A LETTER FROM OUR ACADEMIC DIRECTOR

In this ever-evolving world, the coming times of education are substantially connected with improvements in modern innovations and computing capacities. As a pioneer in modern technology, Khaled International Schools (KiS) aim to offer the best educational services to our learners.

Knowing that the devices are the future, our dedicated teachers are showing the learners how to use them effectively, providing them with the best chances for worldwide educational exposure and armoring them with the life and social skills they will need to succeed. The use of technologies is implemented in our classrooms and integrated into all activities. Learners are at the center of our classrooms and participate actively in their learning. They inquire, discover, and learn while having fun.

In this prospect, we proudly announce that KiS will launch its Robotics program in the 2023-2024 Academic Year. Learners from all grade levels will have access to the state-of-the-art labs to experiment hands-on with 3D printers and laptops. At last, one can't but highlight the crucial role our academic staff plays in forging young minds with strong personalities who know how to balance the use of technology in their day-to-day lives and put it to good use.

We hope you enjoyed your summer and are ready to take on another academic year full of new accomplishments and adventures with our learners.

Rami Farah
Academic Director – Boys' School

كلمة من مدير المدارس

لم تعرف الإنسانية أساساً يبني نهضتها ويخلد أمجادها كالعلم ولم يُعرف في تاريخ الأمم معول هدم أسقط الحضارات كالجهل . من هنا ومن هذا الصرح التعليمي الشامخ تبدأ الخطوة الأولى لنا نحو الحياة والعلم نحو العالم والنجاح معاً .

مدير المدارس

SAUDI NATIONAL DAY

KiS was honored to celebrate the Saudi National Day 91 - Boys' Section. The teachers and learners shared all happiness and joy. The assembly included some teachers and learners who reflected their honor and pride in the kingdom in their speeches and through the many poems they recited.

SAUDI FOUNDING DAY

KiS seniors celebrated the Saudi Founding Day under the theme of “When We First Started”.

The seniors passed by the classes and talked about the story of the firm roots of the Saudi state, recalled its founding and achievements, and shared the pride and will of connecting the past with the future with the Saudi Vision 2030.

A WORD FROM THE JUNIOR SCHOOL HEAD

A year full of accomplishments and success has come to an end. We at Khaled International School are proud of being able to fulfill our goals and aims for the academic year 2022-2023. The efficiency of the educational programs, the staff's professionalism, and the learners' enthusiasm are the main reasons for our accomplishments.

In addition to the educational process, activities play a crucial role in learning. That's why each department has included activities in its curriculum, such as visiting the Science lab, arranging football & basketball tournaments, English Spelling Bee & Grammar workshops, and many more.

Furthermore, technology is the future of education. At Khaled international school, we have implemented technology by all possible means. Robotics sessions will get started at the beginning of the next academic year. In addition, all classrooms have been and will be equipped with the latest smart interactive screens, providing a unique experience for learners and teachers to accomplish the educational process in the most efficient and rewarding way.

Communication plays a central role in education. We were, are, and will always be ready to answer parents' concerns through our communication channels. The meeting can be provided with your sons' teachers. Emails and phone calls are always responded to and dealt with.

You and we are here for one common purpose: The excellence of our learners!

Shawki Abdo
Head of Junior School Department

BOOK FAIR

Our learners were all smiles at the annual Book Fair.

TIME FOR ART

As part of our holistic approach to education, KiS learners produced wonderful pieces of art, related to Saudi National Day.

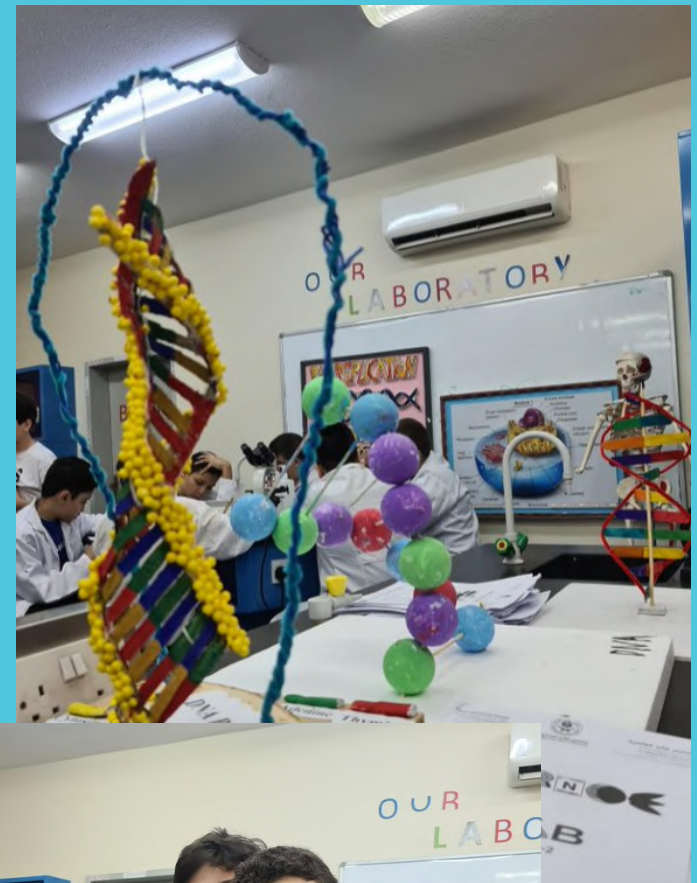

FOOD CULTURE

Learners celebrated their culture, by bringing traditional food to school and sharing it with others.

LAB VISITS

Our learners explored the world of science, in their lab visit.

SCIENCE FAIR

Discovering the world of science was made possible at the annual fair, where learners from Grades 4 to 7 came together and presented their unique projects.

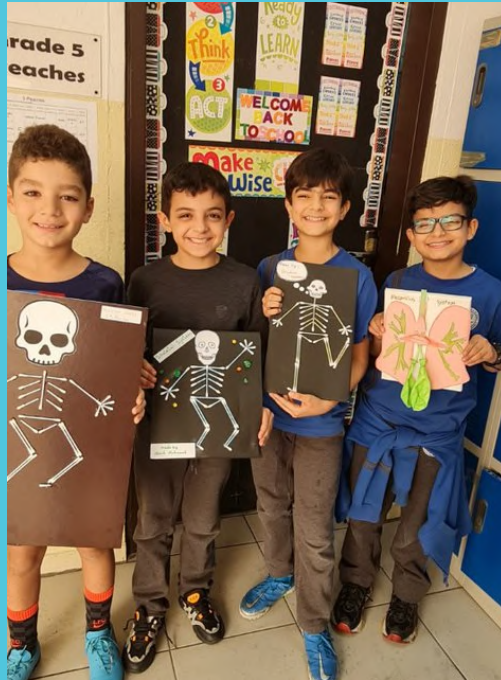

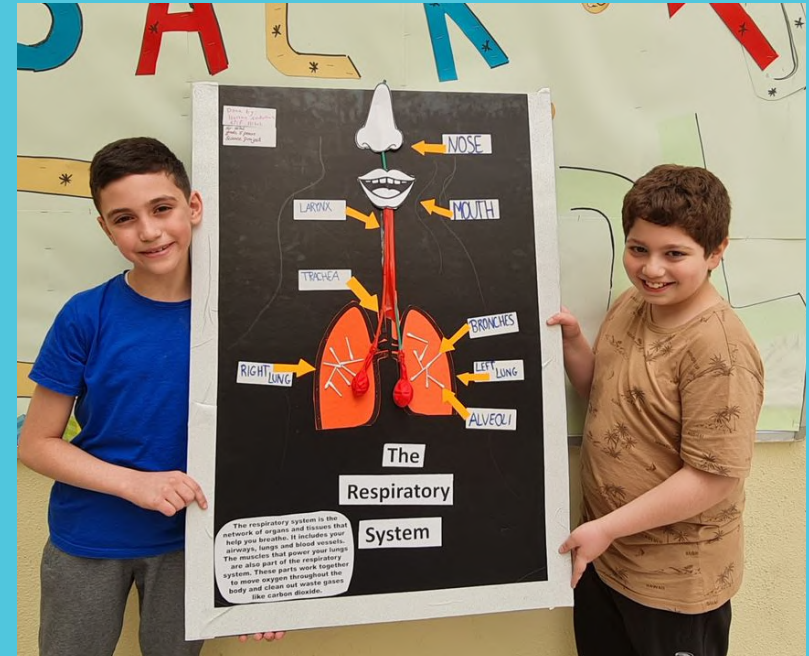

SCIENCE ACTIVITIES

Our STEM program at KiS, ensures learners get hand-on and practical experiences in the classroom. Here, Grade 4 learners showcased their projects.

STEM PROGRAM

Our STEM program at KiS, ensures learners get hand-on and practical experiences in the classroom. Grade 5 learners showcased their projects on the respiratory and skeletal systems.

EXCITING SCIENCE

Learners in Grades 7 and 8, put their projects on display, covering a range of scientific topics.

MIDDLE & HIGH SCHOOL HIGHLIGHTS

LWIS
NETWORK | A Learner's World

A WORD FROM THE SENIOR SCHOOL HEAD

Another successful year had come to an end. I am expressing my gratitude to those who directly or indirectly contributed to this success, whether teaching staff or administration. Throughout this year, we tried our best to offer our learners the most learning experience and cater to their needs, especially in preparing them for external exams. We tried to influence not only their intellectual growth but also their social and emotional.

We also succeeded this year in administering AP exams during May. More than a hundred learners from KiS and other schools did around 180 AP exams at school in a very smooth and calm environment. Moreover, after becoming a candidate school for the IB-DP (International Baccalaureate - Diploma Programme), we began working with steady steps towards reaching authorization in the coming years. As for our learners coming back next academic year, I look forward to seeing you around, refreshed and ready to tackle another year of opportunities and challenges. I urge every one of you to do a genuine reflection on his performance and see where you have succeeded and where you need to improve. This will help you walk into the coming academic year with a new mindset and clear goals.

George Srour
Head of Senior School

ENGLISH PRESENTATION – “BEOWULF”

Grade 12 Seniors - English Presentation:
Gr. 12 seniors worked hard and prepared a full analysis of the Epic of Beowulf. They worked in groups to cover all sections of this epic. They presented their analysis and projects.

TRIP TO THE CINEMA

Grade 12 Seniors went on a trip to the cinema, where they spent their time watching a movie (Black Adam). They also enjoyed: bowling, shopping, and lunch together.

KIS CARES - CHARITY INITIATIVE

“Charity is a virtue of the heart, and not of the hands”.

Donating to the causes you care about not only benefits the charities themselves, but it can also be deeply rewarding for you too. We at KiS believe in giving as a part of our ethical beliefs.

Based on this, our teachers and learners shared the true meaning of giving by bringing clothes, toys, and shoes to school, where we collected them all and packed them to send to those in need. Seniors' 22 visited Rabwa Charity Center to deliver what had been collected.

VISITING SAUDI POST

Learners visited the Saudi Post headquarters, exploring the logistics management of postal services.

CLEANLINESS & SELF-HYGIENE

Learners at Khaled International Schools (of Grades 4 to 7) attended an assembly by Grade 12 Seniors.

The topic of the assembly was cleanliness and self-hygiene. The seniors shared with the students' tips on how to wash hands, how to keep classes well-organized and clean, and the dos and don'ts when going to the bathroom.

A video, done and performed by Gr. 12 seniors, was played on the screen.

UNIVERSITY FAIRS

KiS held a fair of Canadian universities.

Students who are willing to continue their undergraduate study abroad at the universities in Canada had the opportunity to visit the KiS fair of Canadian universities.

The team shared with our students some major procedures, discussed with them thorough details on how to collaborate, and provided further support for our school and students.

UNIVERSITY & COLLEGE GUIDANCE AND ADVISING

Explore the programs, orientation sessions and university & college support services we extend to our community.

- Host university representatives from reputable universities from across the Middle East, UK, USA and Canada
- Conduct orientation sessions about admission requirements and the difference between AP, IG & IB
- Assist learners to get ready for **external exams** such as SAT, ACT, SAAT, GAT, AP, etc.
- Upload **required documents** such as transcripts, SAT and IELTS scores
- Promote **enrichment programs** in KSA and abroad in order to **enhance their skills** and **upgrade their university applications**

FOOTBALL LEAGUE

The Basketball League at KiS has come to an end.

The final match was between Grades 11 & Grade 12.

Grade 11 won the match and were announced KiS basketball champions. The championship was arranged and supervised by the PE teacher, Mr. Aziz Abido.

SENIOR CELEBRATION

It was a very nice year with the seniors of 2023.

SCIENCE FAIR

Aging can bring about unique health issues.

There are three aspects of aging: biological, psychological, and social. In order to be more familiar with all struggles of the elderly, and to have more knowledge about health concerns in old people, our learners did a Stem fair related to the elderly topic where they used technology in their projects, including presentations, videos, games that relate to their topic, they also prepared some functional models to explain how a normal body system functions. Learners added some hands-on activities and some chemical experiments, and voting was done on Google Forms

AP

ADVANCED PLACEMENT CENTER

Our AP Center is designed for learners in Grades 10, 11 and 12, to unlock their potential and excel at universities of their choice.
