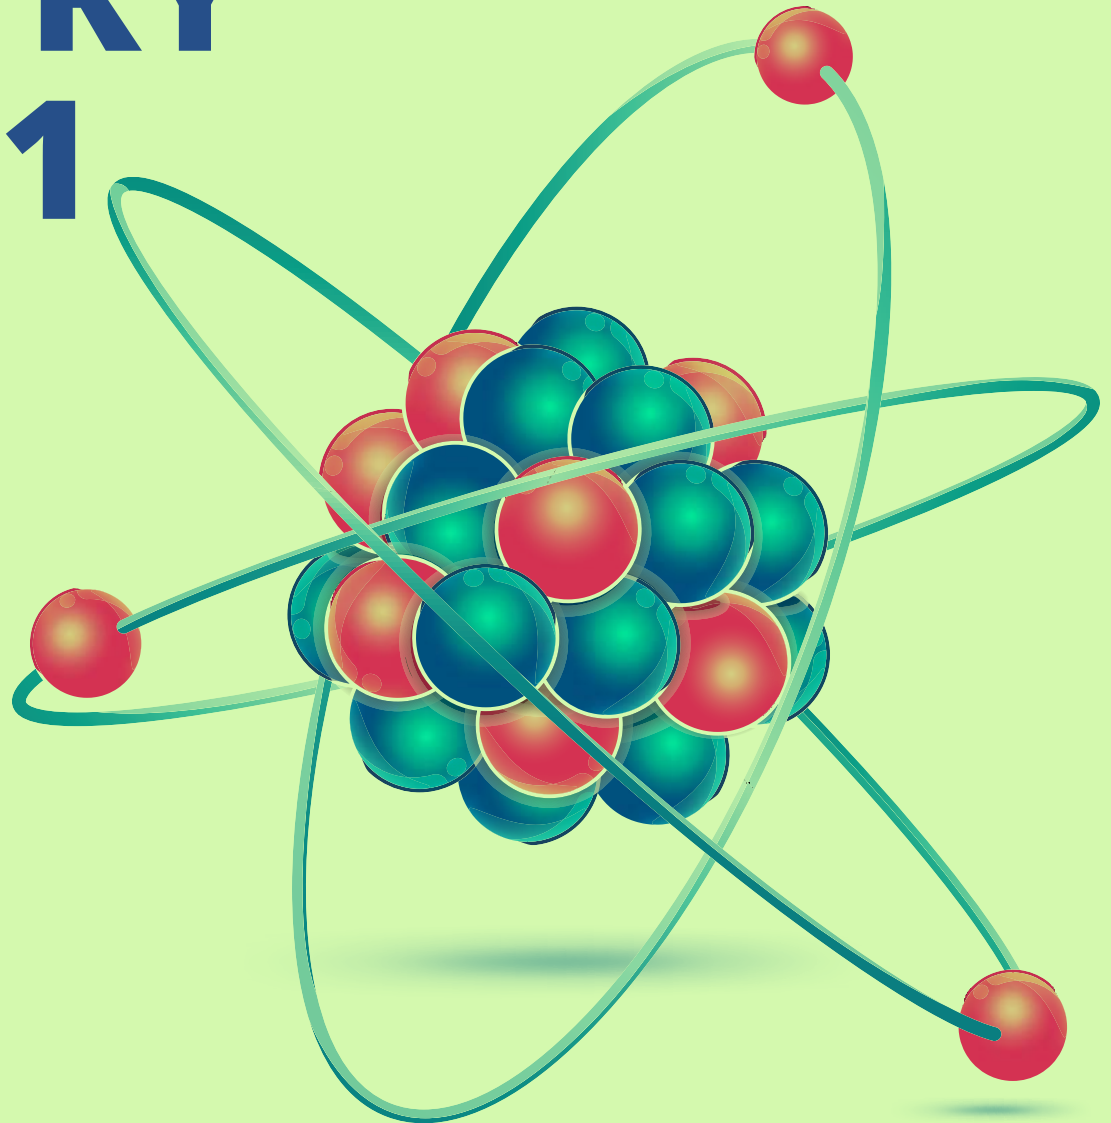

# **BIOLOGY GRADE 11**

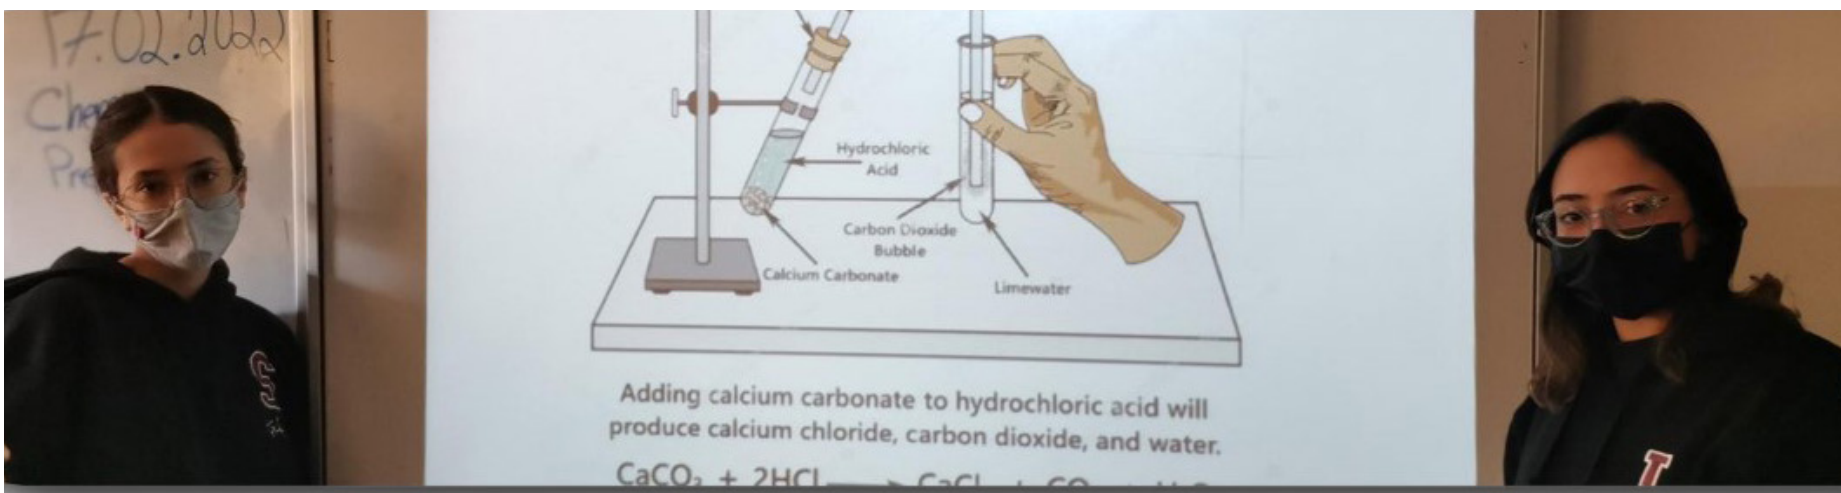

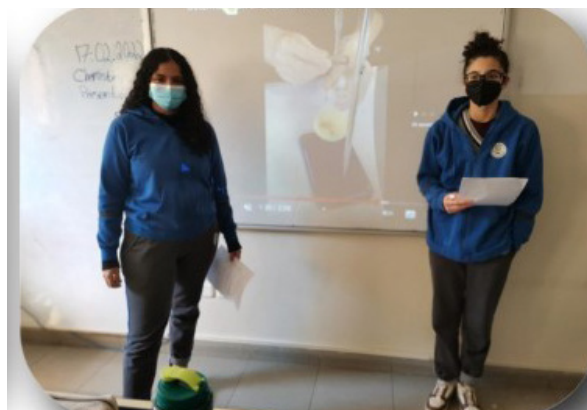

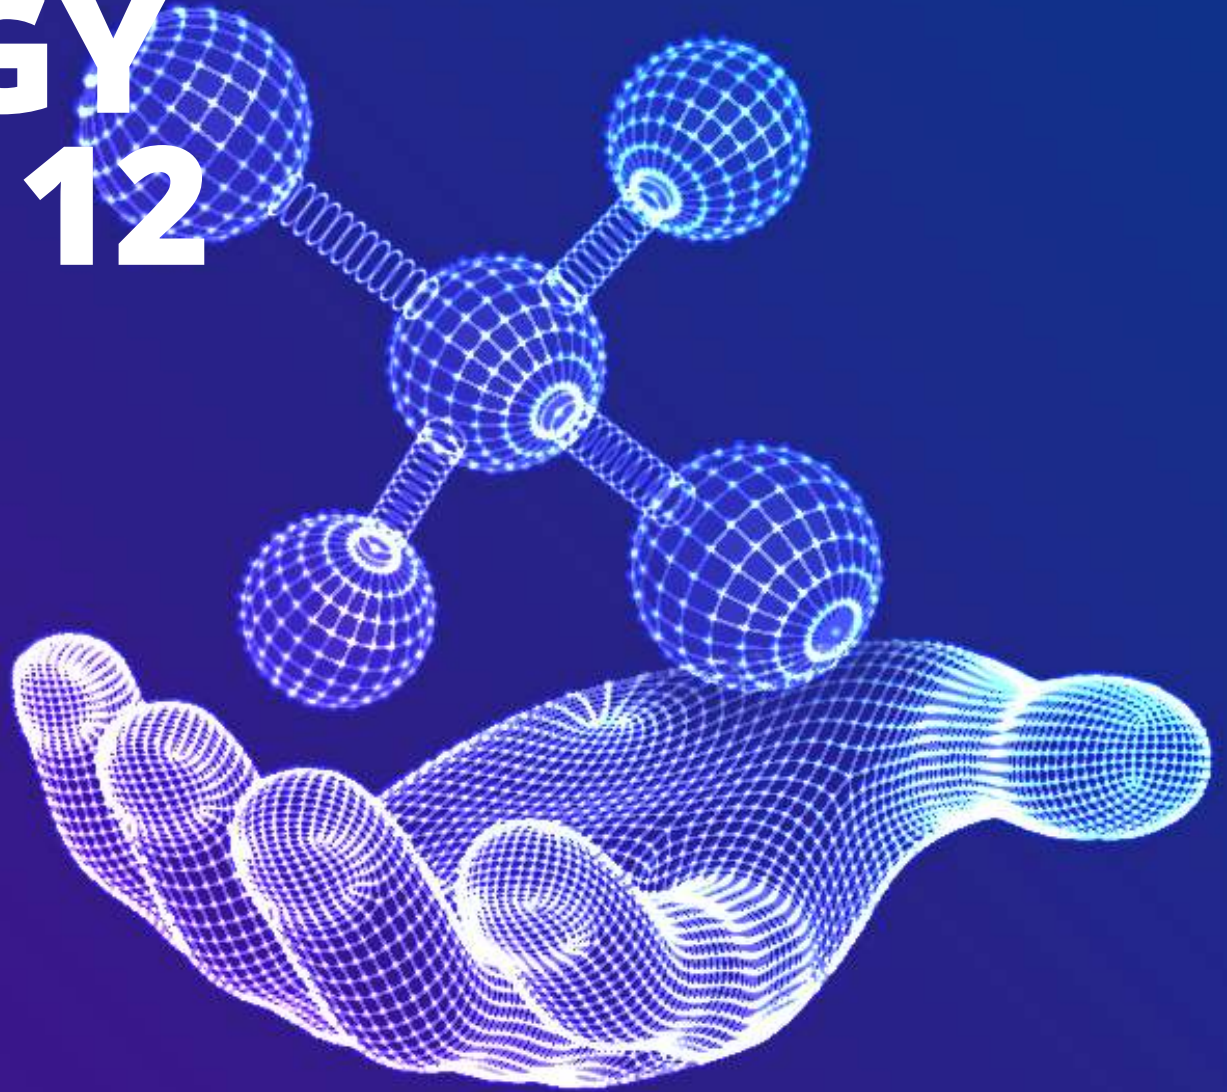

# CHEMISTRY GRADE 11

# **BIOLOGY** **GRADE 12**

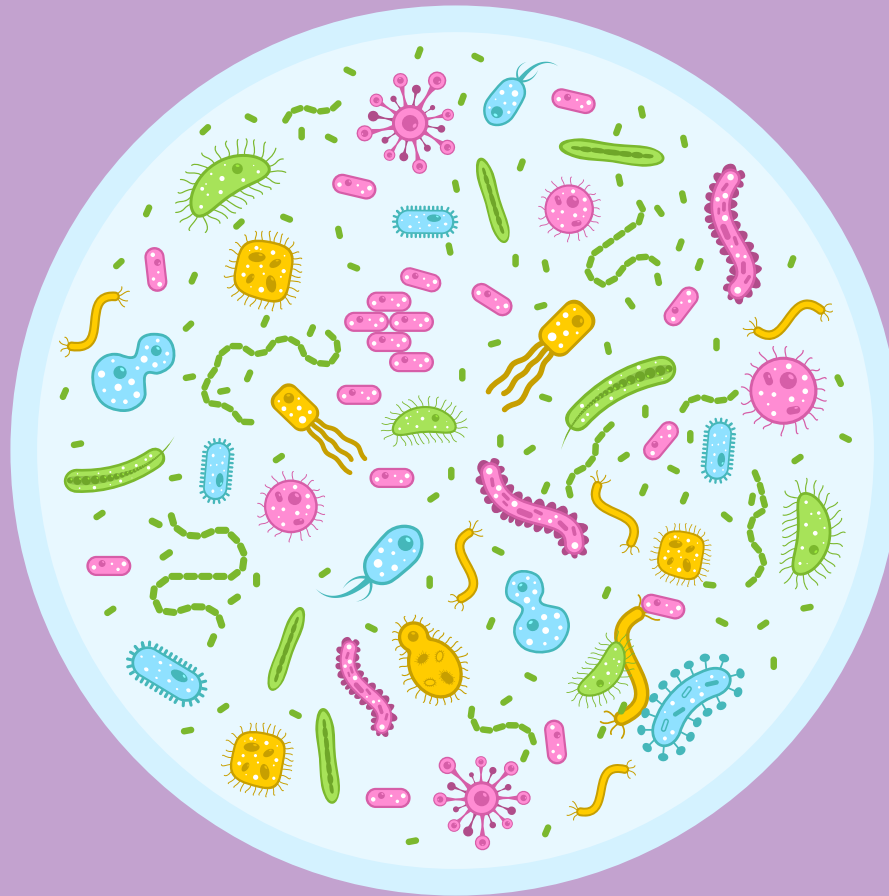

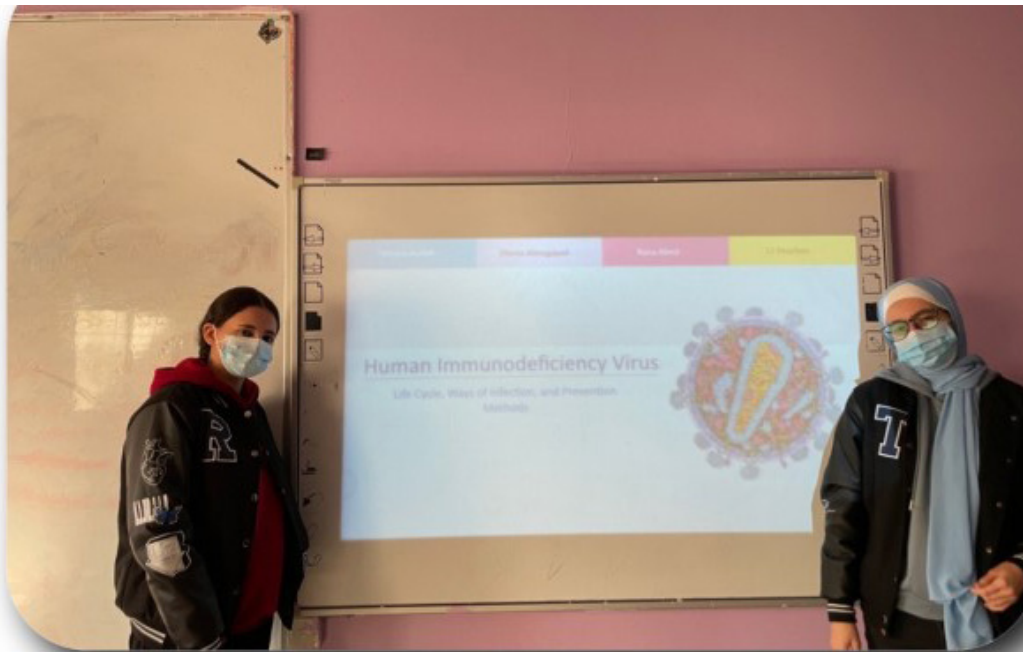

During Biology class, Grade 12 learners learnt how to dissect a shrimp, to explore and learn more about its anatomy. We believe in a hands-on approach to learning, to foster curiosity.

# BIOLOGY GRADE 12

# MAYA EL YOUSSEF

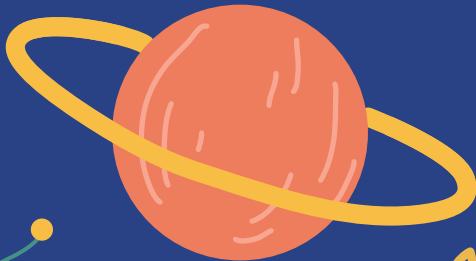

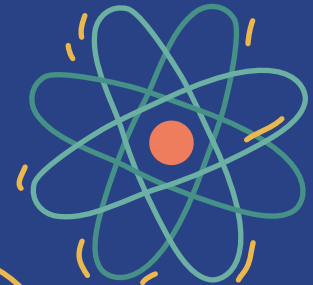

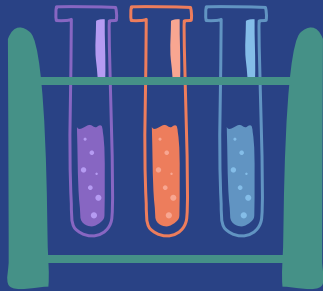

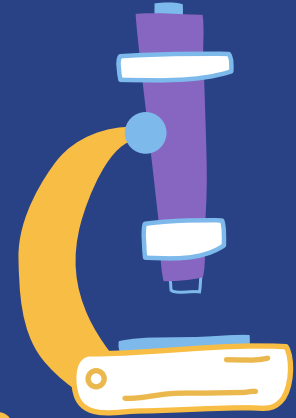

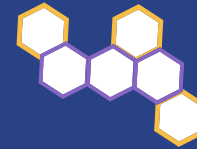

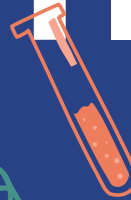

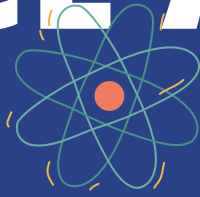

Maya El Youssef in grade 11, is a member of the Saudi Arabia Fencing Federation. She started fencing on the 19th of September. Fencing has three important skills blade work, footwork, and tactics.

Being a fencer improved my speed, agility, and processing of information rapidly. Maya had her first competition on the 17th of December and ranked 8th.

WE ARE VERY PROUD OF YOU MAYA!!!!!!
